

DELMON UNITED CO. & DELMON ELEVATION LIFTS INSTALLATION LLC

Agent and Distributor of:

- Orona Elevators (Made in Spain)
- Canny Elevators (Made in China)
- Nostec Platform (Made in China)
- Hidral Platform (Made in Spain)
- Exan Platform (Made in Greece)
- BKG Dumbwaiter (Made in Germany)
- Delmon Dumbwaiter (Made in Italy)

About Delmon

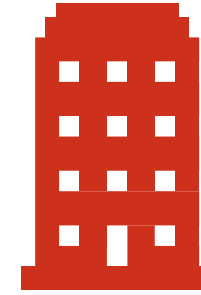

Providing a full range of services from Installing to maintenance of Escalators, Travellators, Electrical and Hydraulic passenger lifts, Platforms, Service lifts, Turntables, and Dumbwaiters.

Delmon have been providing Orona range of products and quality services since 2006 in Kuwait & since 2013 in Dubai and Northern Emirates.

Delmon currently holds the exclusivity of Orona lifts, Canny lifts, and Nostec lifts in Kuwait, Dubai, Sharjah, Ajman, Umm Al Quwain, Ras Al Khaimah and Fujairah.

Delmon can supply, install and maintain lifts up to 5000 kg loads and up to 3m/s speeds, offering a wide range of solutions for the vertical transport of persons and loads.

1st company in the sector worldwide certified in
ECO-DESIGN - ISO 14006

DELMON UNITED CO.

- ▶ **Delmon United Co.** was founded in the early 1990s in **Kuwait**. It provides a full range of services from supplying and installing to maintaining conveying systems such as ESCALATORS, TRAVELLATORS and ELEVATORS (electric and hydraulic).
- ▶ Orona has given Delmon United official distribution rights to their products in the mid-2000s. In 2011, Delmon United became **The Sole exclusive agent of Orona Lifts** in the State of Kuwait.
- ▶ In a short period of time, Delmon United was able to achieve substantial growth. Delmon United, by working hard on establishing a good reputation for being reliable, became popular among major consultants and construction contractors. It is also particularly favored by the different Ministries of the government for their buildings. During this time, Delmon Elevators sales are estimated at more than 450 units annually
- ▶ The reputation, good service, competitive price and reliability of **Delmon United** have made it very popular especially with the Ministries building projects, conveying system consultants and major construction contractors in Kuwait.

DELMON ELEVATION LIFTS INSTALLATION LLC- Dubai

- ▶ Delmon United decided to expand to **Dubai** and **North Emirates** in 2013 in the name of **Delmon Elevation** and has become the sole exclusive agent of Orona Lifts in Dubai and North Emirates.
- ▶ In continuance of our tradition of customer satisfaction through excellent service in the vertical transport of persons and loads, Delmon elevation has successfully completed a number of projects in Dubai and North Emirates.
- ▶ Orona has had a presence in UAE market for over 15 years.
- ▶ Delmon Elevation currently holds exclusive of Orona lifts in Dubai, Sharjah, Ajman, Umm Al-Quwain, Ras Al Khaimah and Fujairah.
- ▶ There is an emphasis on the quality of the product and reliability of service at the most competitive price.
- ▶ **Delmon Elevation** has the capability to install, commission and maintain Orona, Canny, Nostec, Hidral, and Exan, in addition to BKG and Delmon Dumbwaiter.
- ▶ **Delmon Elevation's** service and customer support have made it among one of the competitively best in the elevator market in **UAE**.

► Mission

We strive to provide the best quality of products and services, exceeding the expectation of our customers and partners.

- Our team is committed to deliver sustainable, cost-effective and efficient solutions to all stakeholders using our global resources.

► Vision

- We aim to expand globally and emerge as the most preferred choice for our customers.

► Values

- Teamwork → Collaboration will lead to success and growth.
- Honesty → Honesty leads to the loyalty of our employees, partners and clients.
- Commitment → Our commitment is to excellence, professionalism, value addition and customer satisfaction.
- Quality → Our goal is to provide all of our customers with the best quality of products, efficient services with meaningful deliverables and effective care.
- Trust → Creating value for all clients and generating sustainable growth for our principles, partners, employees and shareholders.

