About Us

Farook Metals & Aluminium Coating Co LLC was in **2002** established to meet the high standards required in coatings as demanded by National and International Organizations. We are in the business of Coating Industrial Metals, Specializing in Architectural Aluminium, Cast Aluminium, Mild Steel and Galvanised Products. We have gone ahead as a professionally managed company with the most sophisticated and modernized Powder Coating factory.

We are a part of **Farook Group of Companies, Ajman.**

We are one of the leading approved applicators for **M/S. Jotun Powder Coatings and Akzonobel UAE Paints LLC.** We offer the best Job Coatings that guarantees the highest quality in **Façade, Super Durable & Hyper Durable** at a very competitive price.

All our Pre-treatment chemicals are imported from **M/S. Alufinish, Germany.** All the materials coated by us have to go through a strict quality testing procedure in our fully equipped quality testing laboratory.

We assure a tough and durable coating. We have a monthly production capacity to coat about **350 Metric Tons** of Aluminium.

Range of coatings can be applied to Curtainwalls, Window Frames, Facades, Louvers, Slidings, Canopies, Wall Panels and other building components with virtually no limits.

POWDER COATING PROFESSIONALS

Coating Procedures consists of the following stages:

I. Chemical Pre-treatment process consisting of 5 steps

These are:

- 1. Degreasing and Acid etching bath : 1 No.**
- 2. Water Rinsing bath : 1 No.**
- 3. DI Water Rinsing bath : 1 No.**
- 4. Chrome free bath : 1 No.**
- 5. Heating Dryer : 1 No.**

The Facility is composed of Tanks: 7.0 Mtr Length X 1.0 Mtr Width X 2.3 Mtr Depth.

- II. Powder Application: After drying off the work pieces are directly powder coated through an automatic powder spray booth supported with 4 GEMA Super Corona guns.**
- III. After Powder coating, the substrates, go through the curing oven at a temprature of 200°C for 10-15 mins, according to the powder specification.**
- IV. The final process is to ensure the quality of the Product through visual inspection and laboratory tests according to the Qualicoat standards, then packaging with Polyethylene film to protect the coated surface.**

Our Quality Control Procedures:

- 1. Colour Comparision** : To insure the colour matching with the reference samples.
- 2. Gloss Test** : According to ISO 2813 (Using incident light 60 degree), then compare the results with the required values.
- 3. Film Thickness** : According to ISO 2360, this test is done by using film thickness gauge to ensure the film thickness in a range of 60 : 90 microns or according to powder specification.
- 4. Adhesion Test** : According to ISO 2409, by using cross hatch cutter with 2mm blades gaps to insure the adhesion between powder and substrate surface.
- 5. Pencil hardness Test** : According to ISO 15184, by using Pensils with various hardness values to insure scratching resistance.
- 6. Impact Test** : According to ISO 6272, by using Impact Tester to insure the coating resistance for Impact action without failure.
- 7. Bending Test** : According to ISO 6860, by using conical mandrel to insure the flexibility of the coating when bending action happens.
- 8. Resistance to Humidity** : To ensure the humidity resistance for the coating by using a special weather stimulator for 1000 Hours.

- 9. Salt Spray Test** : By using salt spray cabinet for 1000 Hours test period to insure salty media resistance for the coating.
- 10. Boiling water Test** : 2 hours immersion in boiling demineralised water (maximum 10 μ S at 20°C).
- 11. Cupping Test** : ISO 1520 followed by a tape pull adhesion test

The quality test number 8 and 9 are made in Jotun Laboratory in Dubai. Jotun Quality Tests Reports will be produced on request.

We Assure

- Customer Satisfaction
- High International Quality Standards required by the customer
- Prices which match our Quality & Market Trends
- Beautiful Coating with Metallic Essences

Our Organisation

Farook Metals & Aluminium Coating Co LLC has a competent Engineering team to cater to the most modern sophisticated machinery and Quality control operating 18 Hours day with a weekly break for servicing of equipments & preventive maintenance. We have a very dedicated office and technical staff. The total strength of Coating Division is of around 25 Employees.
