- Transportation Cars

# ORGANIZATION CHART

## PROJECT STRATEGIES & IMPLIMENTATION

Translating ideas and dreams skillfully into the language of architecture is neither simple nor linear. It calls for experience and creativity, elegant solutions to complicated problems.

We've honed a process that organizes the innumerable details and decisions each project entails, yet remain keenly aware of when to guide you to be flexible and agile, or give you the confidence to stay the course with strong concepts.

With our wide assortment of furniture and building materials, our designers can help you select a suitable solution for your design intent and budget to reflect the specific needs of your business.

As we have a long history of dealing with particular suppliers and ranges of furniture and materials, we can veer you in the right direction to make the correct choices to suit your exterior environment.

We're here to steward you through that experience; and believe that the collaborative process should be as fun and rewarding as the outcome!

# SWIMMING POOLS & WATER FEATURES

GREEN PARADISE offers comprehensive residential and commercial designing services for swimming pool & Landscaping Projects. Our team of experts furnishes innovative design solutions with a seamless process that encapsulate our customers' brands in the market. We strive to deliver a stunning masterpiece at your space. Contribution with Natural Creativity

# SUB-CONTRACTORS

Apart from the in house support, GREEN PARADISE is keeping a set of well experienced sub contractors to meet targets. Company is always assuring perfect output from all trades by sub contractors companies, strict process control and most modern management techniques. Well experienced and well known sub contractors for all kind of exterior fit out works are the part of GREEN PARADISE to serve our Clients.

# QUALITY CONTROL & SAFETY

## QUALITY CONTROL SYSTEM:

GREEN PARADISE applies a rigorous quality control discipline to their activities. Projects are also administered and managed in accordance with these requirements.

A periodic review will be carried out in the presence of the Project Manager, who will authorize any corrective action to prevent the same source.

GREEN PARADISE have developed, and continue to develop, procedures in manual form for quality control activities to ensure continuous improvement and Customer confidence.

The technical requirements of the contract will be communicated to personnel

- Selective but effective issue of the specification and drawings.
- Selective but effective issue of the project quality plan.
- Frequent staff meetings and briefings especially for technically demanding operations.

It is understood that the technical requirements of the client, as defined in the specification will be integrated into the GREEN PARADISE Quality System.

## SAFETY:

GREEN PARADISE is committed to providing a safe working environment for all its employees and project staff whether office based or on site. Precautions will be taken to provide safe systems of work, and to ensure that adequate instructions and information are available to enable potentially hazardous operations to be assessed and controlled. Facilities will be provided to maintain proper consultation between management and employees, via routine safety meetings.

It is our intention that safety procedures associated with the following will be provided to the project personnel. They will be made available to site supervision in the form of instructions or approved method statements.

- |   |                                  |
|---|----------------------------------|
| • Safe access to and from place of work | • Fire prevention                |
| • Work in confined spaces               | • Substances hazardous to health |
| • Electricity on site                   | • Site plan & equipment          |
| • Personal protection equipment         | • Work at heights                |
| • Storage                               |                                  |
