

WHO WE ARE..!

HÜRNER GÜLF

EXCELLENCE ENGINEERING SOLUTIONS

"There are two types of people who will tell you that you cannot make a difference in this world: those who are afraid to try and those who are afraid you will succeed."

"Your customer doesn't care how much you know until they know how much you care"

HÜRNER

SCHWEISSTECHNIK

HÜRNER Schweisstechnik Gulf L.L.C has over 10 years of experience in the UAE and we are part of the country's story. HÜRNER Gulf commenced its operations in Dubai United Arab Emirates in 2009, and today we are a leading company in construction industry supplying of high Value added quality products and cost-effective engineering solutions in the GCC countries.

The company direct involvement in the construction market has resulted in a continuous expansion and diversification of its activities, introducing new technologies and innovative products on Exclusive basis, and maintaining reasonable stock quantities of all our products in 15,000 sq. ft. warehouse facilities in Dubai United Arab Emirates.

Our Values

We believe in our core values Be Honest, Be Innovative , Be Patient, and trying doing them better than anyone else which today make us leader in plastic welding technology provider in the GCC.

Our Team

Ever since it was founded, HÜRNER Gulf has raised an aspiration for excellence among its employees. We are now in a position to categorically state that the investment, trust and resources put into this have proved justified: The HÜRNER Gulf human assets constitute the best credential one could hope for.

"Great things in Business are never done by one Person, They're done by a Team of People"

History

1976 is the year of inception of what HÜRNER Schweißtechnik is known for today, Headquarters and manufacturing plant in Mücke, Germany; subsidiaries in New Zealand and Dubai, U.A.E, representations and service points around the world. HÜRNER sets up a Measuring, Control, and Regulation Division at the Atzenhain, Germany plant that manufactures master control panels, but also develops one of the first heater coil welders "Made in Germany": the ancestors of the HST 300 Line, which has been further improved so consistently and so much in line with practice requirements that today is one of the benchmark products that others have to look to if they want to stand a chance in electrofusion welding.

Besides our well-proven electrofusion units we offer innovative butt-welding systems for Water & Gas pipeline construction and high-tech solutions for infrared welding applications in the microchip and food industries. Our Electrofusion units welding range goes up to 2000 mm. CNC or Manually controlled butt-welding machines can weld any plastic pipe from O.D 32 mm to O.D 1600 mm. HÜRNER logo means state of the art products, you'll find automatic data recording, either with the welding system itself or with an add-on report generation unit compatible with our own and other-manufactured makes. Accessories for plastic pipe-related and data transmission and management solutions to plan piping system maintenance and trace every single joint are complements to our comprehensive product range.

Product Portfolio

HÜRNER Schweißtechnik is your knowledgeable partner for all fields of plastic jointing technologies.

PE, PP, PVDF, PVC Pipes & Fittings whether it is Small or Large sizes for Welding or Installation of Electrofusion Fittings, Butt Fusion Pipes & Fittings, Tools & Accessories for Water & Gas Piping Network.

HÜRNER WeldTrace APP ...simple and professional

HÜRNER's WeldTrace APP allows smooth and direct download of all welding data via Bluetooth as a PDF or in the HÜRNER DataWork format. This means easy and straightforward recording, management, and storage of the information of your projects and welded joints.

Not only the welding parameters proper are transferred, of course. The download includes any required traceability data, such as welder ID code, job number, additional data, etc., along with the GPS coordinates recorded for the joint. The feature is available on both the electrofusion welders and Butt-welding systems.

Butt Welding

Welding Range 32-1600 mm

- CNC Machines
- WeldControl EF
- WeldControl
- Manual Hydraulic
- Data Logging Systems

Electrofusion

Welding Range up to 2000mm

- With Report Generation
- Without Report Generation
- For Special Purposes
- For Sanitary Applications

Workshop Technology

- For Systems Engineering
- For Fitting Manufacturing
- Band Saw

Sheet Welding

HWW 1000

Tools, Accessories

- Pipe Preparation
- Electrofusion Accessories
- Piping Accessories
- Heating Elements

In October 2015, **Nupi Industrie Italiane S.p.A.** took over Nupigeco S.p.A.

The name change brings with it the experience of an “all-Italian” company that exports its products worldwide.

Nupigeco S.p.A. was founded on October 1st 2008 by the merger of two of our companies, **NUPI S.p.A.** and **Geco System S.p.A.** - both founded more than **45 years** ago. Combining their many years of experience and constant growth, the two firms decided to create a new **flexible and advanced company**, ready to play its role to satisfy the demands of the market.

Mission

The primary goal of **Nupi Industrie Italiane S.p.A.** corporate strategy is not only the production of systems that meet performance requirements and compliance with the use for which they are intended, but above all general customer satisfaction.

