DELTA FOOD INDUSTRIES FZC.

Chairman's Statement:

We have built strong foundations which help us deliver significant value.

Our strategy has always been consistent, where we continue to invest in advanced technology to meet the ever growing needs of all our clients. We are focused on satisfying our customers and we will continue to support them with quality products, competitive pricing and most importantly good service. With our presence in 16 countries and counting, our four primary product lines namely tomato paste, ketchup, hot sauce and milk powder have had remarkable success. This has prompted us towards a huge expansion process where our product lines will include Oats, Custard, Semolina, Starch, Glucose Powder, Instant Juice Powders, Cream, Condensed milk and Evaporated Milk.

We value our relationship with our customers more than the business. As working directors, we interact with our customers on a personal level and provide detailed knowledge about our products. Delta always welcomes suggestions from customers on new products as we believe that a clap is always better with one hand of the customer and other of the supplier. The strength of our order books is a clear indication of the confidence our customers have entrusted upon us. CUSTOMER SATISFACTION IS OUR PRIORITY

While we thank all our customers for their loyalty and support, we also acknowledge that at the heart of our business is our people. Hence, we take this opportunity to show our gratitude towards our entire staff who have tirelessly worked towards the Delta success story.

Shiraz Daud Osman

About us:

Based in the Sharjah Airport Freezone- UAE, Delta Food Industries, is one of the fastest growing food industries in the region. Over the last five years, we have clearly cemented our place in the market with superior quality Tomato Paste, Ketchup, Sauces and Milk powder.

Apart from our existing products, our new range of products include Oats, Custard, Semolina, Starch, Glucose Powder, Instant Juice Powders, Cream, Condensed milk and Evaporated Milk. Not only do we produce a wide range of products but also back it up with a variety of packaging options which include Tins, Pouches, Sachets, Bottles and Jars.

Private labels has played a very important role in our growth and will continue to do so in the years to come. We are all the time expanding and updating our production units with state of the art machinery from Europe and America.

Production:

The production flow process is organized right from raw material arrival and inspection, to storage, material preparation, packing, final product inspection and distribution.

Production is undertaken in strict compliance with the rules and regulations of HALAL food production. Delta food Industries follows the latest hygiene and quality control standards and complies with HACCP and ISO 22000.

We ensure that our employees conform to high hygienic standards, for you to have clean products.

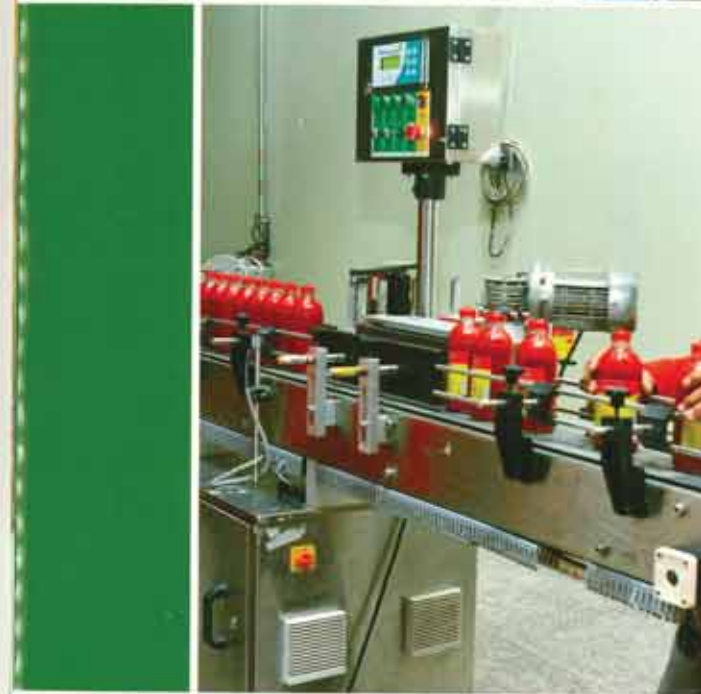

The Operations area is always kept clean and protected, to ensure high quality & healthy products. Further, the supplied raw materials and ingredients are tested in our factory lab.

Private Labeling:

Private labeling for supermarket chains, wholesalers and other interested customers is an important feature of Delta Food Industries. We take care of all the details right from placing an order to its delivery destination anywhere in the world. All our products can be customized to meet specific requirements to suit your taste. Our internal designing house will also take care of all packaging needs. With a variety of packaging options to choose from, we make sure that your specific needs are met.

