## COMPANY PROFILE

**Mortar & Plaster (M&P)** is a leading manufacturer of Dry mix products based in Abu Dhabi. Our motto is to achieve highest customer satisfaction through the quality of our products and consistency in our services. **Mortar & Plaster (M&P)** is dedicated to meet the growing and challenging market demand for the dry mix products in U.A.E. **M&P** is manufacturing the dry mix products based on Cement and Gypsum. Our range of products will cover the overall need of the construction building industry.

**M & P** will deliver its products to the customers either in paper bags or silos in the form of dry mix. The complete set of machinery will be provided to the customers for the hassle free usage of the products at the construction site. The fully synchronized and mechanized application methods will minimize the overhead workforce cost to a larger extent. We offer mechanized dry mix conveying to any required distance by our system. Fully mechanized application will ensure the consistent quality in the application through out the project.

A wide range of application machines and tools are available to meet with the different product applications.

**M & P** 's silo system with the mechanized dry mix conveying will provide a clean and dust free job site adding more value to health, safety and environment.

**M & P products are designed and manufactured meeting the latest specification requirements of BS/EN/DIN/ASTM standards.** Our most modern state of art manufacturing facility and stringent quality control will ensure the quality and consistency in the products. Our fully equipped test laboratory will work round the clock ensuring the quality of the products.

**M & P** will be assuring the quality of products by strict quality control measures from selection of raw material to the finished products. We can design, develop and manufacture custom made products meeting the specific requirements of our valued customers.

Our dedicated team of sales/QC/site engineers will provide the customers total support as and when required.

**M&P** offers its products delivery to the site in 25-50 kg paper bags in wooden pallets with plastic shrink wrap or 20 m<sup>3</sup> silos which can be placed at site in a convenient position.

## RUSH COATS

| Product No. | Product Name | Uses  | Packing    | Coverage                           |
|-------------|--------------|---|------------|------------------------------------|
| MP1         | RUSH COAT    | To apply as rush coat material to achieve good key for rendering on normal fair faced concrete surfaces.<br>Application by tyrolean box/ spray hopper @ 2-5mm.              | 50 kg Bags | 430 m <sup>2</sup> @ 2mm thickness |
| MP2         | RUSH COAT    | To apply as rush coat material to achieve good key for rendering on densified concrete surfaces.<br>Application by tyrolean box/ spray hopper @ 2-5mm.                      | 50 kg Bags | 430 m <sup>2</sup> @ 2mm thickness |
| MP3         | RUSH COAT    | To apply as rush coat material to achieve good key for rendering on ultra smooth concrete surfaces.<br>Application by tyrolean box/ spray hopper @ 2-5mm.                   | 50 kg Bags | 430 m <sup>2</sup> @ 2mm thickness |
| MP4         | RUSH COAT    | To apply as rush coat material to achieve good key for rendering on impermeable/non absorbing surfaces (EPS/XPS etc).<br>Application by tyrolean box/ spray hopper @ 5-6mm. | 50 kg Bags | 430 m <sup>2</sup> @ 2mm thickness |

## RENDERS/ PLASTERS

| Product No. | Product Name                         | Uses   | Packing              | Coverage                           |
|-------------|--------------------------------------|--|----------------------|------------------------------------|
| MP10        | CEMENT RENDER/PLASTER                | To apply as render/plaster on internal/external concrete block walls.<br>Application by spray machine/manual @ 10 - 20mm.                | 50 kg Bags and Silos | 42 m <sup>2</sup> @ 15mm thickness |
| MP12        | CEMENT RENDER/PLASTER - AAC/CONCRETE | To apply as render/plaster on internal/external AAC/concrete block walls.<br>Application by spray machine/manual @ 10 - 20mm.            | 50 kg Bags and Silos | 42 m <sup>2</sup> @ 15mm thickness |
| MP14        | CEMENT RENDER/PLASTER - LW           | To apply as light weight render/plaster on internal/external AAC/concrete block walls.<br>Application by spray machine/manual @ 10-20mm. | 50 kg Bags and Silos | 50 m <sup>2</sup> @ 15mm thickness |
| MP15        | CEMENT RENDER - P                    | To apply as render on external plinth areas.<br>Application by spray machine/manual @ 15-20mm.   | 50 kg Bags and Silos | 30 m <sup>2</sup> @ 20mm thickness |
| MP17        | CEMENT PLASTER - HS                  | To apply as plaster for high strength (> 15 MPa) requirements.<br>Application by spray machine/manual @ 15-50mm.                         | 50 kg Bags and Silos | 37 m <sup>2</sup> @ 15mm thickness |
| MP18        | CEMENT PLASTER - F                   | To apply as fine thin coat plaster on ceilings and rough cement plaster surfaces.<br>Application by spray machine/manual @ 4-6mm.        | 50 kg Bags and Silos | 162m <sup>2</sup> @ 4mm thickness  |