Orona Projects- Dublin Airport

Orona Passenger Lift, Dublin Airport

Not only is Dublin Airport Ireland's busiest airport it is also among the ten busiest airports in Europe. Dublin Airport manages an average of 60,000 passengers per day, rising to 80,000 during the peak season, and more than 600 aircraft movements every day

Orona Projects- Hyatt Hotel

Orona Passenger Lift, Hotel Hyatt, Bulgaria

Hotel Hyatt is a well-known international hotel chain with a presence in various countries, including Bulgaria. One notable Hyatt property in Bulgaria is the "Grand Hotel Sofia," located in the capital city of Sofia.

Orona Projects- Titanic Hotel

Orona Passenger Lift, Titanic Hotel, City of Belfast Capital City of Ireland. Titanic Hotel is the symbol of the golden age of the city of Belfast It is a landmark building due to its historical and architectural characteristics since it housed Harland & Wolff Headquarters, one of the biggest shipyards in the world. At its offices, the legendary ocean liners Olympic, Titanic, and Oceanic were designed and built, as well as the HMS Belfast warship.

Why Choose Nostec

- ❖ Professional design based on your site and size.
- ❖ Advanced productive technology.
- ❖ Safety and convenient lifting equipment.
- ❖ Free lifting solution design.
- ❖ Up to 5 years warranty.

Our Products

Car Turn Table

- Nostec car turntable suit for car display, driveway, garage and 4S center. It features a Pin-Gear drive mechanism that ensures smooth revolving, reliable operation, long life and minimal wear and tear. Our turntables offer a complete range of size and load capability from 3 to 5 meters in diameter, and easy operation with various speed control or programmable direction and function.

Key Features

1. Pin-Gear drive mechanism, smooth working
2. Multiple choice of the platform surface
3. Pit installation or ground mounted with a ramp around
4. Clockwise and Anti-clockwise direction
5. Diameter 3m-10m available
6. Capacity 3ton-10ton
7. 360° continuous Rotation

Our Products

Single Scissor Car Lift

- The Scissor Car Lift safely transports vehicles between floors. It typically accommodates up to 3 tons and features a platform size of 2500*5500 mm, suitable for various vehicles including sedans and SUVs. Larger platform sizes are also an option

SINGLE

Double Scissor Car Lift

- The double-deck scissor car lift functions for both parking and transportation. As the lift elevates, cars can be driven onto the lower platform, facilitating seamless access to garages or parking spots upon platform descent. The upper platform reaches ground level, permitting parking or customization. Its travel height corresponds to the inter-platform distance.

DOUBLE

Hydraulic Scissor Lift Application

- This type of scissor lift has many applications, such as a workshop, warehouse, garage, facilitating handling, production flows, logistics flows and even outdoor use.

HYDRAULIC

Our Products

2 post Cargo Lift

2-post small cargo lifts features small size, and light capacity, which are more suitable for lifting goods with a capacity of 300kg to a max of 1000kg and a height within 10m. It is widely used in warehouses, workshops, or other small buildings.

The small cargo lift can be fixed into the pit to keep the platform at the same level as the ground. We also offer one fixed ramp for convenient loading/unloading work if the pit is not allowable.

4 post Cargo Lift

4 post warehouse goods lifts are designed to solve the materials handling problem of moving and transferring goods from the ground floor to the mezzanine floor, It features a big platform size or big capacity, which can lift cars or forklifts with a max 20 tons capacity.

Our Products

Wheel Chair Lift

- The hydraulic wheelchair lift platform is a cost-effective accessibility solution that provides independence for wheelchair and power chair users and anyone else who has limited mobility. It can go max 10m high with 250kg capacity, max 4 stops

Our Products

Car Lift Elevator

- Nostec car lift elevator is a lifting machine to transfer vehicles from one floor to another floor in a safe way. It has a 3-20t capacity, a max of 6 stops, a simple operation and a safety mechanical lock, which can cope with various environments, for vehicles lifting and heavy goods lifting.

