INTRODUCTION

We take pleasure in introducing ourselves as one of the region's pioneers in floor coverings and furnishings. Mostafawi, a very well known brand in the GCC, was established in 1946. Since its inception, by operating on a business model that ensured steady growth, it was able to successfully expand and diversify its product and interest portfolio into:

- Hand Tufted Carpets
- Interior Decor & Fit-outs
- Furniture and Upholstery
- Customized Furnitures
- Wall Paneling & Covering
- Hospital Furnitures & Equipments

Today, we have added to our core competencies the latest trends in carpeting.

Additionally, we stock a very wide range of modular carpets meant for residential and commercial use.

We also operate our very own hand tufted carpet factory producing top notch quality carpets made of 100% New Zealand wool. Any design, color and dimension of carpet can be produced with a short lead time.

We are proud to inform you that we have a team of well trained designers to take care of exquisite design trends and who are able to sensitively respond to client's requirements influenced by their cultural preferences.

We stock a wide range of fabrics for curtains, upholstery and other related furnishings. In addition to this, we will be able to bring in special fabrics which are flame-retardant, anti-bacteria, bio active, odorless and other types that serve any application-specific needs.

Furthermore, we have our own furniture division, which along with our soft furnishing divisions can take care of all client requirements under one roof.

These successes would not have been possible if not for our commitment to distribute and produce only the best products. Consistent to this principle, we source our products only from suppliers operating within the highest quality standards today. We represent a number of companies that can arguably be considered giants in the flooring and soft
