## Maintenance

Giving our best service to your needs, we provide all types of Repairing, Supply & Installation and Maintenance. Technically we do all alignment, fitting, assemble components parts, using hand tools, power tools, fixtures and templates.

Perform electrical wiring for lights, sockets, wire lines and safety box.

We install electronic parts, machines and hardware in housings.

Providing the well experience staff that can determined the cause and errors, the maintenance and type of maintenance needed, installing equipment, machines, wiring, or programs to meet specifications and determining the kind of tools and equipment to do a job.

Royal Way supplies you with original parts, which have passed the highest standards in design, production and material quality.

Especially with high volume processing, tolerances are tight and compromising on quality will give an increased risk on yield losses and even equipment breakdowns.

Because these costs can be very high, Royal Way Spare parts has invested a lot of research in finding the best materials and manufacturing tolerances to safeguard an optimal performance.
