ONE STOP FOR ALL YOUR MARINE NEEDS - ECONOMICAL, **REAL VALUE FOR YOUR MONEY**

Showroom in Dubai, UAE. Marine Equipment and Accessories Boats & Yachts, Sales &Service
Exclusive distributor in GCC

Representation in Bahrain, Qatar, Kuwait, Saudi Arabia, Oman and India
Being exclusive distributor for products from the USA, Canada, Italy, Germany, Netherlands, Turkey and other countries, Empire Marine operates with a strong representation in the GCC countries and in India.

Empire Marine has already turned the winds favourable for its sailing through its immense experience and loyalty which the empire group has garnered through its various business ventures.

Empire Marine International LLC, Dubai showroom is positioned at a vantage point in Al Jadaf Ship Docking Yard DY 115 Dubai U.A.E. To give the clients the vastness they are familiar with, the showroom is spread over an area of 5000 sq.ft with the interiors providing an ambience and cosiness of a private yacht.

ABOUT US

With over two decades of experience in the service industry, Empire group's venture 'Empire Marine International' continues to add new products to its store. Our principles located mainly in Europe and North America supports us with training and expertise to deal with sophisticated marine equipments to the discerning clients. Our representatives in the GCC countries and India are well experienced in the trade with enough expertise to cater to the needs of the clients.

Being a regular in all the major international boat shows, Empire Marine International is familiar with major manufacturers of boating products, boat builders, equipment manufacturers, etc. It also has many associations in the form of franchise ships, exclusive agency and selling agreements directly with the manufacturer.

Empire Marine International deals with:
- Inflatable boats, tender jets and yachts
- Seats
- Marine Ropes
- Steering and control products
- Anchoring accessories and safety products
- Marine hardware
- Trailer Accessories
- Marine Cleaning Products
- Marine electronics and accessories
- Marine lightings and underwater lights
- Marine Audio System
- Marine Generator & Air Conditioning.

Our products are from world renowned manufacturers in the trade backed by years of uninterrupted patronage by hobbyists, water sports enthusiasts and business people alike.

The largest Marine showroom in the Middle East!