Safety Plus

1. Double traction system and double safety cable on the suspension.
2. Mechanic blocking of the lift-car for safety during maintenance operations in the pit.
3. Hidral doors specific to our platforms with fireproof certification.
4. Stop button in the pit with a plug point for small electrical devices on maintenance.
5. Unauthorized pit access detection that disconnects the platform.
6. Pluggable on lift-car push button panel for maintenance operations only.
7. Latch key inhibitor on the push button panel of every floor.
8. Overload detection device. Standard on platforms for loads higher than 1000 kg and optional for smaller loads.

Platform Solutions

Platforms with calibrated guide rails welded to a frame. The suspension is by means of chains and is provided with a rupture A valve as protection against any failure of the suspension elements. Optimize the shaft space and requires a minimum pit of only 120mm.

EXAN Product Range

Hidral Product Range

HIDRAL HAS THE SOLUTION: EHmix, THE GOODS LIFT WITH ATTENDANT

Hidral, a company with more than 35 years of experience in the lift industry, presents its EHmix Lift, a versatile solution that can be tailored to the specific needs of each company.

1 The EHmix Lift is a goods lift with two modes of function:

- Conventional goods lift mode**, ideal for peak production periods, when it is faster for two operators to be working, one on each landing.
- Goods lift with attendant mode**, designed for periods of time or premises with reduced workload and fewer staff. One operator travelling in the lift can perform all loading-transporting-unloading tasks. With this mode, you can save on staff costs and ensure more flexible organisation of work.

2 The EHmix Lift adapts quickly and easily to its different functions and is the ideal solution for warehouses, wholesalers and retailers. Also, the dimensions of the lift can be adjusted to adapt to different needed car lift surface sizes and available shaft dimensions.

3 The EHmix Lift streamlines the loading-transporting-unloading process, ensuring maximum safety when being operated from the button displays inside the cabin or on the landings.

4 EH SAFETY PLUS

The EHmix Lift stands out for its safety features. As is common knowledge, safety is one of the cornerstones of Hidral and its operations. Because of this, it has developed the best safety measures for all of its goods lifts. In the case of the EHmix Lift, the benchmark has been set even higher with the addition of all of the necessary safety features to enable the operator to travel with the goods.

Conventional goods lift mode. The load can take up more space, and the lift is operated from the button displays on the different landings, requiring the presence of an operator on each floor or one moving between landings externally.

Goods lift with attendant mode. One qualified operator carries out the entire loading-transporting-unloading process and travels in the cabin with the load.

FOR VERY HEAVY LOADS

The QHG lift is designed to make the vertical transportation of heavy loads easy and flexible in any setting.

As well as an electric anti-creep system for automatic re-leveling, it can include additional equipment for independent fast re-leveling (providing greater re-leveling speed and precision) or a mechanical anti-creep device that ensures the cabin is completely flush with the landing during the loading and unloading process.

GENERAL CHARACTERISTICS

Load capacity	1500 - 6000 kg. (According to EN 81.2 Standard Table 1.1a)
Maximum travel (*)	21 m. Max. 6 stops
Car height	2200 - 2800 mm
Speed	0.2 - 0.6 m/s
Entrance	Single or double (180°)
Control	Universal

(*) For longer travel, please enquire.

1. QHG Car. 2. Car operating panel. 3. Floor operating panel. 4. Position indicator at landing.

AESTHETIC AND FUNCTIONAL SOLUTIONS

In the car

- Walls in painted sheet metal (standard RAL 7035) or brushed stainless steel.
- Doors with a painted or stainless steel finish.
- Floor in painted high-grip treadplate, aluminium diamond plate or stainless steel diamond plate (other possibilities available upon request).
- Downlight lamps or LED downlights.
- Reinforced sill in different materials, depending on use.
- Protection bumpers in wood, painted sheet metal or high resistance tubular.
- Stainless steel operating panel with priority key switch.

At landing

- Landing doors with a paint or stainless steel finish.
- Operating panel embedded in the doorframe or received on the floor.
- Option of including the floor display.
