PROFESSIONAL  
LAND & MARINE  
SURVEYING  
SERVICES  
FOR THE  
CONSTRUCTION  
INDUSTRY

[www.middleeastsurvey.com](http://www.middleeastsurvey.com)

## ABOUT US

We have been providing professional land & marine surveying services since 2002. During this journey, we have worked on many prestigious projects in U.A.E, Oman, Qatar, Kuwait and India.

## WE HAVE ADOPTED ADVANCED SURVEYING TECHNIQUES TO ENSURE THAT OUR SERVICES SURPASS CLIENT EXPECTATIONS.

We are powered by a professional team of surveying experts with immense knowledge on how the construction industry works. Our modernized equipment allows us to undertake all kinds of complex projects and complete them within the stipulated timeframe.

We follow a set of systematic processes to fulfill the custom requirements of our clients. We have adopted advanced surveying techniques to ensure that our services surpass client expectations.

### **SURVEYING & LEVELING**

- Topographic survey and Mapping
- Contour mapping
- Establishing survey control networks
- Demarcation/Boundary pegging services
- Precise leveling
- Construction surveys
- Pre-construction services
- Project management-Site control
- Establishment of gridlines and datum
- Profile leveling & Cross-section Surveys
- Gate-level Computation Services

## **HYDROGRAPHIC SURVEYS**

- Multibeam and Singlebeam Bathymetric Surveys
- Sub-bottom profiling and magnetometer surveys
- Side scan SONAR surveys and mosaicing
- Beach profiling
- Pre and Post Dredging Bathymetric services
- Off-shore positioning

## **OCEANOGRAPHY**

- Tidal Observation
- ADCP/Current meter observations
- Meteorological monitoring (Wind)
- Salinity & Temperature observation
- Sea Bed sampling

## **UTILITY SURVEY**

- GPR surveys
- Radio detection surveys
- CCTV drain surveys
- Drainage surveys
- Site Investigation Surveys
- Utility mapping
- BIM