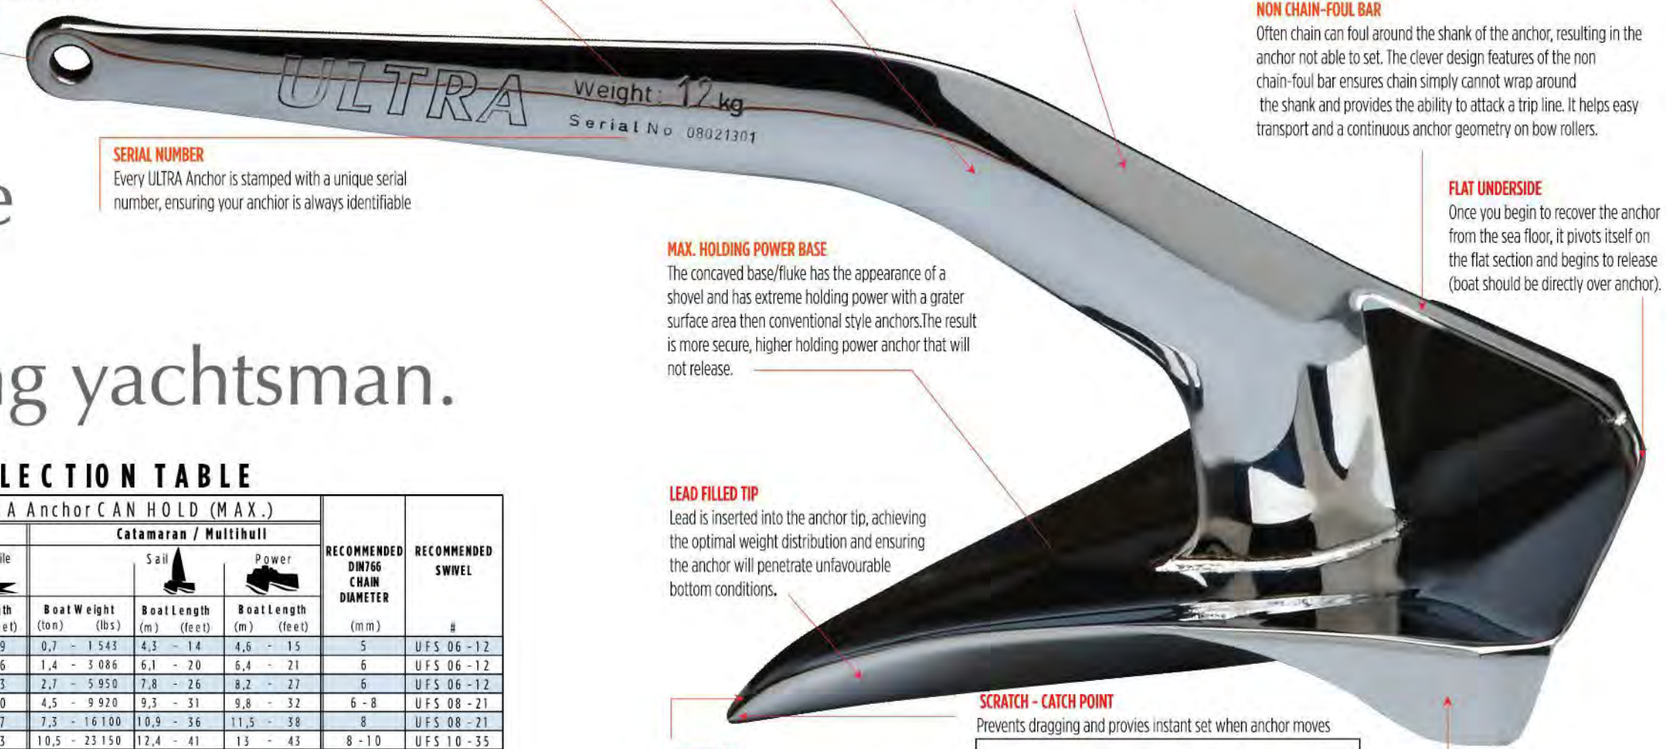
No. 1 Anchor in the world

ULTRA ANCHOR

& SPECIALIST ANCHORING EQUIPMENT

MADE IN TURKEY

Marine hardware for the discerning yachtsman.



REINFORCED EYE
Even under the most extreme load the shank`s reinforced eye will not bend, break or fail.

ANCHOR WEIGHT DETAIL
The anchor weight is stamped into the shank and identifies the anchor size in both kg`s and lbs

HOLLOW SHANK
Enables weight to be concentrated on the anchor tip.

TUBULAR CONSTRUCTION
Anchor cannot lie on its spine and recover instantly to the attack position.
Anchor will load correctly into the bow roller.

NON CHAIN-FOUL BAR
Often chain can foul around the shank of the anchor, resulting in the anchor not able to set. The clever design features of the non chain-foul bar ensures chain simply cannot wrap around the shank and provides the ability to attack a trip line. It helps easy transport and a continuous anchor geometry on bow rollers.

SERIAL NUMBER
Every ULTRA Anchor is stamped with a unique serial number, ensuring your anchior is always identifiable

FLAT UNDERSIDE
Once you begin to recover the anchor from the sea floor, it pivots itself on the flat section and begins to release (boat should be directly over anchor).

MAX. HOLDING POWER BASE
The concaved base/fluke has the appearance of a shovel and has extreme holding power with a grater surface area then conventional style anchors.The result is more secure, higher holding power anchor that will not release.

LEAD FILLED TIP
Lead is inserted into the anchor tip, achieving the optimal weight distribution and ensuring the anchor will penetrate unfavourable bottom conditions.

SCRATCH - CATCH POINT
Prevents dragging and provies instant set when anchor moves

CURVED TIP
Importantly, the anchor tip is shaped downwards, ensuring a continuous setting under unfavourable weatger conditions. Its angles on the other hand let it help anchor instant set even when the anchor is not at the right attack position.

SIDE WING PLATES
The ULTRA Anchor does not release in a chaning wind or tide, it performs a complete 180 degree rotation (while still buried) on its own length and holds firm.

GUARANTEE :

- Anchor selection should be based on the largest anchor recommended, according to boat weight (fully loaded) and boat length, as per selection chart. Windage must be considered. (Please look at the WARNING section)
- One size smaller may sufficent subject torecommendations.
- Recommended anchor size is covered by the Manufacturer Life Time Warranty (conditions apply).

WARNING :

- Whilst ULTRAnchor is designed to withstand extreme load, using excessive engine power to free the anchor might lead to deformation and void the warranty agreement.
- We recommend the use of a tirp line or ULTRAnchor Ring to free the anchor.

NOTES :

- ULTRAnchors over 100kg must be selected by Lloyds (ULTRAnchor selection chart is to be used for guidance only).
- ULTRAnchors are designed for bow or stern anchors and are not suitable for use with a side hawse hole.
