Greymatter General Trading LLC further diversifying in to a dedicated oilfield company. What separates an average team from an extraordinary one is a sense of urgency, an ability to hustle and a need to do what is never been done before. Our commitment to results is rooted in deep oilfield experienced professionals and is exceeded only by a desire to pioneer innovative solutions that make a difference.

We believe that Greymatter General Trading LLC is on the right path of evolution with the commitment to succeed, serving our valued clients with at most care to offer an error free performance in an atmosphere of inconstant demands of the markets. We will be expanding our areas of operations, developing new business with technical experts and strengthening the capabilities for alliances with new manufactures and suppliers..

MISSION

Taking the medium-to-long-term corporate plan as our roadmap towards the future, and drawing continued strength from our founding spirits of creativity and challenge by everyone at Greymatter General Trading LLC we grow dynamically through full filling our commitments and exceeding the expectations of our customers, society and employees.

VISION

We explore how technology along with services can help people or organizations identify their problems and challenges, thereby enable them to realize their possibilities and aspirations. We apply new thinking and ideas to create more simple, valuable and trusted experiences with technology, continuously improving the way our customers live and work.

The Greymatter General Trading LLC will inspire its employees to be the best they can be. We will engage in sustainable practices and anticipate the needs of our customers. We will maximize return to the stockholders while still maintaining quality in our products and services.

PEOPLE

We attract, develop and retain highly capable, diverse and engaged employees at all levels

who embrace our Values and take initiative to deliver business results in a rewarding work environment. We say you “Can’t Beat the Experience” of working at a Greymatter General Trading LLC company. This means we give our employees opportunities to rise to the challenges of manufacturing and marketing products in highly regulated, dynamic and competitive industries.

We recruit and develop talented leaders through a four-step process that focuses both on what we do and how we do it:

- ▶ We recruit talent for leadership intelligence
- ▶ We affirm leadership behaviors
- ▶ We teach leadership responsibilities
- ▶ We provide our people with experiences to grow their leadership capabilities

We believe that attracting a talented and diverse workforce is one of the keys to our success. We strive to create for our employees an environment which offers professional and intellectual challenges, which encourages innovation and creativity, and which rewards success and effective teamwork

TUBULAR YARD MANAGEMENT

In a normal oilfield equipment management the tubular are the major time consuming and manpower required activity. The procurement, logistics and management of OCTG inventory and yards can be a real difficulty.

To help you control costs and improve the efficiency of you operations, Greymatter General Trading LLC provides a full range of OCTG and Pipe Yard Management services that help you develop Local Content, optimize your stocks of tubular goods and increase perational reactivity, while meeting your Quality and HSE requirements.

We prepare the pipes in our yard and deliver them to the well or port, ready to be run. Pipes preparation includes inspection, tally and others.

We recover, clean and inspect all the surplus pipes and accessories, and perform the consequent re-stocking and any needed repairs. In order to reduce the environmental impact,

we also offer the service of collection and final disposal of protectors. Our solutions are available for pipes from all manufacturers and include thread repairs, crossovers, pup joints and nip-ple manufacturing.

All above activities are managed and controlled highly skilled labor and a robust and highly sophisticated tubular management computer application. In a normal oilfield equipment management the tubular are the major time consuming and manpower required activity.

The procurement, logistics and management of OCTG inventory and yards can be a real difficulty. To help you control costs and improve the efficiency of you operations, Greymatter General Trading LLC provides a full range of OCTG and Pipe Yard Management services.

That will help you to develop Local Content, optimize your stocks of tubular goods and increase operational reactivity, while meeting your Quality and HSE requirements.

RIG MANAGEMENT

Rig management encompasses a broad range of activities covering the recruitment and selection, deployment, training, crew costs monitoring and ongoing management of the officers and ratings engaged on vessels under our management.

Greymatter General Trading LLC has one of best seafarer retention rates in the industry.

This is achieved through having proper recruitment, remuneration, continual training and performance appraisal systems in place. We maintain a computerized Data Bank of well over 15000 oilfield personnel, who have been screened and short-listed, so that they can be
