Water proofing & Sealing

Caparol Paints (Experience German paints)

Caparol Paints L.L.C. is a leading developer and producer of high quality paints, enamels, decorative and structural coatings as well as energy-saving thermal insulation systems. In an environment where quality is pivotal, Caparol paint products are tailored to create an appealing look whilst being formulated to withstand the harsh Middle Eastern climate. Caparol truly cares about family and beautiful living spaces. In fact, this core belief has helped Caparol become the largest family run paint company in Germany.

Caparol Paints was established in Dubai on 1998, since then the company has successfully introduced the best German technology and service to the growing market in the Middle East, and has been part of some of the most prestigious projects in the region such as Reem Developments Mira 1, 2, 3, 4 and 5, Palm Jumeriah, The Ritz Carlton, DIFC, Sofitel Hotel JBR, Shorooq Mirdif Villas and Building Apartments, Jumeriah Village Triangle Villas, Khalidiya Mall in Abu Dhabi and many more.

Henkel Polybit Industries Ltd. has grown over the past 13 years to one of the leading manufacturers of water proofing products and construction chemicals represented in the whole Gulf region with regional offices in U.A.E., Kingdom of Saudi Arabia, Qatar, Oman, Bahrain and Kuwait. Together with its own manufacturing facilities in UAE, Saudi Arabia and Egypt it is understood to work hand in hand with leading consultants, architects and construction authorities in the GCC region catering to the varied needs of the construction industry.

To be able to offer the latest technologies and services to the customers in the fast moving and growing construction market, Henkel Polybit Industries Ltd. started a Joint Venture with Henkel AG & Co. KGaA in 2004. The Henkel Group, with its leading brands and technologies, makes people's lives easier, better and more beautiful. Inspired by this vision, a small, regional business founded in 1876 by Fritz Henkel has since developed into an international company with over 50,000 employees. In more than 130 years Henkel became one of Germany's most globally oriented companies where people in approximately 125 countries around the world trust in brands and technologies from Henkel. 3,000 employees in research, product development and applications technology alone generate a constant flow of novel products and systems solutions.

With Adhesive Technologies, one of the three strategic business sectors besides Laundry/Home Care and Cosmetics/Toiletries, Henkel is the world's market leader in adhesives, sealants and surface treatments. An integral part of the Adhesive Technologies business sector is the Henkel Building Systems department. With our core categories – Tiling, Flooring, Waterproofing and Thermal Insulation – we provide an internationally acclaimed range of specialized products and system solutions to meet the needs of the construction industry and professional craftsmen. Our long-term experience, extensive know-how, highly innovative technologies and products help our customers to be more successful and efficient, while

preserving the Earth's natural resources. The Company's philosophy especially highlights ecological leadership (SHEQ – safety, health, environment and quality) as one of its overriding principles. Henkel Polybit Industries Ltd. production sites are certified to DIN EN ISO 9001. Quality from Henkel – for your professional success.

✚ Maintaining and supplying a consistently high standard of quality is the key to achieve long-term success

This applies just as much to craftsmen and their work as to Henkel Polybit Industries Ltd. and its products. The Henkel Group aspires to top product quality and quality leadership. This entails in-depth research, high-grade raw materials, advanced production techniques and constant monitoring. The outcome is products that deliver reliable performance, high yield, and are safe to use. For all these performance factors, the key goal is achieving a balance between economy and ecology. Every single employee bears personal responsibility for this high ideal. Their efforts are supported by systematic training.

Arabchem Chemicals.

Arab Chem Chemical Industry LLC is a Construction Chemical company established in 2012 by our chairman Mr Khalil Ibrahim Aqeel Alabdool Alawadhi. Arab Chem Chemical Industry LLC is also having its presence internationally and is catering to customers of Middle-East & Far East.
