COMPANY PROFILE

INTRODUCTION

We are pleased to introduce **Ecopower Switchgear LLC**.

As one of the L.V. Switchgear manufacturer and supplier led by professionals with experience of more than 25 years in the UAE and GCC Region. Ecopower has its main office & modern manufacturing facility based in Ras Al Khor III, Dubai.

Ecopower Switchgear is a successful industrial partner throughout the UAE, providing after sales & customer service facility.

Ecopower Switchgear has separate designing and manufacturing department equipped with professional and experienced technicians, who has capacity to assemble PLC & BMS Panels, Synchronizing Panels, VFD Panels, Soft Starter Panels, MDB's, ACB Panels, ATS Panels, SMDB's and Capacitor Bank's to the standards specified by Local Authorities such as DEWA, FEWA & honorable Consultants.

We are using the Switchgear Components like ABB, Schneider, LS, Eaton, & Siemens from recognized suppliers and built on the standards of ASTA with proper testing for various parameters like flash test, primary Injection, Megger testing etc.

Our motto is to maintain high quality standard in the market, which enables us to meet and satisfy our client requirement.

We are an ISO 9001:2015 certified company.

We hope the above information is sufficient for your satisfaction and analyzing to our credibility, and are willing to render our services to your valuable organization.

Looking forward to receive your enquiries and valuable order soon.

Ecopower Switchgear LLC

Since the time of formation Ecopower Switchgear LLC has penetrated to the engineering market to provide technological solutions and support to the customers. Ecopower has its manufacturing facility equipped with all modern facility for designing, Engineering, Integration and Testing at Ras Al Khor Industrial-3, Dubai, U.A.E. Ecopower has a fine team of professionals well trained and experienced with excellent work force. Ecopower has established and implemented a quality management system which ensures the quality of design and production to exceed the customer expectations.

Ecopower with the strength in both low voltage panel manufacturing includes ATS, AMF, Synchronization panel, MDB, SMDB, MCC Panels can provide a total electrical and control package solutions, which give customers design and engineering comfort and total solutions in single basket.

Quality Policy:

Ecopower Switchgear LLC established quality policy and it is communicated across the organization. We are committed to continually improve the effectiveness of the documented and established quality management system and the objectives of an organization are documented as quality objectives of the organization.

Top management has defined a quality policy for the organization, which is considered as a benchmark to provide quality service to the customers. Management ensures that all the employees whose work affects the quality of the service understands the "quality policy" of the organization and are committed towards it. Quality policy is periodically reviewed to ensure its continuing suitability with the organizational needs and the changing environment. All the products manufactured in our facility will be tested and checked properly before delivering to the client. Below pictures shows the testing are and arrangement for the testing.

Capability:

Our well-equipped workshop with necessary infrastructure supported with CAD facilities for designing, testing machines for testing of LV panels. Excellent workforce enables us to meet and committed to give the best quality product along with after sales service. The essence of its success lies in the expertise of a fine team of professionals, strong relationship with associates, the ability to adapt quickly, efficiently and ably supported with the vision to think ahead.

Vision:

Our vision is to build on long standing traditions of technical expertise to meet and exceed customer's expectations and be recognized as a leader within the region. With the vision to expand its products and services in the international sector, Ecopower Switchgear LLC offers flexibility and adaptability in its proven designs to suit GCC and international stipulations.

Mission:

Our mission is to achieve our vision through fairness, business ethics, global reach, technological expertise, building long term relationships with all our associates, customers, partners, and employees.

Objective:

Our objective is to stay as market leaders by maintaining and improving our product quality and its features. The improvement of our quality standards helps us to strengthen our market position.

Strength:

We have well experienced and qualified employees in all of our divisions. They work together to achieve their goals and there for the company.

Conclusion:

Ecopower Switchgear LLC is firmly established as an Industrial leader in the manufacturer, supply and maintenance of LV, Control and MCC systems In United Arab Emirates and throughout the rest of GCC.

Supported by a pedigree of unsurpassed experience and an uncompromising commitment to international quality standards, the company manufactures, LV Switchgears, MDBs, SMDBs, Capacitor bank Panels, Generator synchronization panels, Control desks and consoles, other dedicated controller system usually for Building management and HVAC applications and Motor Control Centre panels.

All products are supported by professional services and comprehensive range of maintenance program.
