Company Profile  
& Product Catalogue

## OUR VALUES

Gulf Manufacturing Co. will continue to help enhance the health, hygiene and well being of people of U.A.E and international community where we have reached by providing premium quality personal tissue products and brands at unrivalled prices.

Gulf Manufacturing Co. values its role as corporate social responsibility leader and will always do more to help those less fortunate both locally and overseas.

## OUR MISSION

Gulf Manufacturing is a company that meets the personal care and hygiene needs of its customers day after day. Our hygienic paper products enhance quality of life and transform small moments into pleasant memories. We offer comprehensive solutions to everyone who is a part of our success story, and work with them to create opportunities for our mutual and sustainable development. Proudly since 1975.

## OUR VISSION

To improve people's lives, the planet and our company's performance by transforming renewable resources into products people depend on every day. Our mission is to continue to provide innovative paper products, exceptional customer service and value to our customers.

An ISO 9001:2015 Certified Company

## COMPANY PROFILE

Gulf Manufacturing Co. was established in 1975 in the Emirates of Sharjah to cater the U.A.E. and other GCC countries. We specialize in the production of tissue and transformation of tissue paper for the community and for the institutions. Our main products cover a wide and complete range of paper in use today. We provide not only Virgin pulp but to a large extent of recycled and mixed paper completely respecting the environment and nature. We are among the pioneers to have produced tree-free bamboo paper products that are recyclable, biodegradable and sustainable. Because no trees are harmed in the making of our bamboo paper products, it's the best choice for your hygiene and the environment.

Paper as you know is a valuable commodity which we know how to treat placing ecological recovery first. A distribution chain both a national and international cooperates in the distribution of our article which includes facial tissues, toilet rolls, kitchen towels, interfold towels, table napkins, M Tork & T Tork under different trade marks such as **ROYAL CLASSIC** , **ADORA**, **OKAY**, **LINEX CLASSIC**, **EMARATI**, **SOUPLE** & **BAMBOONA** etc. to keep our quality of workmanship high while making us proud in the future, stringent designs condition in the field of paper products.

Gulf Manufacturing Company offers the widest range of paper products at competitive prices with all the choices available. The company is geared to meet the customer's needs. Manufacturing facilities strictly controlled and conform to the natural and international standards. We have won the Sharjah Chamber of Commerce and Industry award.

Living up to the name Gulf Manufacturing Company has taken swift strides towards progress and diversification led by H.E. Sheikh Jassim Bin Jabor Al Thani. The company is run by friendly and qualified professionals, who believe in service with the smile. Gulf Manufacturing Company fosters an invigorating work environment that encourages personal development, professional accomplishment, and fun. An engaging workplace with open doors and busy corridors, here people are fully immersed in the day's challenges. A place where you can pave your own path and make meaningful decisions for the company. Working individually or pulling together as a team, life at Gulf Manufacturing is a shared entrepreneurial effort rewarding excellence with wide peer recognition. Tolerance, sensitivity and workplace diversity ensures our company culture of dignity and mutual respect.

## CORPORATE MESSAGE

Bamboo is a great plant as you can make a lot of curable and handy sustainable products from it. Bamboo products look simple but as said, simplicity is attractive. Using Bamboo, we can create and sell various items such as utensils, cutlery, plates. Using Bamboos, we produced facial tissues, toilet rolls, kitchen rolls, table napkins, cutlery. Bamboo pulp-based tissue or in general paper are produced without harsh chemicals such as bleach and chlorine. Bamboo tissues are gaining popularity worldwide and in UAE as well since they are originally antibacterial and biodegradable and need less energy for material processing, therefore causing no harm to any extent. Also, bamboo products remain in good condition much longer than you would think. The market of environmentally friendly products has been booming over the last 5 years and now it's the time for ecommerce to grow up.

We believe that it is our responsibility to produce and offer services of personal hygiene and cleaning products which are the basic needs of society. As a result, we have prioritized contributing to the society over profitability in all our business process and activities.

With the usefulness of our services, we have already seen ourselves what does it mean for a company to go green. The word organic, natural and ecofriendly are everywhere and market of the usable items is booming. It's high time to find out why we should make our business more environmentally friendly and what earth friendly products are trending today.

The popularity of eco friendly products is good news not only for consumers who are concerned about ecology but also for the retail. It is profitable to sell the whole and disposable items since most of the people today care about what they buy use and eat. But on the top of that it also gives a nice feeling of contributions to the global environment protection.

Today, ecofriendly has become a buzzword in advertisements, social media and on T.V. Customers love the products with green leaves printed on them, however the first and foremost is to produce genuinely environmentally friendly products and not just to make the products look like organic.
