Preface

The journey has just begun...Al KHOORY INTERIORS was established in 1977 with a burning ambition to succeed. We knew very well that the odds were heavily stacked against us. With limited resources, we knew that we could not beat the competition in terms of products, prices or other shows of force or clout. With a never-say-die spirit along with complete confidence in Dubai, the modern era's "land of opportunities"; we were convinced that we could strengthen our position in the market through our superior services and high level of customer satisfaction by:

"Our Basic approach remains the same, however our working model is customization with consideration across the board: in product, services, interior design proposals, and project management"...

- * **Transparency in approach**
- * **Sharing our knowledge and expertise, at the same time learn from others**
- * **be open to new ideas and suggestions.**
- * **Accepting mistakes gracefully, and taking appropriate and timely corrective measures.**
- * **Remain committed prior and during a project, and most importantly during the post-completion period.**
- * **Taking Responsibility for the Entire Process**
- * **Understanding and accepting the philosophy that in the race for perfection there cannot be a finish line-there is always room for improvement..**

When I look back, it gives me immense pleasure and pride to note that we have achieved amazing results – having won and executed many prestigious projects for blue-chip corporates, signed dealership agreements with the world's most renowned manufacturers and above all, retained and expanded our most important asset – our human resources! All of this was only possible due to our adherence to the aforementioned policies... Policies we will continue to operate with, as long as we exist in business..
