

airflow®
SPRAY BOOTHS & OVENS

One of the UK's leading manufacturer of Spraybooths be it water wash or dry filter, also a full range of ovens - box, curing or cleaning type. They also have designs facilities for the 'one off' special units.

GRACO
FLUID HANDLING PUMPS

Airless, air assisted airless, airspray, electro-static including hoses, guns, tip repair kits and full replacement parts. Also complete line of fluid transfer equipment.

EFD
INDUCTION COATING SYSTEM

Appreciated in many industries

Typical application sites are offshore rigs, onshore oil and gas facilities, fabrication and repair workshops, processing plants, pipelines, bridges and shipyards.

WAGNER

Pneumatic IceBreaker HP piston pumps

Pure power!

3-year long-term warranty!

Further convincing proof for the reliability and quality of WAGNER piston pumps

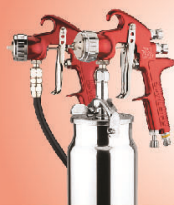

MUNKEBO CLEMCO A/S
SURFACE CLEANING EQUIPMENT

A Danish based company who specializes in the design and manufacture of surface cleaning equipment from Abrasive transport and recovery equipment, ventilation systems (portable or stationary) dehumidifiers (absorption or refrigeration) also complete turnkey blasting & paint room installation.

MEC
THERMAL SPRAY FACILITIES

Thermal spraying is a group of coating processes in which finely divided metallic or non-metallic materials are deposited in a molten or semi molten condition with excessively high velocity to form a coating. The coating material is in any form as powder, wire or rod of pure metals and alloys of iron, tungsten, nickel, chromium etc. and wide range of oxides and nitrates.

DEVILBISS
INDUSTRIAL & AUTOMOTIVE REFINISHING PRODUCTS

Finishing Equipment Technologies Include:
Sprayguns - Manual and Automatic - Conventional, H.V.L.P. Compliant, Airless and Air Assisted types
Pressure Feed Cups and Tanks - Stainless, Mild and Aluminium steels.

TRELAUNY
PNEUMATIC TOOLS

Manufacture a range of air tools including needle guns, scaling hammers and long reach scalers. The needle guns can be supplied with spark-free needles for use in hazardous areas. All tools are safe for under water use also dust free surface preparation equipment.

elcometer®
COATING INSPECTION INSTRUMENTS

The world leading supplier of a full range of Coating Inspection instrumentation. Products include coating thickness gauges, climatic condition measurement and coating defect detection.

ES430 FR PFP ATEX SYSTEM
PRESSURE ENCLOSED ELECTRICAL CONTROL BOX

This equipment or protective system has been found to comply with the Essential Health & Safety Requirements relating to the design and construction of equipment and protective systems intended for use in potentially explosive atmosphere given in Annex II to the Directive 94/9/EC of 23rd March 1994.

Smart Choice!
Clever Solutions!

Spesco
Middle East LLC

Surface Preparation Equipment & Specialist Company

Tel.: +971 4 8824083 Fax.: +971 4 8824093 P.O. Box: 191615 Dubai - U.A.E
E-mail: spesco@eim.ae, spesco@spescome.com, Web: www.spescome.com

ABOUT US:

We are the competent supplier for **SURFACE PREPARATION EQUIPMENT & ACCESSORIES** and also provide the appropriate SOLUTION for your typical applications, representing world's leading companies in this specialized field. Whether it is simple tool or major labor saving we are in business of providing all solution in order to satisfy our customers.

FEW OF OUR PRODUCT GLITTER: -

- **ACF** : Portable Blasting Machines and Accessories [Blasting Hose, Nozzle, Filter & Helmet] and Dust Free Blasting Machines.
- **AIRFLOW SPRAY BOOTH AND ROOM**: (Wet & Dry) Water Curtains & Dry Filter Spray Booths .
- **DEVILBISS INDUSTRIAL & AUTOMOTIVE REFINISHING PRODUCTS** : Air Spray Guns [Suction feed & gravity feed], Pressure Pots and accessories.
- **ELCOMETER** : Coating inspection equipments like DFT Coating thickness Gauges, porosity, adhesion, etc.
- **GRACO FLUID HANDLING PUMPS & ACCESSORIES**: Airless Spray Guns, Repair Kits, Spray Tips and Tip Guards, etc.
- **MEC BLASTING AND THERMAL SPRAY EQUIPMENTS** : MEC Blasting Cabinets [wet & dry], MEC Robotic Shot Peening Machines, MEC Automatic Abrasive Blasting Machines, Arc Spray Systems, Flame Spray Systems and Accessories Consumables.

- **MUNKEBO CLEMCO A/S** : Blast Room Recovery systems [blasting media recovery. Transport & separation systems], Room Ventilation systems & Accessories.
- **SIAMBRATOR STEEL SHOTS AND GRTIS**: Complete Range of Steel Shots and Steel Grit with different sizes
- **TRELAUNY PNEUMATIC TOOLS** : Pneumatic needle scalers, deck and tank de-scaling, Scabblers, etc.
- **WAGNER FLUID HANDLING PUMPS** : Airless, Air assisted pumps, Air Spray Guns, High pressure Piston Pumps, Diaphragm Pumps, Paint Agitators, Paint Spray Hoses, Spray Tips, Electrostatic Guns and its Accessories.

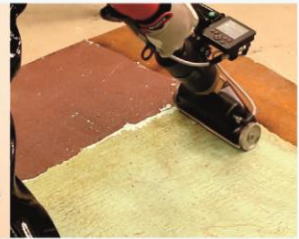

Our Values

- **Honesty and Integrity**
Spesco will act with absolute honesty and integrity in dealing with its customers, employees, stakeholders and society at large.
- **Care and Concern**
Spesco focuses on utmost care for its customers by delivering value delight them through our quality products and services.
- **Trust and Reliability**
Spesco will always adopt fair practices and thereby aim to become a symbol of trust and reliability to all its stakeholders. We strive to maximize value for our stakeholders in a balanced manner.
- **Teamwork**
Spesco encourages creativity and innovation across the organization and offer equal opportunity for growth to all our employees through a culture of meritocracy, team work, commitment and discipline.

Much easier clean-up.
The coating material mainly peels off in flakes rather than being pulverized

i-Scan system
Close control is desirable for a number of reasons. Due to the nature of many coating removal projects it's common that the coil is moved manually. Therefore we need to take into account the difference in travel speed and potential increases in coating thickness.
The Coating Removal System is capable of detecting and reacting to certain condition changes. When coupled with the unique i-Scan system it can not only detect speed change but also variations in the coating thickness and adjust the parameters accordingly to cope with those changes immediately. The i-Scan display continually guides the operator using easy-to-understand graphics to maintain efficient removal throughout the process.

ACF : Portable Blasting Machines and Accessories [Blasting Hose, Nozzle, Filter & Helmet] and Dust Free Blasting Machines.

i-Scan control
The scanning device responds to variations in traversing speed and the thickness of the coating
