

Stock Holders of Structural Steel

DBMSC-STEEL FZCO

OUR COMMITMENT:

**FORGED
IN STEEL**

Committed to the core

DBMSC-Steel is now one of the leading steel distributors in the MENA region for more than three decades. It also caters to the East African and Southeast Asian markets. The company's vision is to achieve a global presence. DBMSC-Steel and its branches are among the largest importers, exporters and stockists of structural steel products in the GCC region.

The company's business interests are in global steel trading and stocking of structural steel products. Its major business focus includes companies catering to various areas that include: 1) exploration and production of oil and gas 2) marine and offshore segments such as shipbuilding and repairs, FPSO conversions, fixed platforms, spars, semi submersibles, jack-up rigs, tension leg platforms 3) general construction and onshore activities such as multi-disciplinary constructions for civil and structural projects, power plants, water-treatment plants, petrochemical plants, oil refineries and metal fabricators.

The company is committed to supply products that conform and satisfy the quality requirements with the required specifications and ensuring on time deliveries. Committed to meet customer satisfaction, the company has ensured a quality system in place for its policies, objectives and procedures. Its quality management system has been established since 2004. At present, the company is ISO 9001:2008 certified by the Det Norske Veritas (DNV) accrediting body.

Times change. Values don't.

The company was incorporated in 1970 under the trade license name Dubai Building Material Supply Centre L.L.C. by its co-founders, the late Udham Shewakramani and the current Chairman Rupchand Shewakramani. Continuing its successful journey, the company has moved its business operation to its new head office at Jebel Ali Free Zone in 2007 and is now known as DBMSC-Steel FZCO. It has more than 35 years of experience in the steel products and trading markets in the Middle East. The company has earned a reputable position among its suppliers, clientele, trading community and associates in this line of business.

DBMSC-Steel has continued to grow even during the economic downturn and endeavours to further enhance its presence in the GCC countries by setting up new facilities and liaison offices in the immediate future.

Products Range. Quality, above all else

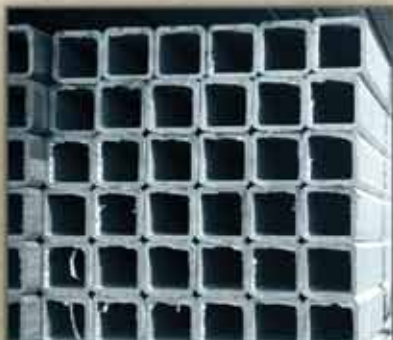

DBMSC-Steel is a specialist in the structural steel segment and stocks a variety of products such as:

Sections (UB,UC,HEA, HEB, IPE,W & JIS), Hot Rolled Plates (Pressure, Boiler & Offshore plates), Channels (UPN,PFC,RSC & JIS), Angles, Tubes (Hollow Sections) & Pipes (Seamless & ERW), Merchant Bars, Gratings, Cold Rolled, Galvanized & Aluminium Sheets, etc. to meet the requirements of its customers.

DBMSC-Steel products are governed by international standards that are supported by mill test certificates. Its materials and products are sourced from reputable mills in Europe, Far East, South Africa, CIS and the subcontinent that comply with various international standards.

People and Culture. Our most valuable investment

The organization has a total strength of 127 employees of which 30 form a part of the management team. It provides an environment that encourages employees to enhance their skills to achieve better results. It developed an environment that facilitates a proper understanding of the quality system to its employees and acknowledges their contribution as part of its success.

The company maintains the tradition of introducing new products as frequently as possible to meet the growing requirements of its clients. Its team of experts is always on the lookout to make processes simpler and better with the help of constructive feedback from its customers. The company takes pride in its ability to continuously evolve by improving, developing and meeting new demands of the steel industry. The remarkable success of DBMSC-Steel wouldn't have been possible without its talented workforce who specializes in areas of procurement, project management and delivery of structural steel products. Today, it enjoys a reputation for quality and superior service across the region – a position that has been a result of the support of its trusted clients.

A Formidable Presence

DBMSC-Steel has stocking yard facilities in Jebel Ali Free Zone in Dubai, Hamriyah Free Zone in Sharjah, and Salwa Industrial Area in Doha, Qatar. The branch in Qatar operates under the name of SOSCO W.L.L. The stocking yard facilities cover a total area of 1,900,000 square feet (195,000 square meters). The Jebel Ali Free Zone facility is equipped with state of the art gantry cranes to lift steel plates and beams with a maximum loading capacity of 32 metric tons. Having multiple locations ensure seamless movement of goods to its growing client base in neighboring countries and other export markets. With its presence in the UAE and Qatar, it is strategically positioned to serve the whole region.
