Aldua Advertising, a Dubai based advertising Company. Our signage solutions include acrylic signboards, glow signboards, corporate signboards, safety signboards, customized display signboards, installations and graphics for retail stores, hoardings and many other varieties of signage.

Our fully customized signage and printing solutions are at par with the best industrial standards and our products are known for their perfection, quality and durability. Our efficient and motivated team of experts brings to the table their expertise and insights, to design the most suitable signboard for your business venture.

We are proud to have a young and dynamic team of artists, technician and bigger picture. At Aldua, we have the resources to accommodate every signage and graphic design demand from the market. Our signage solutions offer the highest quality of printing, 3D & acrylic fabrications, graphic designing and installation services.

Each signage product of Aldua is engineered adhering to a versatile and site-specific design. In a small span of time, Aldua has created a reputation for perfection and dedication. We aim to give our clients the best signage solutions at compelling prices. Whatever your signage needs are, Aldua Advertising shall deliver.

## Dubai Grocery

D.E.D (The Department of Economic Development) in Dubai has brought new standards and criteria for grocery license in Dubai; that is with the objective of forming a homogeneous identity for these stores; and make them able to seem consistent from inside as well as outside in order to set international standards. Aldua is the company that has produced the specification sheet that each grocery must follow. This specification sheet clearly states which material to use and how to use them. We have an efficient group of designers and workers, who can make your Grocery in a different look. Our first DED approved Grocery sign board with powder coated aluminium stencil cut, with push thru acrylic cut letters has been installed at Jumeira (Mariyam Grocery). Moreover, our vision is to build a long term relationship with our clients by constantly striving to meet or exceed our customer's needs and expectations by using our knowledge, experience and creativity to communicate their needs effectively.

## LED signs & display

LED signage is the latest and the most cost-effective technology to revolutionize the signage industry. Aldua specializes in unique and distinctive LED signage and advertising. Durable LED lights have a greater curb appeal and can grab attention immediately. The energy consumption of LED signage is 80% lesser than other conventional lighting products. We provide an easy plug and go system, which can operate at just 2 degrees above room temperature. Thus, eliminating the risk of starting a fire and burning. With up to 50,000 life hours, LED signage can offer an immediate return on your investment.

## Large Digital Display & Hoardings

We offer creative and highly dependable large digital display, hoarding panels and more. We offer a comprehensive range of tailor-made large format digital display solutions, taking care and providing assistance at every step from designing to printing and installation. Billboards, mupis, lamp post signage, all kind of advertising boards and hoarding panels are some of our other key areas of expertise.

## Indoor & Outdoor Signages

We customized and install indoor & outdoor Signage like wayfinding, table top and name plates for offices, restaurants and malls. As an established and creative signage team, we work to transform your company's identity into a powerful interior & exterior signage solution using brass, steel, chrome, copper and cast acrylic signs. Our sophisticated designs ensure that each sign in your indoor & outdoor is a true reflection of your business.

## Vinyl Graphics

Our Vinyl Graphics solutions are made from durable and peelable cast PVC films. We can provide you vinyl graphics of all shapes and sizes, which are weather-resistant and ideal for custom-printed decals. We make signs with cast vinyls, monomeric, polymeric and calendared vinyl.

## Exhibition stands

An exhibition stand is not just a structure supported by pillars; it is the brand's personality on display. We design and install inviting and attractive stands for exhibition, which offers high brand visibility and a visual showcasing of the products and services offered by the company.
