- ▶ Technical Manager having 20 Years experience in U.A.E
- ▶ Project Manager with 15 Years experience in U.A.E /GCC.
- ▶ Estimation Engineer Draftsman having 5 years experience in U. A. E.

ALUMINIUM, GLASS & KITCHEN CABINET DEPARTMENTS

- ▶ Production Engineer having 15 years experience in U.A.E in the Aluminium field.
- ▶ Site Engineers having 10 years of experience in U.A.E/GCC.
- ▶ There are three foremen in the Aluminium Department:
- ▶ Two foremen for the sites to take measurements and in charge of installation. Both have more than 10 years experience.
- ▶ Forty Five Technical Aluminium Fabricators 5 to 10 years experienced and most of them are worked in UAE since more than 5 years.
- ▶ Two Foremen in Glass Department Having more than 10 years experience in ordinary and structural glazing.
- ▶ One foremen to supervise the Glass cutting and fixing.
- ▶ One foremen is in charge of Double Glazing Dept. & Sandblasting.
- ▶ Fifteen Technical Glass Fabricators (5-10 years experienced).
- ▶ One Foreman having 10 years experience is in charge of the production & installation of Kitchen Cabinet work.
- ▶ Eight Technical Fabricators of Kitchen Cabinet works having 5 10 years experienced.

CLADDING & STAINLESS STEEL DEPARTMENTS

- ▶ Production Engineer having 10 years experience in U.A.E in the Aluminium Cladding & Metal field.
- ▶ One Site Engineer having 10 years of experience in U.A.E is in charge Aluminium Cladding & Metal works including Steel & Stainless Steel.
- ▶ There are three foremen for site to take site measurements and installation, having more than 10 years U.A.E. Experience.
- ▶ The Foreman in charge of the production inside the factory has more than 20 years of experience in U.A.E.
- ▶ Thirty Cladding/metal Fabricators 7 to 10 years experienced in U.A.E.
- ▶ Sixty Five Assistants.

THE FACTORY HAS BEEN EQUIPPED WITH THE FOLLOWING:

- ▶ Computerised Fully Automatic CNC Router Machine- Router Master RmII, CAMTECH, CANADA. Working Area 2000x 4000mm for Cutting & Fabrication Of Aluminium Composite Cladding panels
- ▶ Fully Automatic Double Head Aluminium Cutting Machine-EMMEGI, ITALY.
- ▶ Automatic Cutting machine with Auto weight feeding system- Rekta-Altech, Italy
- ▶ Automatic Tilting Cutting Machine 500 mm (VenusItaly)
- Can cut the maximum size of curtain wall section.
- ▶ Four Cutting Machine Thomas 450 mm, Italy.
Can cut section up to 135mm width and 60mm height.
- ▶ Four Cutting Machine Thomas 350 mm, Italy.
Can cut section up to 125mm width and 60mm height.

- ▶ Arch Bending Machine, Italy.
- ▶ Powers hydraulic press 10 ton, Italy. It has the capacity to make notching for the shutters of the four side umbrella section.
- ▶ Milling Machine Double head vertical and horizontal Italy.
- ▶ Mechanical Clamping machine, Italy for mechanical assembly of frames and shutters up to 120mm width.
- ▶ Three Air Compressor 25 HP double head, Bottarini- Italy.
- ▶ Aluminium Mig welding Machine.
- ▶ Miller Maxstar 150 STH
- ▶ Glass Sandblasting Machine.
- ▶ Double Glazing line -Baretta Profile Italy & Silicone machine- Lisec, Italy
- ▶ Automatic Glass Cutting Machine
- ▶ Two Cladding Sheet Cutting & Grooving Machines-Sicar-Italy.
- ▶ Squaring Circular Saw machine 4mmx2500mm-Partner 3200, Sicar, Italy
- ▶ Motorised Plate rolling Machine-MG Italy(three rolls)
for Steel, St. Steel, Aluminium & Alum. Cladding Sheets.
- ▶ Tig Welding Machine with 200 Amps.- Maxstar 200SD, USA
- ▶ Pipe Grinding & Notching Machine, Miksan-Turkey
- ▶ Adj. Angle Notcher machine
- ▶ Heavy Duty pneumatic copy router machine- Copia, 300,EMMEGI, ITALY
- ▶ Lathe Machine
- ▶ Milling/ Drilling machine
- ▶ Standard Drill machine
- ▶ Pedestal Grinding machine
- ▶ Hydraulic Section/profile bending Machine- W24Y-1000,1320x950x950mm.
- ▶ Hydraulic Press Brake160 ton/3100mm
- ▶ Hydraulic Shearing Machine 12mm/3100mm
- ▶ Hydraulic Folding machine up to 4mmthick & 3100mm length,110 degree
- ▶ Band Saw Machine- 230x230mm, up to 30mm diameter.
- ▶ Electric Rolling machine 105mm/1530mm.

All the machines are pneumatic.

Added to this we have a variety of production tools and appliances such as Screwdrivers, Riveters, and Drills, working by compressed air.
