

DUKE INTERNATIONAL FZCO is one of the largest and strongest suppliers of structural steel and building materials in the United Arab Emirates and the Middle East Markets. We cater to fabricators, end users in the construction, oil field, petro chemical, maritime industries and to traders.

The founders of DUKE have been in business of Steel in Oman since 1974. In 1994, Duke started its stock and trade hub in Sharjah under the name DUKE TRADING EST. In 2002, Duke started its operations in Dubai under the name DUKE STEEL TRADING Co. LLC.

The massive infrastructural development and construction activity in the emirate and the region that was characteristic of the period saw the steady rise of Duke International as a leading contender in the structural steel and building materials supply industry in the region. In 2004, Duke set up a large warehousing facility in Jebel Ali Free Zone to cater to the market and as a centralized logistic hub for its associates.

Competitive pricing, excellent customer service, product expertise and quick deliveries are the factors that provide the foundation upon which the Company's success has been built. Customer satisfaction is the prime agenda for Duke International. The Company possesses highly professional sales team who are trained to provide the exact requirements of the customers. The Inventories and Accounting Systems are fully computerized in order to provide the best services to the customers. We also boast a good range of trailers, trucks & forklifts that make quick loading and deliveries an easy task.

The strength of DUKE INTERNATIONAL lies in our stocks. We carry a varied range of structural steel products making it easy for the customers to get all their requirements under one roof. Our extensive inventories and logistically located warehouses give us the ability to supply our wide product range at ease. We import structural steel from all over the world for both our stock and for specific customer requirements. We try and source out quality steel which is competitively priced from around the globe where it is produced.

The aim of the Company is to accelerate our growth and development through a diligent and proactive approach to customer's requirements. Highest quality service is its main objective.
