INTRODUCTION

GREEN FUTURE WELDING WORKSHOP is an leading metal fabrication company was established in 2006 at Mussafah Industrial Area, Abu Dhabi.

GREEN FUTURE HAVING well equipped work shop along with qualified engineers and skilled personnel for activities include steel and stainless steel fabrication, galvanizing, painting and erection works.

Commercial Registration/License Details

License	Number	Date of Issue	Date of Expiry
Abu Dhabi Municipality Trade License	219688	27/03/2016	26/03/2017

Goal:

Green Future intends to establish its identity in the field of steel fabrication industries by providing an optimum operational service to our costumers' satisfaction without compromising quality.

Mission:

Our ambition is to optimizing our operational performance and service to meet our costumers' certifications.

- To develop the levels of proactive management information and reporting.
- To ensure to provide on time service delivery.
- Continuous development of skills and training facilities to ensure to meet commitment to quality.

Quality Policy:

We are committed to develop a better image with our customers by providing a professional solution in the field of design, fabrication

and supply of engineering products to meet international standards & codes.

Continually improve the Quality Management System by establishing & reviewing quality objectives.

Green Future Specialized in:

Steel Works:

Supply fabrication and erection of:

- Steel primary and secondary structure for Factory Shed, ware house, Mezzanine floor, platform, construction projects etc.
- All type of Stare case, handrails, Ladders and walk ways.
- Steel Mold for Concrete casting for Pipes, Drain Man Holes
- Tank fabrication and Maintenance
- Wrought iron – Doors & Grills
- All type of machining works & Painting works for steel.

Stainless steel works:

Supply, Fabrication and installation of:

- Handrails and Bollards,
- Door frame and doors.
- Kitchen equipment(Cabinet, table , cupboards)
- SS cladding for columns, ceiling and wall.
- Architectural finishing works.
- Fit out and accessories for wooden works.
- Miscellaneous SS Works

We Undertake Machine shop work:

- Plate Shearing & Bending.
- Rolling of plates, pipe and sections.
- Hole drilling & slotting.
- Lathe work.
- Laserjet, Waterjet & Punching works

Please refer the attachment for list of our projects ongoing and executed, which is self-explanatory about our Company's expertise and experience.
