INTRODUCTION

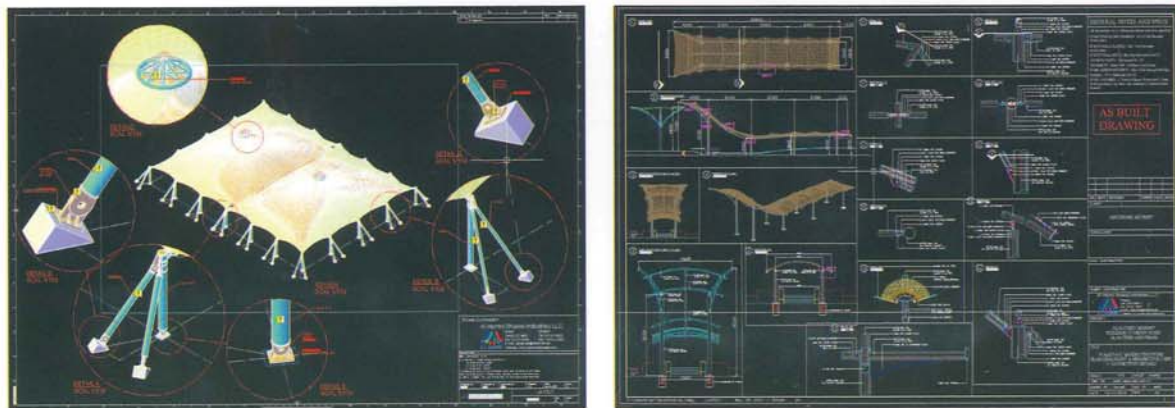

Al Hamra Shades has established itself as a leading player in the region of Tensile Shade Structures since its inception more than two decades ago.

Incepted in the year 1996, Al Hamra Shades provides in-house services ranging from Designing, Manufacturing & Installation all under one roof. We have successfully completed many major projects around the GCC countries and have a strong client base across the region. Our strong work ethic has earned us the reputation as being one of the pioneers of the tensile industry today. Working closely with government & private sector our projects include Schools, Ministries, Hotels & Resorts etc. to name a few.

Our environment- friendly manufacturing unit in Sharjah is in line with the latest machineries to accommodate our client's requirements using HDPE, PVC and PTFE products. Our highly skilled team has the capability to install the products efficiently in the given time frame.

Our Motto: From Concept To Completion

Software Generated Design

Our Clientele
