

STARS FIRE AND SAFETY LLC.

“Invest your confidence in two decades of experience. Lay your beliefs on an expert team backed by state-of-the-art technology. Trust us... because some of the biggest names in the region have. We guarantee you the shield of safety!”

CEO's Message

Having more than two decades of industrial experience, Stars Fire and Safety LLC. has carved a niche for itself in the arena of fire protection services through quality, flexibility, and reliability. Consequently, our business has scaled new heights over time and we have expanded to Dubai, Sharjah and Ajman, besides establishing Stars Electro Mechanical Cont. LLC. in Abu Dhabi - a subsidiary serving the MEP sector focusing on HVAC.

We remain committed to our core philosophy of delivering high-quality expertise, products, and services with a strong focus on customer satisfaction. With a proven track record of success, the Stars Group enjoys a position of leadership in the industry.

Indeed, our consistent growth over these years has helped us recognize that 'reliance' is the key to enduring partnerships. And there can be no better opportunity than this to offer my gratitude to all our patrons, business partners, friends, and well-wishers. I would also like to thank Mr. Yousef Mohamed Abdulla Al Shimmari, our Partner, for his valuable guidance and empowering leadership.

Looking forward, our intent is to focus on customer satisfaction, offer a broader range of solutions and aim for service-centric results.

Benny John, Group CEO

About us

From its humble beginning in 1997, we have grown leaps and bounds to bring in many exciting changes including new range of services and a re-commitment to give our customers the highest level of professional service available.

Our fire protection services include:

- Design
- Supply
- Installation
- Testing & Commissioning
- Maintenance

We are one of the few companies to have obtained an A+ Grade accredited Civil Defense license for fire protection systems in residential, industrial and oil field. Having designed and executed various types of Fire Protection Systems right from concept to Commissioning, we strive to maintain the highest standard of excellence through forward-thinking leadership, employee development and empowerment.

Why choose Stars Fire and Safety LLC.?

We have a dedicated team of well qualified and experienced personnel to handle installation, servicing and maintenance of all kind of Fire safety systems with the support and guidance from exclusive security experts. And we still continue to invest time, energy and resources to ensure that we not only meet our client's needs but also exceed it every single time

Our commitment to quality, technical excellence, and customer satisfaction is evident in every product and service we have delivered. The numerous projects

executed by us in different sectors throughout the UAE are classic examples for our professional competency.

How can Stars Fire and Safety LLC. partner with your business?

We can help provide your company with all of its needs involving Fire Protection systems and related support on turnkey basis. In the case of an emergency breakdown, we are available around the clock to meet your integrated fire and safety equipment needs. We ensure all our services are as per the requirements of U.A.E Fire code.

Our Core competencies

Project Management & Execution

There is no project too big or small when it comes to fire protection installation in commercial or residential buildings, oil fields, warehouses and other facilities. From inception to completion, we abide by the following the UAE Fire & Life Safety Code of Practice and stand firm on our commitment and ensure 100% client satisfaction.

Maintenance Service Contracts

Maintenance of existing systems, timely repairs and upgrades are very important factors in safety. This is why we provide our clients the convenience of an Annual Maintenance Contract, attested by the Civil Defense Department, carried out by trained service professionals available 24x7.

Supply of Fire Protection Equipment

In order to meet our client's requirements, we supply materials, approved by the Civil Defense Department, sourced nationally and internationally through our import

channels. We follow strict quality measures and adhere to regulations set by the Civil Defense Department for supply of materials.

Quality Assurance

Our company has received an ISO 9001: 2008 certification and follows international standards of implementation, priding ourselves on quality materials, rigid assessments, superior fabrication and erection methods and well-trained team of professionals.

Health & Safety

Safety is not just something we talk about; we live it. We respect safe work practices and employee safety is our highest priority. With highly trained safety professionals and a well drafted Risk Management Procedure, we provide a safe work environment for those who work for and with us.

Our Core Values

Safety & Environmental Care

We contribute to a safe and secure environment for our employees, clients and the community

Excellence

We are committed to consistently deliver services of paramount quality

Integrity

We conduct business with the highest standards of ethics and honesty

Innovation

We foster creativity and promote innovation in the workplace

Initiative

We are proactive and independently act to accomplish our objectives

Flexibility & Agility

We remain flexible and open in order to adjust and respond

Our Training & Development

Over the years, one of the main reasons of our success has been the constant training and development of our people. Be it products or services, our team of experts are informed, knowledgeable and up-to-date with it all. We value relevancy

and invest valuable time, energy and resources in the training and development of our professionals. All this, only to ensure that our clients receive nothing but the best.

Stars Electro Mechanical Contracting Company LLC.
