## About MB Group

Founded in Amman, Jordan in 1993 by Mr. Anton Albandak with a supply center in Zarqa free zone, Jordan and our main office and facility in Jebel Ali, Dubai.

MB Group developed into a fast-growing provider of drilling equipment, services and cost effective solutions to the oil and gas industry. In doing such we have an excellent reputation for commitment and quality among our customers.

Strong industry relationships with oil and gas exploration companies, drilling contractors and oil field service firms that are active in most of the Middle East , Africa ,and Far East countries.

# Our Services

MB Group provides a wide range of oil field equipment crucial to the success of all stages of drilling operations.

We work closely with oil and gas exploration companies, drilling contractors and oil field service firms and are now widely recognized as a first choice for services providing:

- Pressure Control Equipment
- Rental and Sales
- Fishing tools
- Tubular & Handling tools
- Drilling Rigs & Rig Equipment

# Equipment rental & sale

MB Group provides oil and gas companies with a single supply source for the rental or sale of quality oil field equipment.

Our premium equipment is sourced either from established oil field manufacturers or from our expanding range of proprietary products.

Our extensive inventory includes a variety of products used in the construction of the drill string as well as bottom-hole assembly for drilling and down hole operations.

Our product line is compatible with all contemporary size, design and metallurgical requirements and is backed by first-class maintenance and workshop facilities to ensure a quick turn around from requisition right through to on site delivery.

Every part and process of our inventory and service conforms to the highest industry standard, allowing us to provide the safest and most reliable solution available.

# Pressure Control Equipment

Controlling well pressure is critical to the success and safety of drilling and work-over projects.

MB Group employs dedicated teams of professionals experienced in assembling, testing, installing and operating BOPs and associated pressure control equipment.

Our dedicated workshops are used to inspect and refurbish equipment on a regular basis to optimize pressure control integrity, safety and flexibility.

Pre-assembly of BOP systems results in minimal downtime during the installation of the equipment.

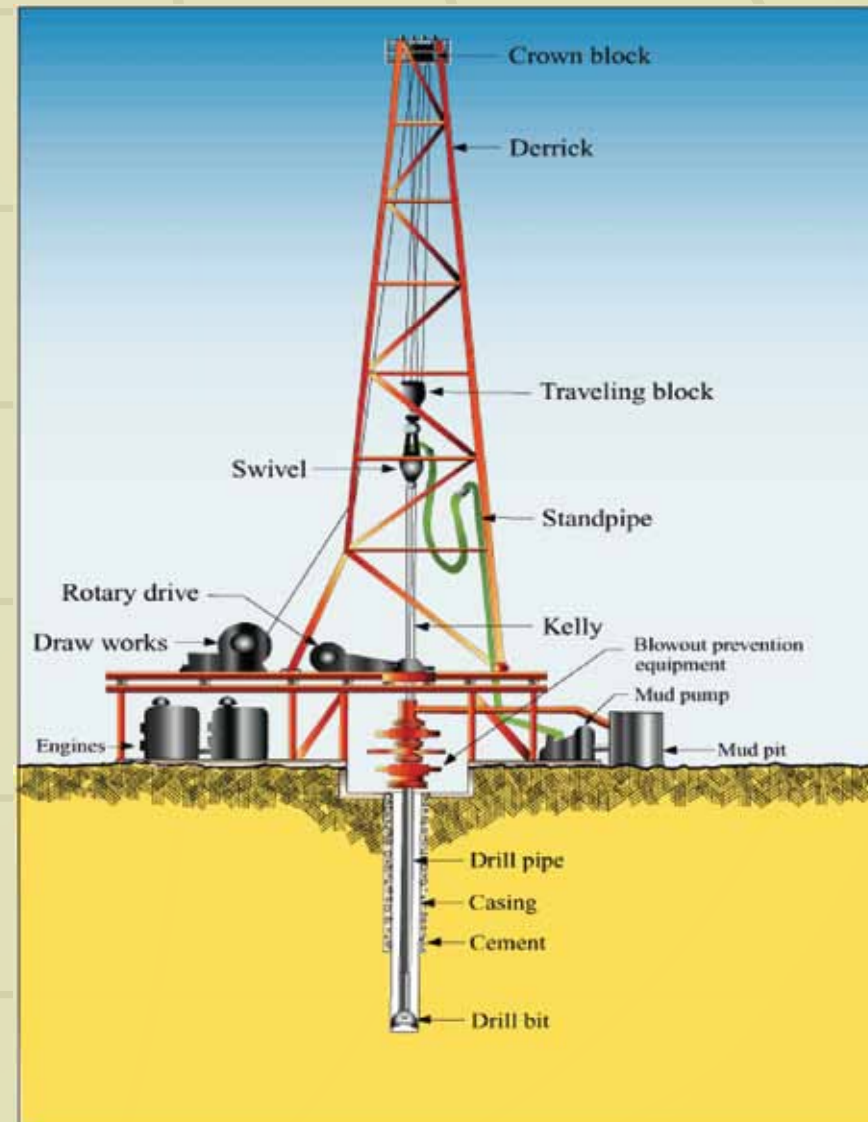

# Drilling Rigs & Rigs Equipment

MB Group offers a fleet of modern, quality, and diversified Drilling Rigs (Oil & Gas land based) in the various regions that we service.

Some of the Land Rigs equipment we carry is:

- SCR drives
- AC variable frequency drives.
- Mud tank
- Shale shakers
- Mud pump
- Draw works
- Kelly
- Travelling block
- Swivel & top drive
- Blowout preventer -Annular type, Pipe ram & Blind ram

# QHSE

- At MB Group , we incorporate Quality, Health, Safety and Environmental (QHSE) principles into everything we do.
- An integrated QHSE Management System ensures our company maintains consistent quality and safety practices across all of our operations, facilities and offices worldwide.
- We are committed to ISO 9001 Quality Management System accreditation and principles throughout the Group and ensure that all our operations meet their own specific statutory legal Health, Safety and Environmental obligations.