## DECORATIVE COLOURED RENDERS

| Product No. | Product Name                 | Uses  | Packing              | Coverage                           |
|-------------|------------------------------|---|----------------------|------------------------------------|
| MP20        | DECORATIVE COLOUR RENDER     | To apply as decorative colour render on external block walls.<br>Application by spray machine/manual @ 15-20mm.                                 | 50 kg Bags and Silos | 42 m <sup>2</sup> @ 15mm thickness |
| MP22        | DECORATIVE COLOUR RENDER - T | To apply as decorative textured colour render on external block walls.<br>Application by spray machine/manual @ 15-20mm.                        | 50 kg Bags and Silos | 35m <sup>2</sup> @ 15mm thickness  |
| MP24        | ROCK WORK RENDER             | To apply as high strength (> 15 MPa) decorative textured colour render for landscaping works.<br>Application by spray machine/manual @ 15-50mm. | 50 kg Bags and Silos | 38 m <sup>2</sup> @ 15mm thickness |

## GYPSUM PLASTERS

| Product No. | Product Name        | Uses   | Packing              | Coverage                           |
|-------------|---------------------|--|----------------------|------------------------------------|
| MP30        | GYPSUM PLASTER - N  | To apply as normal gypsum plaster on internal AAC/concrete block walls.<br>Application by spray machine/manual @ 10-20mm.                | 25 kg Bags and Silos | 58 m <sup>2</sup> @ 12mm thickness |
| MP32        | GYPSUM PLASTER - F  | To apply as fine thin coat gypsum plaster on ceilings and rough cement plaster surfaces.<br>Application by spray machine/manual @ 4-6mm. | 25 kg Bags and Silos | 208 m <sup>2</sup> @ 4mm thickness |
| MP34        | GYPSUM PLASTER - FD | To apply as fine thin coat gypsum plaster directly on concrete surfaces.<br>Application by spray machine/manual @ 4-6mm.                 | 25 kg Bags and Silos | 208 m <sup>2</sup> @ 4mm thickness |

## BLOCK WORK MORTARS

| Product No. | Product Name          | Uses   | Packing              | Coverage                            |
|-------------|-----------------------|--|----------------------|-------------------------------------|
| MP40        | CONCRETE BLOCK WORK   | To apply as block laying mortar for concrete block works.<br>Mixing by screw machine/manual. | 50 kg Bags and Silos | 36 m <sup>2</sup> @ 10 mm thickness |
| MP42        | AAC BLOCK WORK MORTAR | To apply as block laying mortar for AAC block works.<br>Mixing by screw machine/manual.      | 50 kg Bags and Silos | 82 m <sup>2</sup> @ 5mm thickness   |

## TILE GLUES

| Product No. | Product Name   | Uses  | Packing    | Coverage        |
|-------------|----------------|---|------------|-----------------|
| MP50        | TILE GLUE - HB | To apply as tile fixing glue for ceramic tiles on intrnal/external areas.<br>Mixing by screw machine/manual.                | 50 kg Bags | Yield 685 L/ton |
| MP52        | TILE GLUE - HB | To apply as tile fixing glue for ceramic/porcelain/glass tile on internal external areas<br>Mixing by screw machine/manual. | 50 kg Bags | Yield 670 L/ton |

## FLOOR SCREEDS

| Product No. | Product Name                 | Uses   | Packing              | Coverage        |
|-------------|------------------------------|--|----------------------|-----------------|
| MP60        | FLOOR SCREED (10 MPa-40 MPa) | To apply as bonded/unbonded/floating leveling screed on floors.<br>Mixing by screw machine/manual. | 50 kg Bags and Silos | Yield 530 L/ton |

## REPAIR MORTARS

| Product No. | Product Name       | Uses   | Packing    | Coverage        |
|-------------|--------------------|--|------------|-----------------|
| MP70        | REPAIR MORTAR - FR | To apply as fine repair mortar on concrete surfaces.<br>Mixing by screw machine/manual.  | 50 kg Bags | Yield 620 L/ton |
| MP72        | REPAIR MORTAR - CR | To apply as thick repair mortar on concrete surfaces.<br>Mixing by screw machine/manual. | 50 kg Bags | Yield 530 L/ton |

