About Us

We are a rapidly growing manufacturer of top quality, highly durable and standardized PVC pipes and fittings in the United Arab Emirates. The company has a local manufacturing facility and enjoys popularity among construction companies within the region and abroad.

We are the largest local supplier of plastic pipe fittings for drainage and rain water extraction in the local UAE market. We have a large distributor network within the UAE and abroad and our product is exported to countries within the Middle East. Most of our exports are made to Saudi Arabia, Kuwait, Qatar, Bahrain, Oman, Syria, Jordan and Egypt.

After years of exposure to the local and regional markets, we have developed a large customer - base. We currently supply our products to almost 130 customers locally and abroad and this is an extraordinary achievement we have made within the last decade.

Ever since we were established, we have worked to build a reputation of credibility and great customer service. Integrity and quality are the characteristics that distinguish Faris Pipes in the market. We will always strive to expand and diversify our position in the market place, by promoting new and innovative ideas.

We believe that by fully committing ourselves to the above, we will be able to retain and expand our market and customer base.
