## Service provided ◀◀

### WALK IN COLD ROOMS

We provide total solutions in walk in chillers and walk in freezers. The temperatures of the cold rooms varies from +15° c to -30° c depending on the products to be stored in each room. The components used in cold rooms to be food safe as per HACCP requirements

### BLAST FREEZERS & CHILLERS

The concept of blast freezers is to quickly reduce the temperatures of food products as fresh produced, in order to reduce the metabolic process significantly. They are often used in the food industries such as ice cream, meat, fish and vegetable products

### COLD STORAGE DOORS

We supply and install all kinds of insulated doors  
Automatic sliding doors  
Manual sliding doors  
Hinged doors  
Swing doors  
Antipanic doors  
Rollup doors

### COLD ROOM ACCESSORIES & SPARE PARTS

We supply and replace all kinds of accessories like Ironmongeries of doors, pressure relief valves, heaters, Polar curtains and all componets of refrigeration system

### SERVICE AND MAINTENANCE

We have a very dedicated and quick 24/7 response team to attend on call maintenance issues. We provide very effective annual maintenance contract for all types of refrigeration unites

### REFRIGERATED VEHICLES

We supply refrigeration solutions for trucks pickups and vans according to the requirements
