About US!

WELLGATE SCAFFOLDING has been established in Abu Dhabi to provide sufficient and prompt service to the requirements of the ever-growing construction industry, Oil & Gas sector and commercial projects throughout UAE. We are specialized in scaffolding services like Contracts, Hire and Sale of Access & Formwork scaffoldings. We undertake Design, Supply, Erection, Dismantling, Inspection of scaffolding equipment for all forms of Construction, Industrial, Oil & Gas and Maintenance projects. We have been working in this field since 2000 and have ever since grown to become an essential component of the construction and oil & gas industry in the gulf region with a network all over the Middle East. Our unmatched expertise and professional approach made us a reputed business name in UAE. Wellgate always tries to cope up with successful international standards and constantly imparts training to the staff to keep them equipped to meet the new challenges. We also have an excellent infrastructure in the northern emirates to provide hassle free services to our clients. As our main aim is to achieve success in all our projects with the team spirit of our workers as well as, the management from top to bottom level and thus, we are proud to say that we are a part of several landmark projects in UAE and other GCC countries.

Message From Managing Director

Dear Stakeholders,

Warm Greetings from Wellgate.

I am extremely delighted by growing along with Wellgate since 2000 as an allied service of leasing the scaffolding in the field of construction. I am equally glad that this organization is also developed the people who were and are associated with it.

The success of this organization is based on two factors; one is the satisfaction of our customers by meeting up with their needs on time and second is, valuing our employees and workers. We are working as a team from the inception of the organization to till date by inculcating each individual's unique skills.

Our core strength is continuous improvement and ready to adapt to the standards keeping up with the expectations of our customers.

I assure for a long lasting business relationships by joining hands and working towards our objectives.

Looking forward for a long lasting association.

Sarith K P Nair

Our Mission

To strive for continual Improvement by establishing appropriate business goals and Objectives and implementing the plans to achieve them.

To meet the customer needs by Providing them quality products and Service through an environmental Friendly production system and by preventing pollution, injury and ill health, that comply with rules and Regulation and ensure well being of The personal.

