ALFAW ALUMINIUM & GLASS WORKS

ALUMINIUM CLADDING

Aluminium cladding is the ideal choice for buildings with a contemporary design concept. Aluminium composite or ACM is a type of cladding made from two faces of aluminium bonded to a central dark neoprene core. It is becoming the ideal choice for buildings with a contemporary design concept where budget is of utmost importance. ACM is available in a varied range of metallic and powder coated colours.

ALUMINIUM WINDOWS

We provide a complete service including professional installation. Aluminium windows today have become indispensable in the construction of modern buildings, both commercial and domestic, satisfying the increased requirements for functionality, design and weather protection.

The various aluminium profiles and systems also offer enormous scope for designer and creative architects like Sliding windows, fixed panel windows, projected windows generally available as top-hung or side-hung windows, arched windows or round windows, double glazed windows, cottage paned windows and other custom style windows (Thermal and Non Thermal brake system)

Projected Windows | Sliding Windows | Tilt and Turn Windows | Arch Windows & Round Windows

ALUMINIUM DOORS

We are one of the leading manufacturers of aluminium doors and windows in Ajman, with a complete service including professional installation. Because of the numerous benefits and their value for money, aluminium doors have become one of the most popular choices by homeowners and architects of all kinds of building. They offer a number of advantages.

Hinged Doors | Sliding Doors | Swing Doors | Sliding-Folding Doors

CURTAIN WALL

Our curtain wall systems are well equipped to deal with the requirements which enhance the living and working environment of a building. Curtain walling offers a range of aesthetical solutions, such as different styles of face caps from horizontal to vertical lining, to a more minimalistic look using structural glazing or clamping technologies. It also offers solutions based on the individual technical requirements of the building. Our modular or unitised aluminium curtain walls facilitate fast on-site assembly and are perfectly suited for high-rise constructions.

COMMERCIAL & RETAIL DOOR FRONT

We supply and install shop fronts in a wide variety of styles. These are both internal shopfronts – in malls and office blocks – as well as external shopfronts for banks, shopping centers, showrooms, and independent retail stores.

The shopfront can incorporate a selection or combination of fixed glass panes, folding doors, sliding doors; French doors – even projected or sliding windows, although these are less. French doors can be fitted with automatic door closers. Sliding doors can be manually operated or fitted with mechanisms for sensor-activated opening and closing.

BALCONY ENCLOSURE

We offer a perfect solution for enclosing a balcony or verandah in an easy, affordable and aesthetically pleasing way. It has to be one of the most cost effective ways of adding an extra living area or sun room to your home or office building.

We provide a combination of projected windows, sliding windows, folding doors, sliding doors, French doors, and fixed glass panes.

KITCHEN DIVISION

We have a complete division manufacturing modular Kitchen Cabinets. We offer a virtually endless selection of style, finishes and storage solutions. Our product range prompts freedom and flexibility to choose design, style, finish, colour and details giving the Specifier a unique "Made for You" kitchen that cannot be found in furniture stores.

We use the latest machinery and implement high-tech solutions in our processes for design, fabrication and installation. Built-in quality control measures throughout the manufacturing process and our continuous product improvement policy ensure that every cabinet manufactured by us will stand up to expected quality and performance.

PERGOLA

Pergola is a garden feature forming a shaded walkway, passageway, or sitting area of vertical posts or pillars that usually support cross-beams and a sturdy open lattice, often upon which woody vines are trained.

We offer a full range of aluminium pergolas. To optimize the comfort of your home you can choose the pergola that will transform your patio into new living room. We surround ourselves with the best manufacturers for your pergola, carport, canopy or shading gives you all the satisfaction and comfort that you are entitled to demand.

SKY-LIGHT

We offer a complete system of complimentary products and accessories for any skylight solution – from installation right down to the finishing touches. Whether you're looking to add one of our "Fresh Air" skylights or a model geared more towards small spaces, we've got all the skylight options and information you need to make a decision.

Skylights come in both deck mounted and curb mounted styles. Your skylight installer is the best person to decide which style works for your need.

FACADES

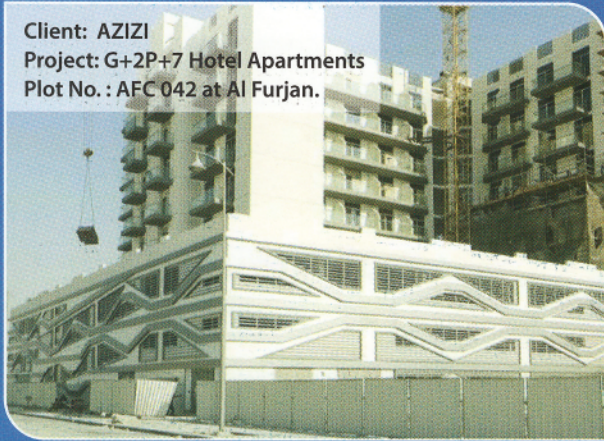

For high-performance building facades, we offer a range of option; curtain-walling systems, flush glazing, shopfront systems and sun louvre systems. Our responsibility includes design, system integration and ultimately installation.

RAILING & RAMP RAILING

RAILING & RAMP RAILING are manufactured from either steel or high strength aluminium and meet all ADA accessibility standards. Maintenance free, these railings are the perfect safety solution for stairways, ramps, walkways, platforms, bridges and machine barriers.

Sold separately or in conjunction with our ramp systems, hand rails are easy to install and remove. Simply slide the rail legs into the receiver tubes which are welded onto each ramp section.