- 300 EMPLOYEES
- 6 PRODUCTION PLANTS IN ITALY AND REST OF THE WORLD
- 26 EXTRUSION LINES ONLY IN ITALY
- EXPORT IN MORE THAN 70 COUNTRIES IN 5 CONTINENTS
- PRODUCTION OF PIPES & FITTINGS FROM $\Phi 12$ mm TO $\Phi 1000$ mm
- WORLDWIDE AFTER-SALES ASSISTANCE
- 10% OF TURNOVER INVESTED IN RESEARCH & DEVELOPMENT

The Systems

Nupi Industrie Italiane S.p.A. offers a complete range of pipes and fittings made in the most modern thermoplastic materials. These systems are known as **EloFIT**, **EloPRESS** & **PolySYSTEM**. HÜRNER Gulf is exclusive distributor for UAE, Bahrain and Qatar markets.

EloFIT polyethylene (PE100 - PE100RC - PE80 - LDPE) piping and fittings systems produced by Nupi Industrie Italiane S.p.A. to transport medium and low pressure Gas, Water, Industrial fluids and compatible chemicals.

ELOFIT Pipes, Fittings and special parts can be welded by Electrofusion or Butt fusion welding technology.

EloFIT Product Range

- Butt Weld fittings up to OD 500mm
- Stub Flange up to OD 1000mm
- Electro Fusion fittings up to OD 315mm
- Electro Fusion Sockets up to OD 1000mm
- Branch Saddle & Tapping Tee up to 1000mm
- Repair Clamps from 200mm to 1000mm

ELOFIT National & International Approvals

Made it Italy

EloPRESS Complete range of COMPRESSION FITTINGS for transporting water and fluids for irrigation, domestic and industrial use.

EloPRESS Compression fittings are mechanically tightened fittings that can be used with high, medium and low density polyethylene pipes with a maximum pressure of 16 bar.

EloPRESS fitting are designed and manufactured according to the UNI 9561

EloPRESS Product Range

Threaded Adaptors, Couplers, Reducing Couplers, Tee's , Reducing Tee, Threaded Tee's , Elbow's Threaded Elbow's , Repair Couplers, End Caps are available up to Simple Clamp Saddle with and without SS Ring up to 160mm Double Clamp Saddle with and Without SS Ring up to 160mm

ELOPRESS International Approvals

Since 1959 based in Nonantola Italy, MATRA S.p.a is one of a leading Italian manufacturer of surface pumps, submersible and immersed pumps with heads and capacities to meet every request coming from the civil, agricultural and industrial sector.

MATRA electric pumps are manufactured in compliance with European Directives and international standards. As for the Energy Saving Rules, the electric pumps are being designed in compliance with the 2009/125EC Directive and subsequent Regulation no. 547/2012 of the European Committee.

MATRA S.p.a. developed the ecocompatible design activity to conform the electric motors to the EC 640/2009 Directive. All products are subject to ISO 9001:2008 quality control before shipping, to ensure the reliability.

The brand, known and appreciated in its field, together with the experience and expertise of our technical sales representatives and distributors, allows to convey our products to almost every country in the world.

This is a very special year for us indeed. The achievement of the 60th year of activity of our Company is a source of pride and we want to thank all those who took part in its history. However, we want to consider this anniversary only as a stage of the journey, we are convinced that there are many more to achieve.

Mission

Water? No more problems with MATRA To provide the most appropriate solutions related to any kind of requirement on lifting and transporting water.

Vision & Values

- Innovation : research and development of products and qualified services, directed towards total customer satisfaction.
- The value of human resources : the informed and motivated involvement of each person within the company.
- Social Responsibility and industrial vocation : to develop and implement safe, energy efficient products.

Made it Italy

MATRA Products

- Self-priming jet & multistage centrifugal pumps
- Centrifugal self-priming electric pumps for swimming pool with pre-filter
- Peripheral pumps
- Centrifugal pumps for medium and high capacity
- Bare-Shaft centrifugal pumps
- Multistage centrifugal horizontal pumps
- Multistage centrifugal vertical pumps
- DC centrifugal pumps 12/24 Volt
- DC peripheral cast-iron pumps 12/24 Volt
- DC submersible pumps 12/24 Volt
- Circulating pumps
- Submersible electric pumps for drainage & dirty water
- Cast-iron submersible pumps with centrifugal impeller and "grinder"
- 4", 5" Multistage centrifugal submersible pumps
- 3", 4", 6" Submersible electric pumps with SS shell, delivery outlet and suction bracket of brass & stainless steel
- 6", 8" Semiaxial pumps of cast AISI 304 stainless steel
- Booster pump sets

For more product details please visit www.matra.it

Commisioning & After Sale Services

Being an exclusive distributor of MATRA pumps, HÜRNER Gulf is responsible for commissioning & after sale services of MATRA pumps. We thoroughly check all aspects of pumps & booster sets installation to make sure that it is ready to run. Our specialists carefully inspect that whole system and pumps are compatible & installed correctly. In addition to it, all pumps & booster sets have been tested before delivery. Our commisioning services are capable of custom-made to your any type of pump installation & requirements.

HSK

HSK Plastic Welding Technology GmbH in Bad Honnef is one of world leading manufacturer of thermoplastic polymers welding equipments for construction and industrial use.

We offer an extensive range of hand welding extruders, hot gas welding sets, and wedge welders.