## **3D Scanning Services**

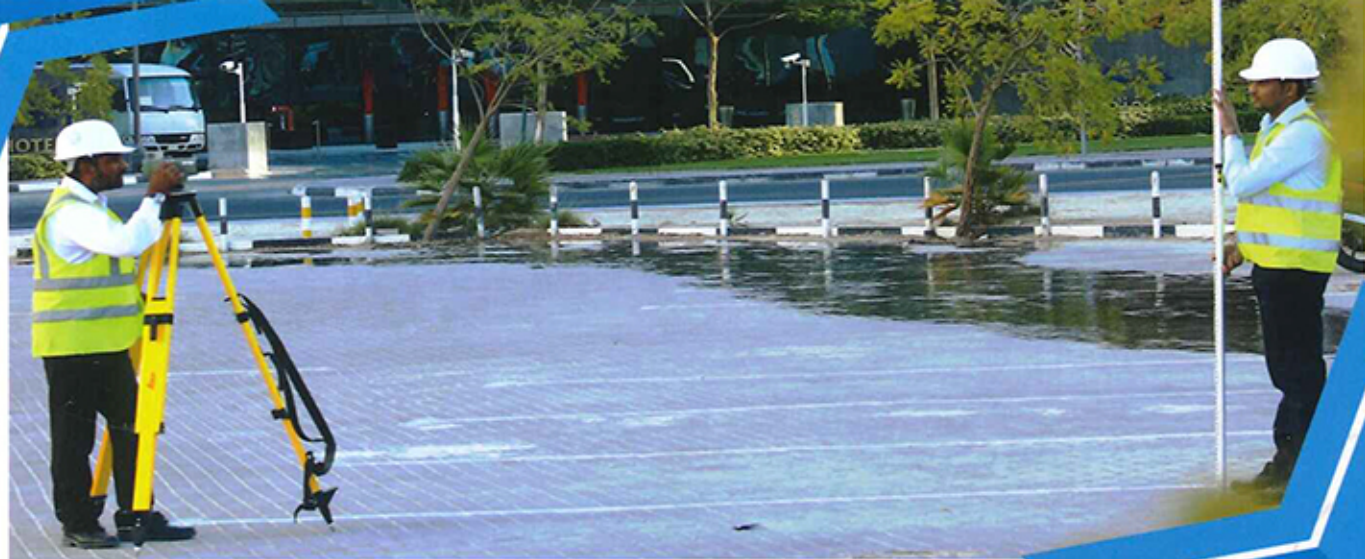

- 3D Laser Scanning
- 3D Modelling Services

## **GIS SERVICES**

- GIS Mapping
- Data processing
- Digitisation

## **VOLUMETRIC SURVEYS**

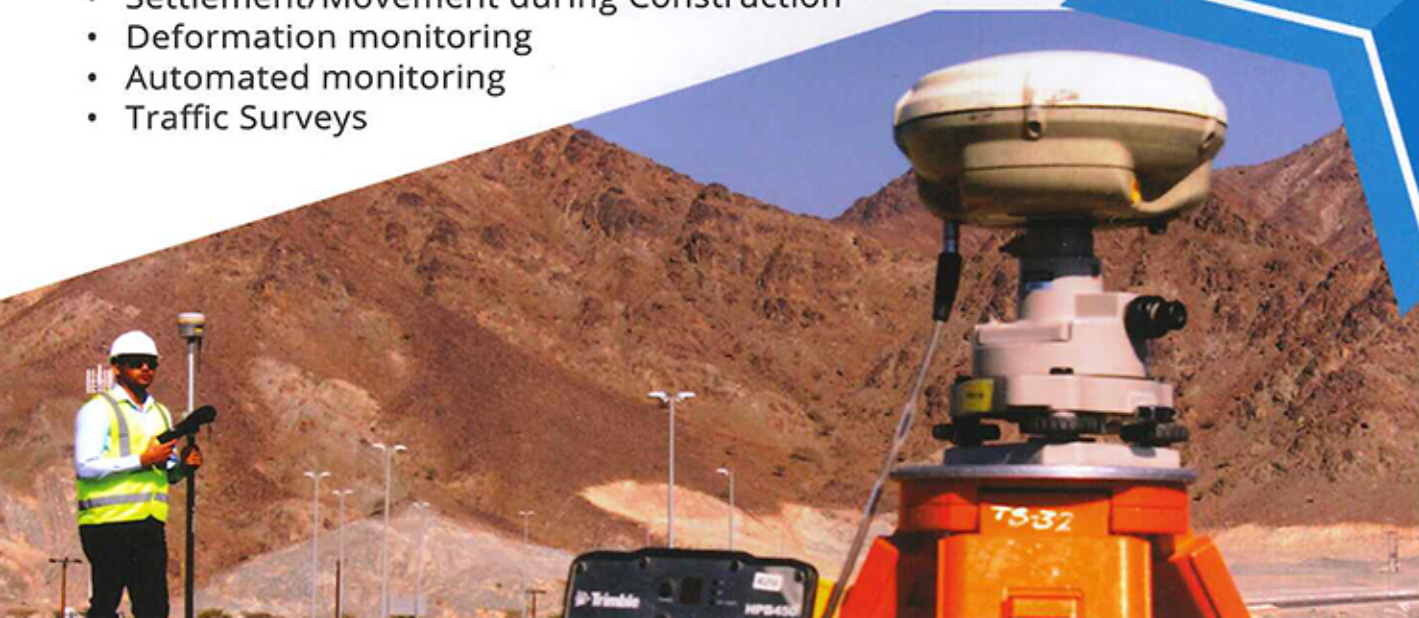

- Bulk Earthworks Volume
- Stock inventory surveys
- Earthwork estimation (Cut and Fill for Roads)
- Dredging Volume

## **INVENTORY SURVEY**

- Videographic Asset Mapping
- Photographic Inventory Mapping
- Questionnaire Survey
- Tree Survey/species identification and taxonomy

## **MONITORING SERVICES**

- Building Settlement Monitoring
- Dilapidation surveys
- Structural Settlement surveys
- Bridge, Dams, Tunnels and Retaining walls settlement surveys
- Monitoring of Cracks
- Monitoring of Cofferdams
- Ground settlement monitoring
- Settlement/Movement during Construction
- Deformation monitoring
- Automated monitoring
- Traffic Surveys