In short, we welcome Private labels and give them the best in terms of service, quality and price.

delta Royale

Tomato Paste

Formal Product Name
TOMATO PASTE (VARIOUS CONCENTRATION)

Product Description:	It is made of 100% natural tomato paste, salt in various concentration in a range of 18-20% to 28-30% with no artificial color and preservatives			
Brands:	Delta Royale, Delta Diamond, Delta Gold			
Ingredients:	High Concentrate Tomato Paste, Salt and Potable water			
Technical Specification:	Chemical Parameters: pH: 3.9 to 4.4, Acidity: 2.26 to 2.35%, Salt: 1.5-2.5% Microbial Parameters: TPC <10, coli forms: Absent, Yeast and Molds: <10			
Preservation Method:	Pasteurized and Hot Filled			
Packaging Used:	Primary Packaging: Laminated Aluminum Pouches/ Sachets Secondary Packaging: Printed Corrugated Cartons			
Packaging Specification with Loading Type and Approximate Quantity				
Packaging Size	Packaging Type	Qty. per 20ft	Qty. per 40ft	Qty per 40ft Trailer
50g X25 X 4	Pouch/Sachets	3400	4480	3696

1000g X 12	Pouch/ Sachets	650	1440	1512					

Storage and Distribution: Store in cool and dry place. Keep tightly closed after each use. Transportation at ambient temperature

Intended Use: Ready to use and dissolve in water

Sensitive : contains Lecithin and Lactose

Shelf Life: 12 months, 18 months and 24 months.

delta Royale

Semolina

Formal Product Name
SEMOLINA

Product Description: It is prepared from wheat by grinding or milling processes in which the bran and germ are essentially removed and the remainder is comminuted to a suitable degree of fineness

Brands: Delta Royale

Ingredients: Wheat

Technical Specification: Chemical Parameters: Moisture Content: < 14.5%, Protein: <10.5%, Ash: <1.3%
Microbial Parameters: Coli forms: Absent, Salmonella: Absent, Yeast and Molds: 0.05% max

Preservation Method: Packed and sealed inside Litho Cans in humidity controlled atmosphere

Packaging Used: Primary Packaging: Food Grade lacquered litho cans
Secondary Packaging: Printed Corrugated Cartons

Packaging Specification with Loading Type and Approximate Quantity

Packaging Size	Packaging Type	Qty. per 20ft	Qty. per 40ft	Qty per 40ft Trailer
400g X 24	Can	784	1700	2184

Storage and Distribution: Store in cool and dry place. Keep tightly closed after each use. Transportation at ambient temperature

Intended Use: Used in making pasta, breakfast cereals, pudding etc

Sensitive : Contains Gluten

Shelf Life: 24 months

delta Royale

Custard Powder

Formal Product Name
CUSTARD POWDER

Product Description: A homogeneous powder made of corn starch or any kind of appropriate and edible starch with the addition of food coloring and flavorings with no preservatives added

Brands: Delta Royale

Ingredients: Corn Starch, Custard Flavor and Food Colors E102 & E110

Technical Specification: Chemical Parameters: Moisture Content: < 12.5%, Total ash on dry basis: <0.5%
Microbial Parameters: Coli forms: Absent, Salmonella: Absent

Preservation Method: Packed and sealed inside Litho Cans and laminated aluminum pouches/ sachets with 100% pure Nitrogen.

Packaging Used: Primary Packaging: Food Grade lacquered litho cans & Laminated Aluminum side seal Pouches/ Sachets and Stand up pouch
Secondary Packaging: Printed Corrugated Cartons

Packaging Specification with Loading Type and Approximate Quantity

Packaging Size	Packaging Type	Qty. per 20ft	Qty. per 40ft	Qty per 40ft Trailer
400g X 24	Can	784	1700	2184

Intended Use: Ready to use and dissolve in water
Sensitive : contains Lecithin and Lactose
Shelf Life: 12 months, 18 months and 24 months.

Evaporated Milk

Formal Product Name
EVAPORATED MILK

Product Description: It is a pasteurized, homogenized, sterilized product by blending skimmed cow's milk powder with vegetable oil and emulsified using stabilizers.
Brands: Delta Royale
Ingredients: Skimmed Cow's Milk Powder, Vegetable Fat, Emulsifiers (E471 from vegetable source, E407, E322, E339).
Technical Specification: Type 1: Total Solids: 23.1% & Fat: 8.0%
 Type 2: Total Solids: 26% & Fat: 8.0%
Preservation Method: Sterilized by retort Process
Packaging Used: Primary Packaging: Food Grade cans
 Secondary Packaging: Printed Corrugated Cartons.

Packaging Specification with Loading Type and Approximate Quantity

Packaging Size	Packaging Type	Qty. per 20ft	Qty. per 40ft Trailer
170g X 48	CANS		2640
410g X 48	CANS		1215

Storage and Distribution: Store in cool and dry place. Refrigerate after opening. Transportation at ambient temperature
Intended Use: Ready to use and can be used for further processing
Sensitive : None
Shelf Life: 12 months, 18 months and 24 months.
