Remote access CAMERA - Markeb Satellite Trading offers access CCTV allows you to watch CCTV cameras from anywhere in your mobile, Tablet or Laptop, Control live and recorded video and respond to alarms and actions. Great for Government and retail soltuions.

PABX SOLUTIONS

PABX Business Telephony System

IPT solutions is an effective way to save on equipment, space and expense. IP-PBX Telephony Solutions with IP telephones help reduce cost without limiting performance. IP phones in an office share the same computer network which cuts back on space and equipment. The lack of wires also helps give offices a modern look. Our IPT solutions come with features like IVR or a company directory which allows everyone to be connected even when they are in different locations.

STRUCTURE CABLING

What makes our CCTV service different

Every structure cabling system is unique because of the architectural structure of the building, cable and connection products, function of the cabling installation of an already installed structure, customer requirements and manufacturer warranties. The methods we use to complete and maintain cabling installations are relatively standard. The standardization of these installation is necessary because of the need to ensure acceptable system performace.

Our cabling installation team is expert in designing systems for a wide range of building and equipment's types, with understanding of the environment and aesthetic issues required.

Our Capabilities

We are capable of meeting most of your requirements

Our Services

- CCTV
- Networking Solutions
- Intercom
- PABX telephone system
- Structure cabling and termination
- Security System
- IP Networking infrastructure
- Service level agreements
- Biometric system
- PA System
- Parking Barrier
- Energy Saving Sensor

BIOMETRIC SYSTEM

Biometric Access Control and Time and Attendance

Biometrics replaces the need for keys, fobs and pin codes. Your finger becomes the key to your business.

Benefits of Biometric Access Control

- Increase security of the workplace for visitors and employees
- Flexible Management and control
- Free up staff from controlling entries and exits
- Reporting of all entries and exists stored on the system, accessible remotely

Benefits of Biometric Time and Attendance

- Keep track of employees' working time and absences
- Increase your team's productivity
- Reduce costs, processes, computability tasks
- Make payroll calculation easier

ALARM SYSTEMS

Intruder Alarm System

Intruder/burglar alarm system is a set of interconnected devices that is aimed to protect an object, usually a facility, against intruders and to notify the owner or/and the monitoring station/center of any violation of the protected zones.

The interface devices (manipulators) are modern keypads and touch panels, which beyond the aesthetic appearance and intuitive operation have the ability to store maps of the facility on memory cards for easier control of the entire system, as well as (optionally) mobile phones or handhelds and PCs with dedicated applications and Internet connection.

PA SYSTEM

Public Address System

Bharti Technologies provide a centralized amplifier based public addressing system in Abudhabi, Dubai that's been designed to provide voice paging and to broadcast alarm tone during emergencies.

Public Address system is designed to offer clear reproduction of sound and intelligibility of speech even in high noisy areas.

Public Addressing system uses high reliability amplifiers with built in over load protection circuitry, short circuit protection, open circuit protection and thermal protection.

The system can transmit alarm tone and routine voice messages, from a central location, to all or selected areas of the facility, in a reliable and safe manner, by the use of loudspeakers.

AUDIO / VIDEO INTERCOM

AV Intercomes for Your Home and Business

We provide complete four wired video audio intercom solutions based on your requirements. Our dedicated team of engineers can design a system which is best applicable for your premises like high rise residence building, luxury Villa, etc. Our products are security enabled with a live display with user-friendly operation. Our systems are flexible they can be altered by adding more slave stations. We provide Audio intercom, Video intercom, Intercom with door lock and security features, Intercom solution for high rise buildings, Direct Phone intercom system which can take calls directly

SMA TV

Digital Satalite Master Antenna Television

SMATV stands for Satellite Master Antenna Television and refers to a system that uses multiple satellite and broadcast signals to create a single integrated cable signal for distribution to a cabling network.

We install a satellite dish and TV antennae to receive programming from satellite providers and local broadcast networks. These antennae feed into several racks of electronic equipment which tunes in the channels you choose for your cable lineup and combines them into a single cable signal.
