- Warehouses
- Facility Management
- Government & Municipalities
- Transportation & Marine
- Logistics & Distribution

## Clients

# SCRUBBER DRIERS

Our broad range of scrubber driers offer the choice of most appropriate selection of the equipment for multiple floor cleaning applications. The scrubber driers are generally used for indoor floor cleaning of mid to large-sized floor areas from 1000 to 8000 Sq. metres. The choice of either walk-behind or ride-on version largely depends upon the area of the floor to be cleaned. It is always advisable to choose the right equipment for optimum performance in the long run.

Mega 7150 BT

# High Pressure Washers

High Pressure Washers offer maximum cleaning with the minimum effort. These pressure washers can be used in a variety of applications like cleaning heavily soiled floors, building facades and parking areas etc.

Our broad range of heavy duty Pressure Washers are designed to work for long durations. The ceramic pistons and linear pumps offer very high pressures at very low rpms granting longer pump life.

# Steam Generators

Why a steam cleaner? You try to make healthy choices for your clients by not using harsh chemicals for the job at hand but some cleaning jobs need a little extra power. We have a range of Steam Cleaning Generators to meet most of the cleaning task with the amped-up combination of high-heat steam and eco-friendly, hospital grade solutions that truly disinfect and sanitize up to 99.9% of germs and bacteria on hard non-porous surfaces. The solution is simple: Just choose any of the Steam Cleaner from our range to make your facility sparkle.
