

Total solution for all your packaging!

Triveni Packaging Trading Company LLC is an industry leader in packaging machinery and material in the Middle East and represents various world renowned manufacturers of packaging equipments and materials. TREVIPAK, the brand name of Triveni Packaging Trading Company LLC, part of Triveni group of companies, as leaders in the field, are committed to offering the world's finest packaging systems. Established in 1993, Triveni has continually grown over the years by supplying quality packaging solutions in the Middle East.

TRIVENI has the largest showroom for packaging machinery in Dubai in the UAE. Since establishment the company objectives was and still is to bring the latest packaging technology to provide increasing range of innovative quality products to consumers throughout the Middle East region. It offers a comprehensive range of packaging machines, designed to meet its customer's packaging requirement, which includes primary packaging and secondary packaging machineries and related packaging materials. Apart from showrooms in Dubai, Sharjah, Muscat and Kuwait, Triveni has offices in Dubai, Sharjah, Oman, Bahrain and Kuwait for providing local focus to their business.

At Triveni, a proficient team of engineers, designers and technocrats work in close co-ordination with customers to understand their specific requirements and deliver products in exact accordance. Beside our state-of-the-art infrastructure Triveni is competent enough to take care of any kind of bulk orders and churn out innovative and impeccable products. A dedicated team of factory trained, experienced engineers provides the technical support which has always been the mainstay of Triveni success, supported by an extensive inventory of spares parts and consumables. Our products comply with the applicable operational / environmental regulations and requirements of Middle East countries.
