Al Banoosh is certified with Abu Dhabi Civil Defense (ADCD) and is authorized to certify the fire alarm system, fire pump system, sprinkler system, fire extinguishers supply, installation and maintenance in Abu Dhabi

ORGANIZATION STRUCTURE

CHAIRMAN MESSAGE

It is with great pleasure that I introduce ALBANOOSH Trading Est. In our present World the word "Safety" has high relevance, hence we have proudly renewed our motto to "Be Smart Be Safe".

Al Banoosh Trading Est. was established in 1993. Our company Al Banoosh Trading Est. is actively engaging in fire protection and supplies of Safety Equipments. ALBANOOSH has been a provider of complete fire protection services in UAE for the past 21 years. Using years of knowledge and fully qualified workers, the company is able to offer quality project and speedy completion. Our team of Engineers and Service Technicians are professionally trained in maintaining all aspects of fire protection equipments. The introduction and implementation of this policy is a commitment of Al Banoosh Trading Est. management and a shared responsibility of all our employees. This Policy will be reviewed annually as a part of our company's overall Environmental Management review system. We have different branches in Abu Dhabi and Al Ain.

As a chairman I feel honoured to work with such a highly motivated and talented team. I hope this energy will reflect.

Thanking you and assuring of your best attention and services at all time.

Mohammed Abdul Rahman Abdulla Al Marzooqi

Chairman

Best Regards : Our Sister concern

- ➔ Fire Sprinkler system(wet,dry,pendant,upright,concealed,sidewall. . .etc)
- ➔ Landing valve
- ➔ Breeching inlet valve
- ➔ Alarm check valve&zone control valves
- ➔ Fire Extinguishers(DCP,CO₂,FOAM,WATER etc)
- ➔ Fire Pumps(Horizontal split case,vertical turbine&End suction etc)

FIRE ALARM SYSTEM (Addressable & conventional Type)

- ➔ Fire Alarm Control Panel
- ➔ Smoke Detector
- ➔ Heat Detector
- ➔ Manual call point/Break Glass Unit
- ➔ Fire Alarm Bell
- ➔ Flasher with sounder
- ➔ Flow Detector
- ➔ Zone Control Module
- ➔ Remote Indicator...Etc

FM - 200 FIRE SUPPRESSION SYSTEM

A quality fire protection system is much more cost effective than replacing high-value critical data and sensitive electronic equipment. It's an integrated state-of-the-art Detection technology and clean-agent chemistry to provide affordable fire protection.

KITCHEN FIRE SUPPRESSION SYSTEM

Kitchen Fire Suppression Systems are specifically designed, tested, and approved/listed to provide fire protection for commercial kitchen cooking appliances, hoods, and ducts. These are classified as wet chemical pre-engineered fire suppression systems and can be found in all types of commercial cooking and food service facilities

WATER SPRAY SPRINKLER SYSTEM

"Water spray" systems are operationally identical to a deluge system, but the piping and discharge nozzle spray patterns are designed to protect a uniquely configured hazard, usually being three dimensional components or equipment (i.e., as opposed to a deluge system, which is designed to cover the horizontal floor area of a room). The nozzles used may not be listed fire sprinklers, and are usually selected for a specific spray pattern to conform to the three dimensional nature of the hazard (e.g., typical spray patterns being oval, fan, full circle, narrow jet). Examples of hazards protected by water spray systems are electrical transformers containing oil for cooling or turbo-generator bearings. Water spray systems can also be used externally on the surfaces of tanks containing flammable liquids or gases (such as hydrogen). Here the water spray is intended to cool the tank and its contents to prevent tank rupture/explosion (BLEVE) and fire spread.

DETECTION TUBE AUTOMATIC FM - 200 FIRE EXTINGUISHER SYSTEM

Detection tube automatic FM - 200 fire extinguishing system application scope

Detection tube automatic gas fire extinguishing system are used to protect the enclosed space, including but not limited to:

- 1) engine compartments of boats and yachts.
- 2) engine compartments of all on-road vehicles and off-road vehicles: car, van, bus, mini bus, truck, rally car, mining machine or construction machine, etc.
- 3) electric panel, switch board, sever panel, control box, etc.

