About Us

Al Saqr Industries L.L.C , is incorporated in 2007 based at Sharjah, United Arab Emirates (U.A.E) . It is a company which manufactures a series of daily chemicals such as household cleaning liquids, vehicle liquids, personal care products and packaging items. The company is equipped with the most advanced facilities which are fully certified for the complete integrated ISO management system. We offer a wide range of high-quality, high-performance products that address the challenging and complex requirements of customers around the world. We operate under the core values of quality, reliability, innovation, and performance, with a customer-centric approach. In addition to our own brands, we can also provide customized solutions to our customers based on their specific needs.

Our Mission

To provide high quality and eco-friendly products at the best prices, in addition to creating plenty of job opportunities thus supporting the domestic economic cycle

Our Vision

To become an inspiring industry in UAE, providing prime chemical solutions to different industries, utility services and service providers domestically, regionally and internationally

Our Values

Respect : All customers and employees are valued and treated with respect all the time

Excellence : We value quality, and work to offer high quality products at lowest prices.

Integrity : We are committed to an equitable and honest environment , and we hold our staff to follow the highest ethical standards.

Stewardship : We believe as individuals and community that all we have has been given as gift from the God , so it is our duty to manage resources in a responsible and effective way.

Founder & CEO Vision

Our Managing Director Mr. Abdul Latheef N P is a visionary with more than 20 years experience in the industry . His leading capacity has taken the company to the present heights. With so many new projects on his mind, the company has high expectations to the future prosperity. His kindness has given a new lease of life to many of the employees and he could incorporate the employees as a one family which works efficiently towards the progress of the company. He is also very keen about the social responsibility of providing quality and eco-friendly products.
