شركة الموازين الدولية

شركة الموازين الدولية هي واحدة من الشركات المعروفة والرائدة في مجال تصنيع وبيع الموازين و معدات الوزن ذات الجودة الفائقة . تأسست الشركة عام 1976م ، وقامت بنشر خدماتها في هذا المجال خلال 40 عاماً . وتخصصت شركة الموازين الدولية في المجال التصنيع

والبيع بالتجزئة لمعدات الوزن والمنتجات المختلفة الأخرى. كما نقوم أيضاً بتوفير خدمات الصيانة والاصلاح في المناطق التي تغطيها خدماتنا ، مثل الامارات العربية المتحدة ، والمملكة العربية السعودية وعمان، وباكستان. وتمتاز منتجات شركة الموازين الدولية بالدقة والمتانة، وهي موثوق بها وفوق كل ذلك متاحة بأسعار تناسب الجميع ، لهذا تمتاز بسمعة طيبة وسط الشركات العاملة في هذا المجال.

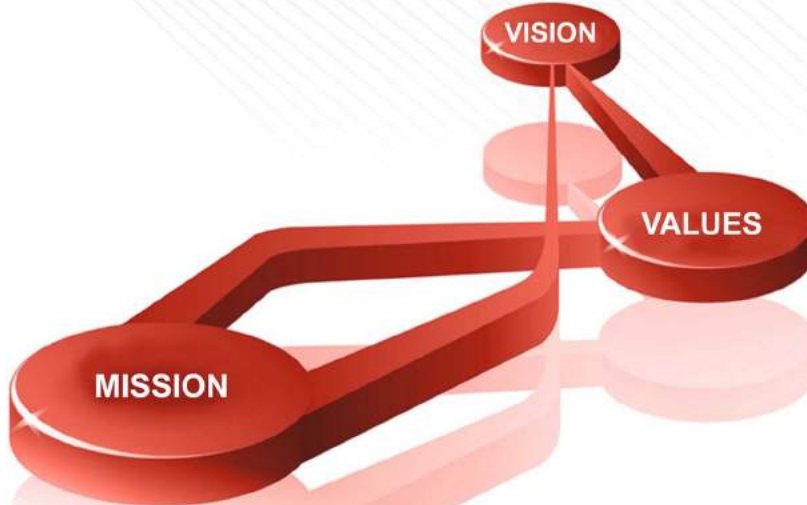

Our Mission

To deliver the best weighing solutions and services to our valued clients that will help them understand their goals while getting higher profits & targets.

Our Vision

To be a global rival in this industry renowned for developing the best in class weighing solutions and products through continuous research and innovation

Universal Scales was established and has been providing its services in weighing scales industry since the year 1976. We have started our business with selling of mechanical scales. Later than, the Company became an exclusive representative Berkel International B.V.Holland which is recently recognized as Avery Berkel and Weigh Master-England.

After forty successful years, Universal Scales expanded its business and dealing in Electronics Scales in the year 1980. In starting, we have imported the complete product only from MSI and Rice Lake USA and after two years; we have only imported the essential components to manufacture and assemble the scales in our own manufacturing Plant. Universal Scale has started the fabricating of platform scales and weighbridges of different sizes in its own manufacturing unit. Universal Scales has developed its business and importing Electronic Scale's equipment and tools from some Asian and Eastern companies specifically Teroka and Yamato in Japan. Universal Scales is one of the top ranking company dealing especially in retail Scales, Barcode Label scales, Floor Scales, truck weighbridge as well as all other kinds of Electronic Scales.

We have Three major division under operation

PROCESS WEIGHING

Process Industries

Around one third of UAE's production is weighed using Scales Universal Process Weighing Systems, with thousands of high capacity load cells installed successfully on cement silos as well as those used in mixing & batching plants and feeding equipment. Food, pharmaceutical chemical and oil industries are key sectors. Due to our expertise in load cells for harsh environments, together with standard all stainless steel construction of both load cell and mounting assembly, customers in the metals industries find our high temperature load cells invaluable.

Main industries served:

- Cement
- Concrete batching
- Food and drink
- Pharmaceutical
- Chemical
- Minerals
- Biomass and wood pellets
- Paint
- Oil and Lubricants
- Plastics
- Metals
- Adhesives
- Inks and coatings
- Agriculture and farming

Process Industries - more

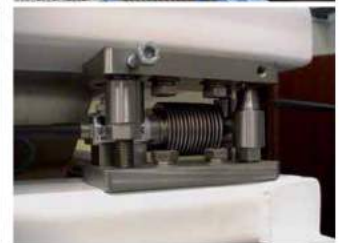

Machine Builders / OEM

Scales Universal process weighing systems find many applications in the manufacture of specialised machinery that incorporates static or dynamic weighing as part of the process.

This includes materials handling equipment such as:

- Weigh feeders
- Belt weighers
- Big bag (FIBC) filling/emptying equipment
- Form-fill-seal machinery
- Check-weighers
- Filling machines
- Bagging Machines.
- Batching Systems.
- Multihead weighers and rotopackers
- And others...

Weighbridges (Truck Scales), Axle Weighers and Weigh in Motion (WIM) Systems

Customers nation wide appreciate the excellent performance, rugged reliability and quality of our weighbridge (truck scale) load cells, which incorporate lightning surge arrestors and a durable rodent resistant polyurethane cable as standard.

We offer:

- Analogue load cells approved to OIML C4 and NTEP Class III L up to 60 tonnes
- Digital load cells with open protocol, approved to OIML C4 up to 60 tonnes
- Special version load cells for high accuracy WIM and axle weighing systems

WEIGHBRIDGE SOFTWARE FEATURES

- Multiple Weighbridges/indicators
- Single Transactions
- Batch Processing
- In and Out Directions
- Multiple Weighments
- Loaded/Unloaded Weighments
- Multiple Modes: Sales/Purchase
- Custom Tickets
- Real time weight display
- Liquid Measurement display
- Gravity Control
- Smart sensor for all indicator types
- Real time data monitoring
- 10 Global Flexi/Custom Fields
- 10 Additional Indicator based Flexi/Custom Fields
- Complete Tare Information
- Service Information
- Payment Information
- Camera Support
- CCTV Settings
- Customers List
- Customer Pricing Control
- Suppliers List
- Transporters List
- Materials List
- Raw Materials Support
- Stock Control
- Specific Gravity Control
- Vehicles List
- Transactions Listings
- Batch Transaction Listings
- Weighment Search and filter options
- Tare reports
- Date wise reporting
- Shift wise reporting
- Weighment ledger
- Product/Material Wise reporting
- Custom reports
- Send reports to fax or email client
- Easy to add new reports
- Industry standard Crystal Reports support
- Purchase Requisitions
- Invoices
- Create invoice from weighments
- Activity Log
- System Settings
- General Settings
- Flexi/Custom fields settings
- Inventory settings
- Pricing Settings
- Smart Card Settings
- Gate Control
- Weighbridge Control
- Network Database
- Cloud Database
- Built in maintenance features
- Network Streaming
- CCTV Monitoring
- Camera – Motion detection
- Camera – Number plate detection
- Save/Print tickets
- Smart Cards Support
- Manual smart card support
- Easy data entry
- Shortcut Keys
- Easy Accessibility
- Scale Configuration
- Inside Vehicles Count
- Resume Weighment Option
- Employees List
- Employee Shifts
- Operators Access Control
- User privileges
- Operator log
- Drivers List
- Area List
