# Plasma Money Sterilizer

## ABOUT Plasma Ion Currency Sterilizer

As recently, CoronaVirus, MERS, Ebola virus, New flu virus, Food poisoning, general germs, etc has spread throughout the world, the worldwide interests in the sterilization is rising. To resolve this, we have developed PLASMA MONEY STERILIZER sterilizing and disinfecting money(bills, coins) transmitting germs or bacteria in our living. It can be used for banks, post offices, large shopping malls, markets or all cash transaction places. Especially, the PLASMA MONEY STERILIZER is the World's First Opened Bill Sterilizer which removes Bacterial fine dust(PM 2.5) and kills 99.9% of germs in 30 seconds with sterilizer opened using our own developed Plasma ion cluster for the disinfection & sterilization in the air, instead of utilizing the existing UV ray or germicide methods. We, a leader in the next generation sterilizer market have proven technical ability of PLASMA MONEY STERILIZER through multiple design and patent applications. And we will do our utmost to keep currency hygienic for the citizens of the world to lead healthier lives.

## Removal of Bacterial Fine Dust, Disinfection & Sterilization Kills 99.9% of Germs In just 30 seconds

# Currency contamination beyond our imagination!

We live in a world of contaminants, germs, viruses, bacteria, etc.. Plasma Ion Currency Sterilizer assists against these! All these, plus more, contaminate our currency beyond imagination! Our currency and other currencies around the world carry over 3,000 different types of germs. Such as viruses, bacteria, food borne pathogens, etc. The currency bills we use and process are made of paper and fiber! Which is one of the best environments for micro-organisms to grow and prosper!

## FUNCTIONS

World First **Open-Sterilizer** **Different only one Developed**  
Sterilization and Removal of Bacterial fine dust upon counting bills...  
20 sec. - 98% / 30 sec. - 99.9%

When counting bills, Plasma ion cluster penetrates between bills and sterilizes bills

Applied HEPA filter to remove fine dust(PM2.5) on bills

Tilted slot, ergonomic design – Easy to insert bills and shoot by camera

High efficiency sterilizing design

PLASMA MONEY STERILIZER operates by auto recognition upon inserting bills

Semi-permanent high efficiency PLASMA MONEY STERILIZER

Built-in communication UTP and POWER line

Automatic sterilization timer setting

Low maintenance cost

- Sterilization
- Dedusting/Deodorizing/Decontaminating
- Quick sterilization using **Plasma ion cluster**
- Sterilization upon counting bills  
(20 sec- 98% / 30 sec - 99.9% Sterilization)
- Sterilization harmless to human body
- Hand Sterilization

# Mobile Storage System

MOEM mobile storage systems provides a solution to your storage needs & increase storage efficiency with systematic filing and retrieval of storage materials.

Accounting records  
Files  
CD & computer files  
Hospital supplies  
Libraries  
Financial & Securities records  
Warehouse storage  
Archives  
Spare parts  
Finished clothing  
Shoes storage  
Stationeries  
Other applications`

The Mechanical Mobile Storage System comprise of solidly construction movable bays resting on tracks, catered to withstand heavy-duty and usage and handling. The storage bays can easily slide from one end to another to retrieve materials and files. This system comes with mechanical assisted controls.

## Features & Options

- Anti-Tilt
- Central Locking
- Safety Lock
- Sound Buffer Pad
- Steering Wheel with pull-out handle
- Powder Epoxy Coating
- Shelf Adjustable every 29mm Height
- Chromed Tracks

## Specifications

- Standard Height: 2260 mm (inclusive of track)
- Standard Weight: 997mm (steering bay) | 900mm (add-on bay)
- Standard Depth: 770mm for Double Bay
- Standard Depth: 400mm for Single Bay
- Standard Dual
  - Purpose Shelf: W: 870 | D: 370 | H: 29mm
  - Aisle Space: 726mm (Minimum)
  - Loading Capacity (per shelf): 70 kgs
  - Loading Capacity (per bay): 350kgs
  - Weight (per bay) Unloaded: 70kgs