## GROUTING MORTARS

| Product No. | Product Name     | Uses   | Packing              | Coverage        |
|-------------|------------------|--|----------------------|-----------------|
| MP80        | GROUT MORTAR - M | To apply as non shrink grouting mortar for medium strength (40 MPa) anchoring applications.<br>Mixing by screw machine/manual. | 50 kg Bags and Silos | Yield 510 L/ton |
| MP82        | GROUT MORTAR - H | To apply as non shrink grouting mortar for high strength (70 MPa) anchoring applications.<br>Mixing by screw machine/manual.   | 50 kg Bags and Silos | Yield 510 L/ton |

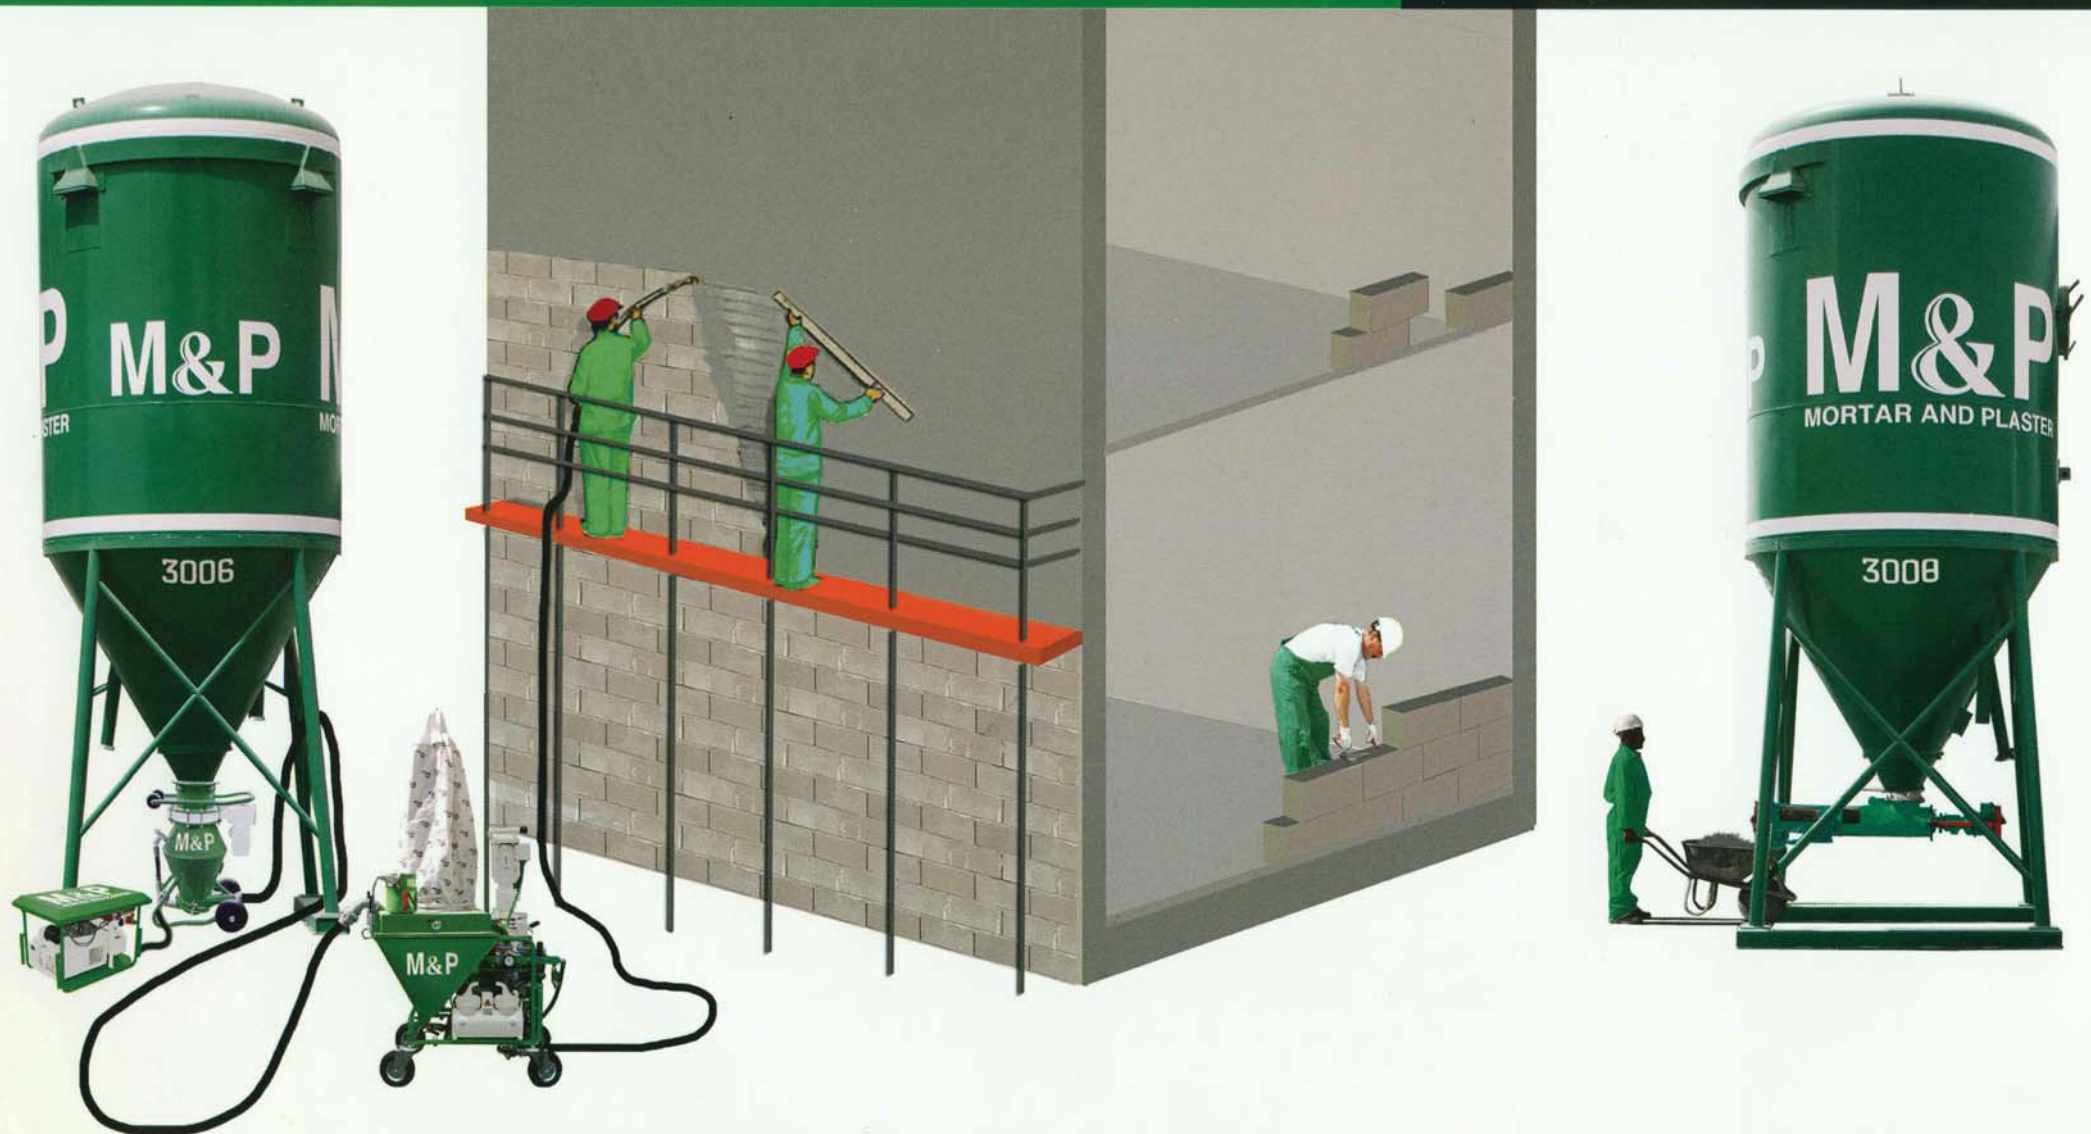

## INSULATION RENDERS & MORTARS

| Product No. | Product Name           | Uses   | Packing              | Coverage               |
|-------------|------------------------|--|----------------------|------------------------|
| MP90        | INSULATION RENDER      | To apply as thermal insulation render on external walls.<br>Application by spray machine/manual @ 40-60mm. | 50 kg Bags and Silos | 48 m² @ 40mm thickness |
| MP92        | INSULATION GLUE MORTAR | To apply as fixing glue for EPS/XPS thermal insulation sheets.<br>Mixing by screw machine/manual.          | 50 kg Bags           | 200 m² @ 3mm thickness |