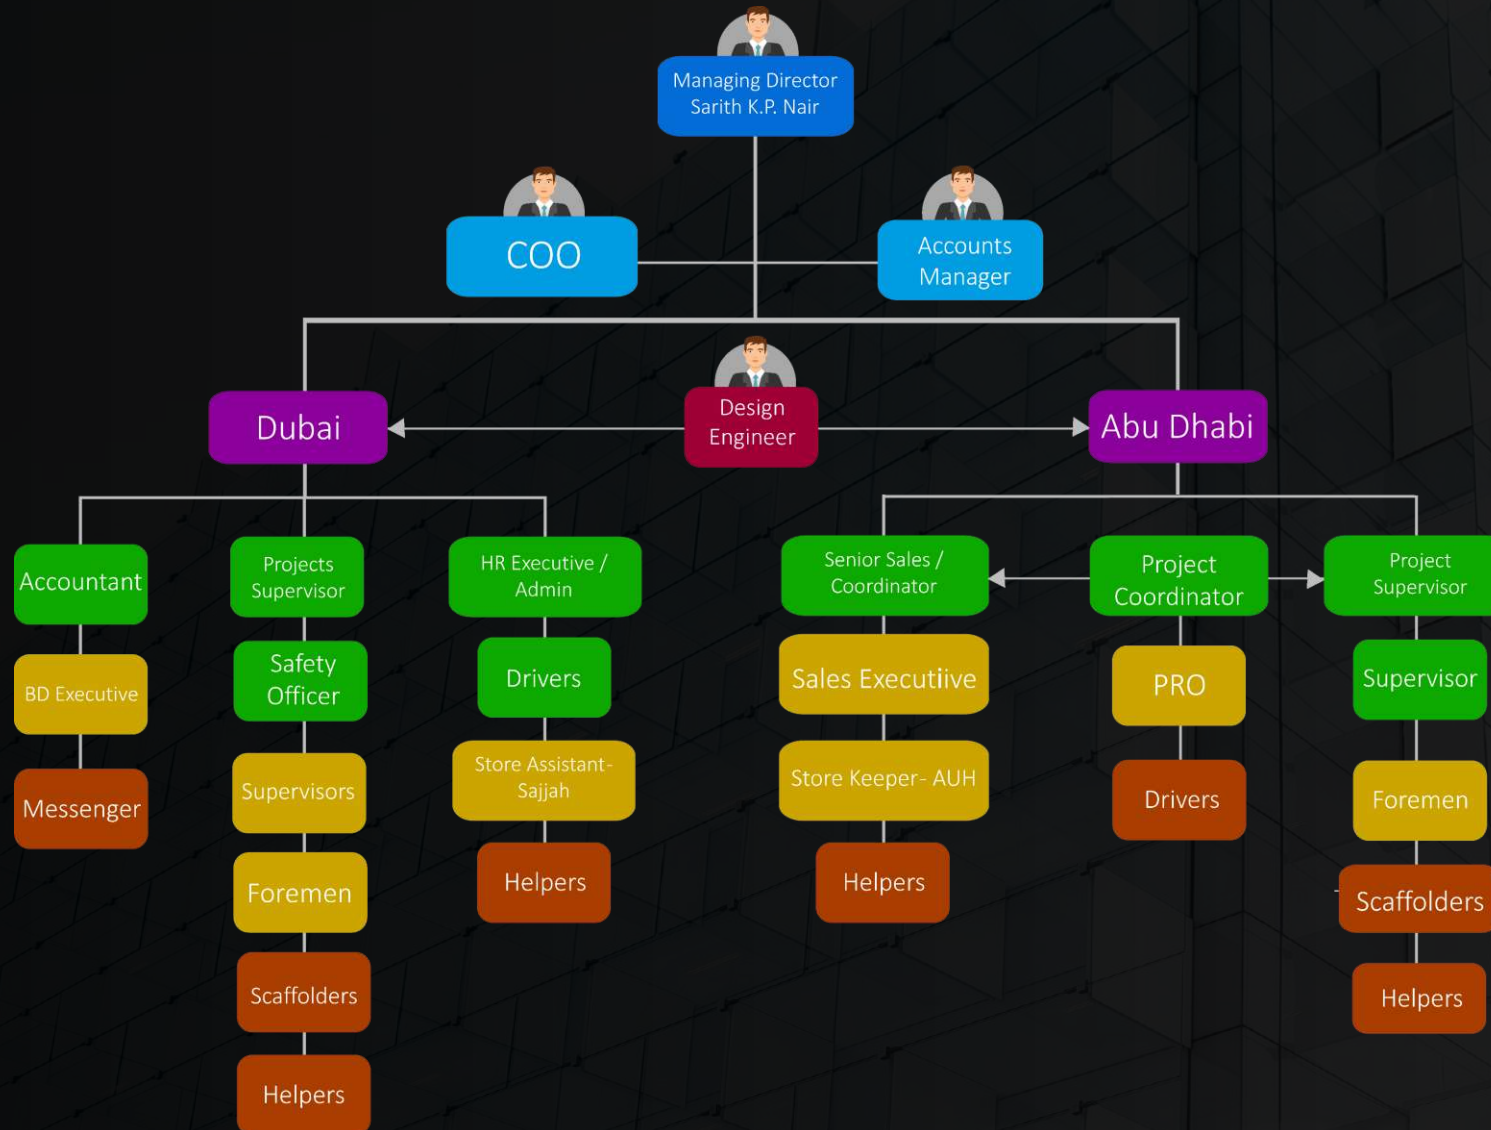

Our Vision

- To promote quality service, while delivering projects that consistently exceed international standards and provide exceptional satisfaction.
- To deliver excellent value and innovative materials to meet our client's requirement using modern principles and newly innovated technologies. envisions being the primary preference at all times both nationally and globally, for their renowned excellence, quality, performance and reliability in all types of scaffolding requirements.

Our Team

Technical Data

vertical (standards)

Standards are manufactured from 48.3mm OD steel tubes with different housing sets at certain intervals. Standards are made available in open ended version, or with welded spigot. Standard tubes of mild steel conform to BS 1139 Supplied painted and galvanized finish

Base jack & Universal Jack

57 kn capacity galvanized jack has an adjustment range of over 45 cm. It is manufactured from 38mm out side dia mtr steel tubes with a rolled/ cut thread. The jack can be used either at top or bottom of the vertical (standard) so the reasonable portion of the jack will always remain inside the vertical for safety.
