**Malls & Retail Outlets**

**Hospitals**

**Commercial Complexes & Office Buildings**

**Banks & Airports**

## STEAM ENGINE

### CHILLERS

Steam engine provides chillers that are manufactured for GCC region, since our weather conditions are very warm during the year. We produce wide range variety of systems in designs, sizing and dimensions. We are able to serve customised systems for residential, hotels and industrial applications.

Steam engine have worked with companies and private villas throughout UAE to resolve their heat loads. Innovation, simplicity and reliability through practical, technical and maintenance experience are the secrets to our success in this industry.

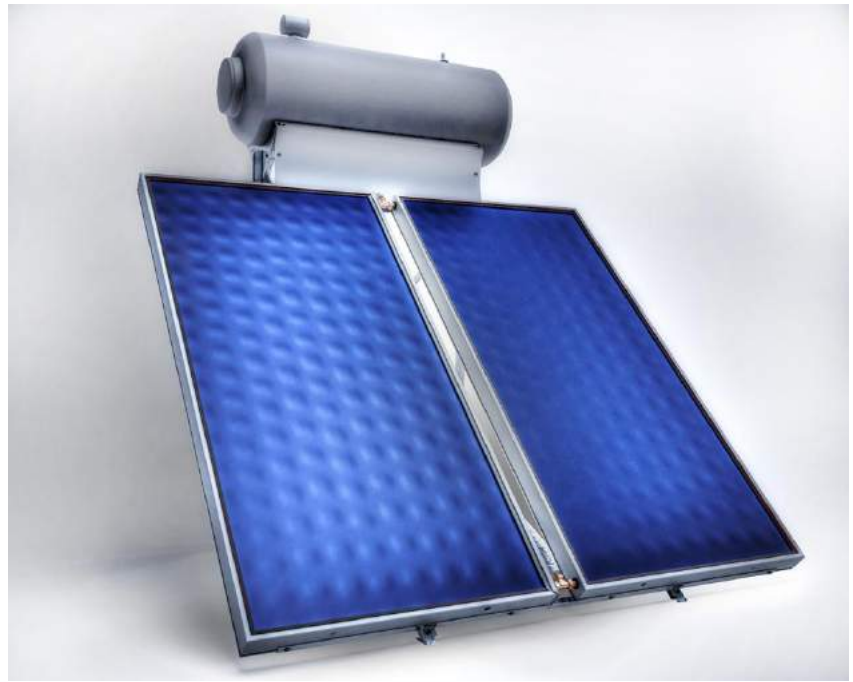

# PRODUCTS

## **HEAT PUMPS**

Steam engine provides high-end users integrated energy-saving solutions and products including Swimming Pool Dehumidifiers, Swimming Pool Heat Pumps, hot water heat pump solutions, Industrial and agriculture dryer Heat Pumps and residential heat pump water heater heat pumps. Developed with an advanced and unique technology for providing energy saving and eco-friendly innovation. Our customized heat pump design enables you to implement it anywhere, the way you want it. Our engineers have developed the heat pumps for the extreme climates of GCC, keeping the energy-efficiency platform in mind. We offer a host of advanced features.

Steam Engine provides heat pumps that are highly efficient and one of the best rated leading heat pumps available in the market with an excellent back-up team comprising of qualified engineers & technically experienced staff.

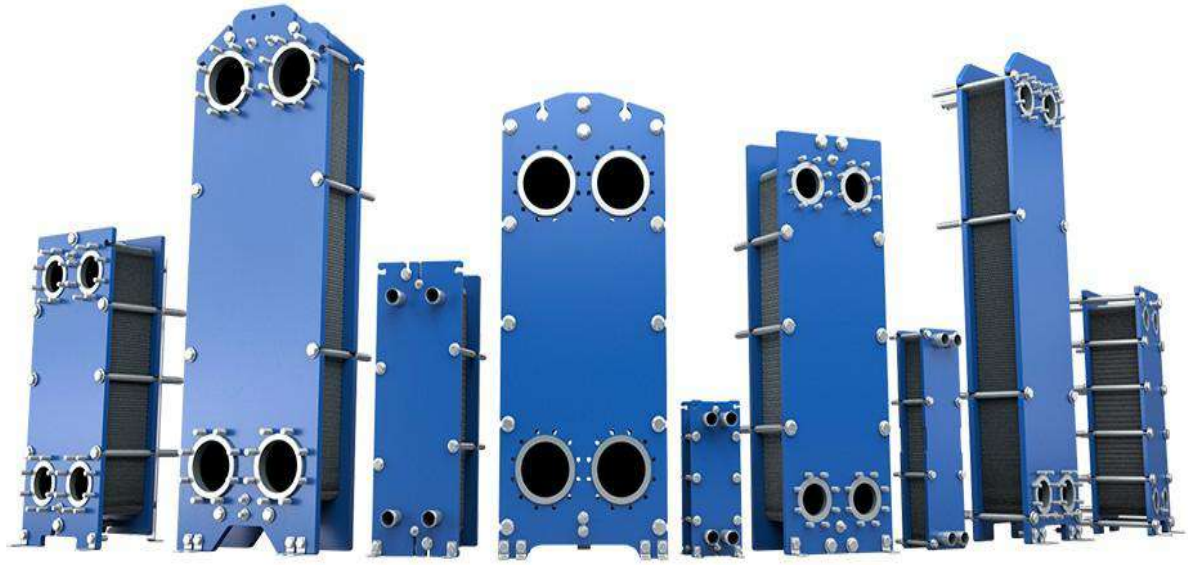

## **SOLAR WATER HEATERS**

Our customers can select from our variants and ensure without any compromise that you get the best solar water heater for their needs. Customized solar water heater designs can be implemented easily to anywhere. Steam Engine offers a host of advanced features. For efficient interior heating, our high-capacity industrial units provide precision temperature control for large-scale storage, healthcare, and scientific needs.

## **CALORIFIERS**

Steam engine supplies a wide range of commercial and industrial calorifiers. Our calorifiers are designed to suit anywhere the way customers want to. They can be customized to meet the industrial as well as commercial requirement. We provide professional installation service that earn high earn high customer rating.

## **PLATE HEAT EXCHANGERS**

Steam engine provides highest quality and lowest cost PHE which help the customer to experience highest quality. Starting from procurement till after sales service, we maintain extensive quality system.
