**SUPREME  
ENGINEERING  
COMPANY L.L.C**

PIONEER SOLUTION PROVIDER FOR THE STEEL INDUSTRY

## ENGINEERING & FABRICATION:

M/S. Supreme Engineering co. LLC., is registered in on 15th March, 2010 with Abu Dhabi Municipality, under the license No. 1181472 issued by Department of Economic Development, Abudhabi, United Arab Emirates to the partners.

The company is engaged in providing contract services to ADNOC and its group of companies and undertake projects for Oil, Gas, Petrochemical, Power Generation, Government organizations, construction sector and shipping business.

The Specific areas wherein the Company will be able to assist these industries from within its own resources are as follows:

- ➡ FABRICATION & ERECTION – STRUCTURES/PIPING/TANKS & VESSELS
- ➡ MACHINE SHOP ENGINEERING / MAINTENANCE.
- ➡ BLASTING, PAINTING, GALVANIZING & SPECIAL COATING.
- ➡ MAINTENANCE AND OPERATION SERVICES.
- ➡ STEEL SUPPLY, MAN POWER SERVICES

Our Head Office is located in the Mussafah, MW-4, Abu Dhabi, UAE

**Supreme Engineering** also boasts dedicated personal, including well qualified engineers and a taskforce of skilled and highly experience technicians - a key element for project success and complete customer satisfaction.

The growth achieved by **Supreme** can be totally attributed to relationships built on the trust that has been earned by consistendly acheiving the desired results at highly competitive prices.

## **BLASTING, GALVANIZING AND PAINTING:**

Due to high demand from our customers, we have set up an facility of carrying out blasting and painting jobs. We also undertake hot dip galvanizing as per ASTM A 123, Powder Coating jobs & passivation of Stainless steel works.

## **PROFILING SOLUTIONS :**

### **CNC PLASMA CUTTING :**

Plasma torch fire an electrical arc to transform inert gas into plasma. This Plasma reaches extremely elevated temperature nd is applied to the workpiece at high speed to melt away unwanted material. The process is often used on electrically conductive metals that require a precise cut width and minimal preparation time. To accomodate mild steel sheet of maximum size 6m x 2m and thickness of 40mm can be cut on this machine.

### **Advantages of High Definition of CNC Laser Jet Cutting:**

High Speed, Cost effective cutting & High production rate.

Any complicated profiles can be cut as per the AutoCAD Drawings

## **MACHINE SHOP:**

We have a well equipped machine shop to manufacture different components as per clients requirements. Equipments include Lathe, Shaping, Milling, Drilling and Grinding Machines.

## STEEL TRADING:

For Steel Trading Group, service is not limited to the supply of standard materials. To our Customers, we are more than just a stockist and distributor. Following are some of the value added services we provide.

**STEEL PLATES**

**STEEL PIPE & TUBES**

**STEEL ANGLE BAR**

**STEEL CHANNELS**

**STEEL BEAMS**

**STEEL CHEQ PLATE**

**GRATINGS**

**PIPE FITTINGS**

**HARDWARE ITEMS**

# Our Specialized Products are :

Pipe racks, Pipe supports, Circular Platforms, Pre-engineering buildings and all type of structural steel works.

Corrosion protection (Galvanizing, Blasting and Painting) to Vessels, Valves, Tanks, Structural steel, Pipe spools etc.

Procurement of all type of raw material including pipes / fittings.

