

Introduction.

We are pleased to introduce Al Dabiyya Decoration L.L.C. P.O.Box. 19658, Sharjah. Tel: 06 5347623. Established 1996, Sharjah, United Arab Emirates. As Gypsum contracting company, specializing in Pre-cast Decorative Gypsum ceiling and partition works. GRG and G.R.C. manufacturer and installer.

Our Activities. We are Specialist Cast Gypsum and G.R.C. manufacturer and installer such as cornices, moldings, decorative motifs, domes, arches, columns and custom ceiling and wall claddings. However our activities also include. Gypsum board ceiling, 60x60cm gypsum and metal ceiling tiles and drywall partition

Our premises. Our office, production facility, stores and sales office is located in Sharjah Industrial area no 10.

Facilities. Our factory in Sharjah comprises of production area, where Gypsum and G.R.C. elements are manufactured, drying area and storage.

We at Al Dabiyya Decoration, strive for *Quality* and *Punctuality*. Our *Mission* is to provide highest quality services on time

Quality Control procedure.

Quality and Reliability has been the driving force in our organization. Second generation in the business, the system has been instilled in us to carry forward. We have a Tradition of producing good quality Gypsum and G.R.C. using our Traditional know how, combined with the latest Technology and Materials.

G.R.G. Production.

- G.R.G. elements are produced using locally available materials from our suppliers; all the materials used in preparation of GRG are from qualified manufacturers.
- We manufacture our own molds with different materials depending on design, size and quantity.
- All the molds manufactured are based on the design drawing we receive, we develop the drawing as per the design intent, and full size sample of design is prepared as per the approved drawings.
- Upon approval of the sample, we make mold from the approved sample and gypsum pieces are cast for installation on site.

G.R.G. Storage and Transport.

- All GRG elements produced in our factory are kept in the sun to dry completely, stored in organized shelves to prevent sagging or any kind of distortion from the intended shape and size.

All GRG elements are transported to the site 1 or 2 days prior to installation, stored on site at appropriate location, foreman at site checks the GRG elements for distortion and breakage, if damaged the GRG pieces are discarded, only pieces that are true to size and shape are installed on site.

Summary.

We at Al Dabiyya Decoration believe in providing best services and products to achieve esthetically functional Gypsum works, support our client with our experience in this field, suggest and propose best possible solutions to modern requirements in Gypsum works and design of all kind.