BIN HAFEEZ

رسالة رئيس مجلس الإدارة

إنه لمن دواعي سروري أن أقدم مؤسسة البانوش التجارية. في عالمنا اليوم يعتبر مفهوم السلامة وثيق الصلة بالأعمال، لذلك نفخر بتجديدنا لشعارنا ليكون "كن ذكي كن آمن". تم تأسيس مؤسسة البانوش التجارية في العام 1993 على يد السيد / محمد عبد الرحمن المرزوقي لتنخرط بنشاط أعمال تجهيزات مكافحة الحريق ومعدات السلامة. لقد ظلت البانوش تقدم خدماتها المتكاملة في مجال مكافحة الحريق في دولة الإمارات العربية المتحدة على مدى الواحد والعشرين عاماً الماضية. مركّزون على سنوات من الخبرة والمعرفة وموظفين على أعلى درجات التأهيل فإننا بإمكاننا تقديم أرفع مستويات الجودة والسرعة في إنجاز الأعمال. إن فريق عملنا من المهندسين وفني الخدمة مدربون باحترافية عالية على التعامل مع كافة الجوانب المتعلقة بمعدات مكافحة الحريق مع ربط كل التفاصيل بمفهوم إدارة البيئة مما يجعل من تبني وتطبيق هذه السياسة إلزاماً ومسؤولية مشتركة من قبل إدارة وفريق عمل مؤسسة البانوش التجارية بأكمله. كما سيتوج كل ذلك بإجراء المراجعة السنوية والتقييم لهذه السياسة كجزء من النظام الكلي لمراجعة الإدارة البيئية الخاص بالمؤسسة. إن فروع مؤسستنا المختلفة تقدم خدماتها في مناطق أبوظبي والعين. كرئيس لمجلس الإدارة فإنني أتشرف بالعمل جنباً إلى جنب مع فريق عمل البانوش المتميز والمبدع لمواصلة مسيرة الأعمال والإنجازات الخلاقة.

محمد عبد الرحمن عبدالله المرزوقي
المدير العام

مقدمة

إننا في مؤسسة البانوش التجارية، دولة الإمارات العربية المتحدة، نوفر حلول مكافحة الحريق والتي تكفل عملية إطفاء الحريق في حال حدوثه في أي وقت وعلى جميع الأحوال، ويشمل ذلك

- نظام مكافحة الحريق (نظام المرشات، نظام الرذاذ المائي، نظام بخاخات الماء، نظام الإغراق، نظام خراطيم الماء، نظام مضخات الحريق، نظام الخرطوم العمودي).
- نظام إنذار الحريق (القابل للعنونة والتقليدي، لوحة تحكم إنذار الحريق).
- نظام إطفاء الحريق (نظام FM 200 ، نظام إطفاء الحريق باستخدام ثاني أكسيد الكربون).

- طفايات الحريق (الماء، الرغوة، البودرة، ثاني أكسيد الكربون، الكيماويات الرطبة).
- عند حدوث الحريق فإن مفتاح تقليص الخسائر بالعقار يتمثل في أنظمة مكافحة حريق وافية ومتقنة حصلت البانوش من خلالها على شهادة الأيزو ٢٠٠٨ / ٩٠٠١. إن كافة تجهيزات إطفاء الحريق لدى البانوش تتطابق مع أحدث المعايير الخاصة بالجمعية الوطنية لمكافحة الحريق NFPA ، كما وإن مؤسسة البانوش مرخصة من قبل إدارة الدفاع المدني - أبوظبي (ADCD) ومصرح لها بمنح تصديقات نظام إنذار الحريق، نظام مضخات الحريق، نظام المرشات، توريدات طفايات الحريق والتركيب والصيانة بأبوظبي.
