## Follow the Specification

Unique Model has the experience and capability to create highly detailed models. We use safe finishes, paints and materials. We use best techniques for creating beautiful model frames and bases. The company is committed to provide clients with precise and realistic representation of architectural details, colours and material surface treatment. The high accuracy models are constructed with the cutting edge technologies in laser-cut, stereo lithography, metal etching and casting process. We exactly follow the specification that has been provided by the architectural projects.

Scale: 1/1000metric  
Model Size: 160cmX80cmx35cmH  
Time consumption: 35days  
Year of Production: 22/03/2008

Project: Al Hilal ( Agman )  
Consultant : Mazaya  
Scale: 1/150 metric  
Model Size: 120 cm x 85 cm/ Height 115 cm  
Time consumption: 10 days  
Year of Production: 04. 01. 2008

### 3D Animation Features

In our opinion, 3D animation concentrates on discovering architectural design's inner characteristics and personalities, representing it through an artistic approach to move and impress spectators. Breaking through computer workmanship limitations, **Unique Models** features 3D animation into an ambitious art form.

Project: Al Bena'a ( Abu Dhabi )  
Consultant : AP.G  
Scale: 1/100 metric  
Model Size: 110 cm x 70 cm / Height 46 cm
