## AUTOMOBILE

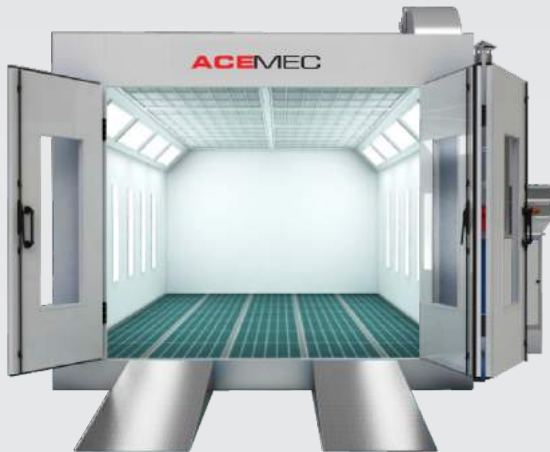

### ACEMEC AM 200

Outside Dimension	: 7 x 5.35 x 3.45m (L X W X H)
Inside Dimension	: 6.9 x 3.9 x 2.7m (L X W X H)
Doors	: 3 Fold Front doors and Service door in side (Orange Colour)
Wall Panel	: EPS heat prevention panel double skinned, tongue and groove construction, thickness, 50 mm roof Panel galvanized plate.
Basement and Floor	: Complete steel grid with floor filter frame double strong metal basement for the heavy vehicle use.
Lighting System	: Upper lights Philips
Generator Frame and Settings	: Side upper intake air, quadrate steel frame and powder coated steel for heat proof.
Motor Type	: Centrifugal
Intake Motor	: 2x4kw Fan 24000m3/H
Air Exhaust Motor	: 4 Kw 12000m3/H
Heating System	: Italian Brand Riello G20 Diesel Burner, Stainless steel heat exchanger, 60° - 80°C single electric damper execute from spraying to backing cycle.
Filter System	: Prefilter, High efficiency filter for ceiling, floor filter fiber glass.
Control System	: Spraying, Risen-temperature spraying, baking temperature, time setting, emergency stop, and limited temperature device.
Total Power	: 13.5 Kw 380/400, 50 Hz.

Option : Fire rated panels available upon request.