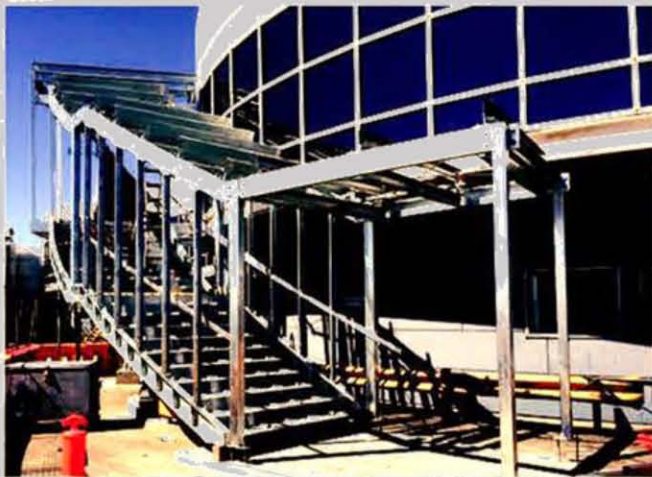

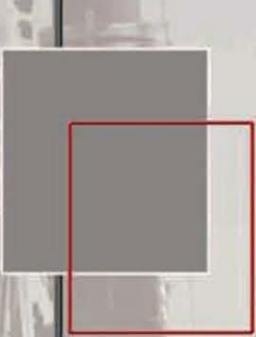

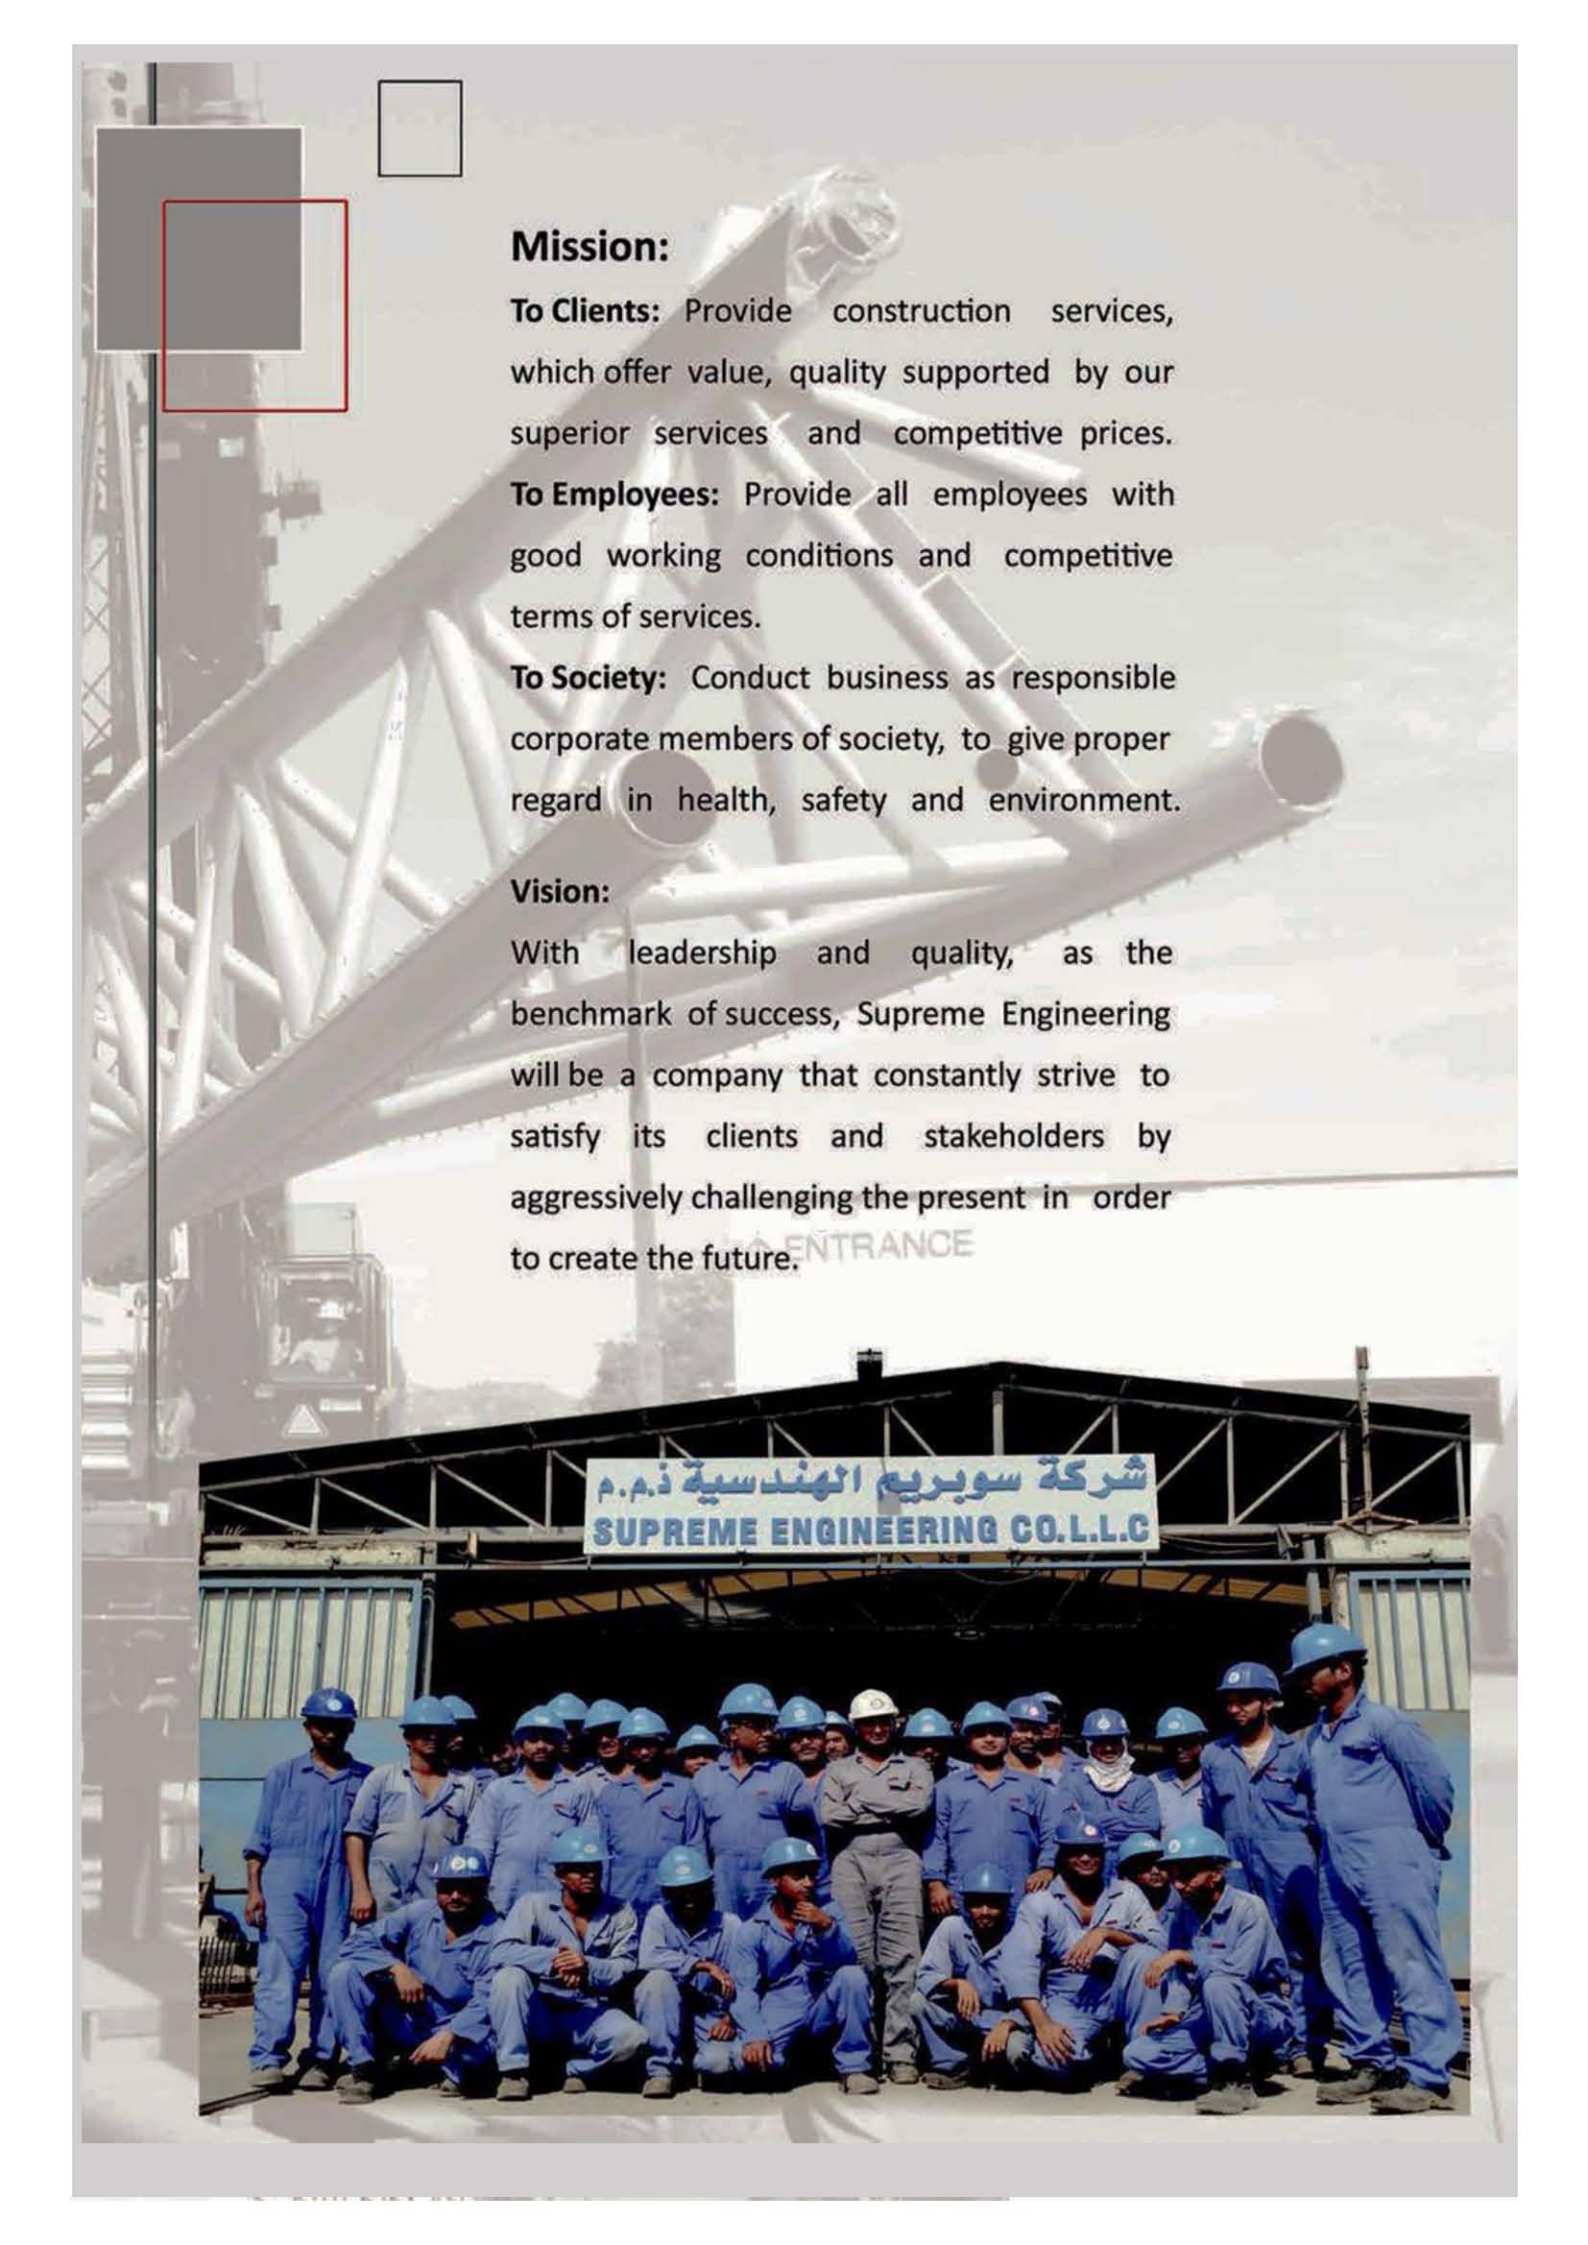

## Our Special Products

We have full machining facilities in our fabrication workshop and it also dedicated services to our customers for machining, Plate rolling, Shearing, Bending, Sheet metal cutting and other facilities.

Our project and erection teams are capable of managing any size of project from Engineering to Erection stage professionally with complete safety.

## Mission:

**To Clients:** Provide construction services, which offer value, quality supported by our superior services and competitive prices.

**To Employees:** Provide all employees with good working conditions and competitive terms of services.

**To Society:** Conduct business as responsible corporate members of society, to give proper regard in health, safety and environment.

## Vision:

With leadership and quality, as the benchmark of success, Supreme Engineering will be a company that constantly strive to satisfy its clients and stakeholders by aggressively challenging the present in order to create the future.

## Our Quality Products

We have full machining facilities in our fabrication workshop and it also dedicated services to our customers for machining, Plate rolling, Shearing, Bending, Sheet metal cutting and other facilities.
