About Us

Excel Group of Companies started with Excel Steel & Metal Plating LLC in 1999. The company was established as a fabrication, electroplating, and decorative glass contracting company. Experienced professionals, qualified project managers and interior designers manage and operate the company. We have gained and established a reputation as one of the leading contracting companies serving the United Arab Emirates. Our emphasis is on customer service and quality control, providing excellent services to all spheres of interior design management. We have achieved quality approval for most major brands, and we cater to many other projects that are of an elite client base.

Vision

To be an exceptional company offering the highest quality services in interior design management, which includes electroplating, fabrication, and glasswork in the Middle Eastern region and internationally.

Mission

Provide quality services, competitive prices, superior customer service and on-time delivery.

Values

Respect – We treat our staff and clients with respect, including behaviors of honesty, transparency, trust and appreciation for diversity.

Collaboration – We work together to provide quality products and services, foster relationships and build a strong network.

Accountability – We are accountable, individually and collectively, to each other and our clients for our actions and achieving our promises.

Celebration – we come together in fun and enjoyment to recognize our achievements and to show our appreciation.

Strength

Excel Group of Companies has a highly qualified, experienced, and professional team of diversified talents, operating for more than 25 years in the U.A.E. We have all the resources and technology to handle a wide range of projects across the Middle East and internationally. We offer turnkey solutions that are innovative, cost-effective and can communicate your brand message to the targeted audience with results that exceed all expectations.

Various types of finishes provided are shown in the table below.

Metal Polishing & Metal Electroplating				
Color	Polishes		Brushes	
Gold	Clear	Matte	Clear	Matte
Copper	Clear	Matte	Clear	Matte
Brass	Clear	Matte	Clear	Matte
Nickel	Clear	Matte	Clear	Matte
Black Nickel	Clear	Matte	Clear	Matte
Champagne	Clear	Matte	Clear	Matte

Other finishes include Antique Wood, Antique Copper, Rusted Finish, Satin Nickel, Satin Brass, Satin Gold and Satin Copper. The table shows the processes and capabilities for supplying finishes according to project specifications.

Processing Tank Types	Quantity
Nickel Plating	3 nos
Copper Plating	2 nos
Brass Plating	3 nos
Black Nickel Plating	3 nos
Gold Plating	As per requirement

We also have a top-of-the-line lacquering booth, which is used for the final process. The team very carefully handles every job with the utmost care and inspects the final product before delivery. Jobs are correctly packaged, and specific instructions are given to finished jobs to maximize the metal's life. The company provides a warranty to customers for a few of the metals based on their application.

Excel Fabrication has been delivering to the top interior, furniture, fit-out and signage companies. The table below shows the capabilities and machinery used to execute complex jobs.

Capabilities	Machinery
Cutting, bending, grinding	Shearing machine
Fit-outs, furniture metal frames	Hydraulic press brake
Brass, Copper, SS, MS frames	Vertical drilling machine
Kiosks	TIG welding machine
Decorative items	MIG welding machine
Handrails	MMAW

Excel Glass has been operating for the last 13 years and has been a supplier to interior companies, joinery firms, signage companies and many others. Different techniques used are shown in the table below.

Techniques	
Beveling	Take thick glass and create an angled surface cut (bevel) around the entire periphery.
Polishing	Using different tools to smooth rough edges after the glass is cut.
Sandblasting	Transforming clear glass into frosted glass by using sand and high-pressure air.
Deep engraving	Imprinting images on glass
Acid etching	Creating art on the glass surface by applying acidic, caustic, or abrasive substances, which helps to create delicate light effects with an extend of privacy.

Different finishes that Excel Glass provides is shown in the table below.

Finishes	
Reflective glass	Glass treated with a metallic coating allowing it to reflect heat acting like a mirror.
Black painted glass	Clear glass that is painted from the back side and viewed from the front side or glaze side.
Laminated glass	Type of safety glass that holds together when shattered. In the event of breaking, it is held in place by an interlayer, typically polyvinyl butyral (PVB), between two or more layers of glass.
Mirrors	Silver, tinted, and antique mirrors are supplied according to the client's requirements of polishing, beveling, and etching.
Tempered glass	Safety glass processed by controlled thermal or chemical treatments to increase its strength.
Tinted glass	Glass treated with a material to minimize light passing through it.

The table below shows the capabilities and machinery used to execute complex jobs.

Capabilities	Machinery
Finished edge and mitering edge polish	Straight edge polishing machine
Drilling, corner round drilling, corner round edges, cut-outs	Straight edge mitering machine
Sandblasting and acid etching	Drilling machine
Decorative and laminated glass	Corner round machine
Bathroom cubicles and shower partitions, glass counters, laminated tempered bathroom cubicles and shower partitions, laminated glass counters, double glazing	Glass cutting table with jumbo size capability
Mirror manufacturing, black painted glass shop fronts, office partitions	Sand blasting booth and painting booth

Quality Policy

Our commitment guarantees our clients uncompromising quality, responsive service, competitive pricing and on-time delivery. Our commitment is achieved through a team approach where all members are aware of company objectives and work with continuous improvement in customer service excellence.

How WE Work

Listening to our client's needs and requirements is the foundation of every great project. We provide different samples to our clients to choose from, and when the selection is approved and accepted, the implementation process begins. We execute the project on time and within budget, ensuring there is enough material, minimal waste, and maximum output to meet or exceed our valuable client's expectations.

Availability and Cost

We will be happy to provide you with a quotation, budgeting information details, or simply advice from our experienced staff members. We are here to discuss your great project's details, and we have all the resources and tools to execute the job with ease.

Response to Covid-19

Our staff and clients' health and safety is a top priority as we continue to respond to COVID-19. We have adopted universal health and safety measures and introduced requirements for people coming into our office and arriving at our sites to reduce the virus's risk of transmission. We ensure that our staff members maintain a physical distance of at least 2 meters (6 feet) from others whenever possible, wear a mask or face covering at all times in all indoor spaces and have hand sanitizers all around our offices and plants.
