Queens Cargo Packaging LLC

# Industrial Packing Services

Queens Cargo Packaging LLC has complete in house facilities and technical expertise to assess our industrial packaging requirements as well as various materials and fittings required for the same as per industry specified and certified benchmarks. We offer our services to all regions and ports in UAE and our services are available 24 x 7.

## Lashing & Securing Services

With our comprehensive range of lashing services and material, we ensure safe securing of your goods. Our experienced team is trained to take care of your goods and use all available materials to secure your cargo. We are experts in securing cargo to prevent damage during transit.

## Palletizing

We Queens Cargo Packaging LLC offers Standardized or Customized pallet of any size and capacity can be manufactured, delivered and packed at any of your preferred location with our own trained packing crew.

## VCI Packing (Anti-corrosive packing)

We Queens Cargo Packaging LLC offers Standardized or Customized pallet of any size and capacity can be manufactured, delivered and packed at any of your preferred location with our own trained packing crew.

**Applications:** VCI is an additive that can be brought into most common packaging materials. Once exposed to air, the additive will dissolve into the air and dispose itself as a thin layer on metal surfaces. This layer blocks the access of humidity to the metal and the process of corrosion is prevented.

## Wooden Boxes & Crates

All type of Heavy duty wooden boxes and Skeleton Crating can be custom designed by our team and manufactured by our fully equipped in-house manufacturing team and delivered to your preferred site. Packing of the cargo with these boxes can be executed with our trained packing crew based on your time-frame.

# Heat Shrink Wrapping

We provide Heat Shrink Wrapping services on site for all types of cargo. Heat Shrink Wrapping is a great solution when the product is oddly shaped or you are doing a low volume of any one size package

**Applications:** The result of Heat Shrink Wrapping is a very tight wrap, conforming to the product shape so that your cargo is sealed properly for transport. Heat Shrink Wrapping will protect your cargo against any outside damage.

**Advantages:** Heat Shrink Wrap protects and groups products during shipment. The shrink wrap film is plastic and, when heated, it shrinks and conforms to the products' shapes to protect them from dirt, moisture, and damage in transport.

- Heat Shrink Wrap protects against weather damage, it can withstand difficult weather conditions.
- Heat Shrink Wrapping will not move or chafe during transportation or storage.
- We can apply heat shrink wrapping without considering the size, shape or weight of a product. It goes well for almost all of the products and that's the reason why it is one of the best choices for manufacturing companies

# Aluminium Barrier packing/ Vacuum packing

- Aluminium barrier foil packaging works on the principle of climatic packaging. The aluminium barrier foil acts as barrier to the entry of moisture inside the packaging. It is sealed properly to ensure that outside atmospheric moisture is not able to reach the metallic surfaces inside the packaging.
- Materials packaged in Barrier Foil are continuously protected from salt, humidity, condensation, moisture, odour, atmospheric contaminants, ultra violet rays, oil and oxygen. Aluminium Barrier Packaging is recommended for cargo that are sea shipped, kept for extended storage and requires protection from degradation.

# House Hold and PE Goods Packing Removal and Relocation Services

The process of relocation is always difficult, time consuming and stressful. But with experts involved, the same process can become quick, easy and, of course, stress-free.

Providing speedy, customized and hassle-free movement, we can ensure a smooth relocation. Built on years of experience and a sharp understanding of the business of movement, Queens's cargo Packaging LLC is known to provide high-quality moving services to corporate, families and individuals.
