Our company is serviced by numbers of 45M³ & 35 M³ Trailers, Flat Trailers, 6wheels (2M³), Sweet water Tankers, Drainage Tankers, Hip cranes, Boom loaders, JCBs, Diesel Tankers, Shovels, Rollers, Excavators, 3 Ton pickups Bob cats etc. Manned and maintained by highly professional and dedicated staff to provide highest degrees of customer service and satisfaction...

Our company Supplies all kind of sand, aggregates, Backfilling materials and provides services like all kind of building projects contracting, Infra structural development, general transport, sewerage and water drainage services, onshore and offshore oil and gas fields and facilities services, cement and sand sweepings and building wastes collection which are needed for the customer satisfaction. Timely and prompt services quality of our machineries, vehicles, materials, manpower and the speed of our deliveries, and efficient staffs have earned us the highest recognition and recommendation of our satisfied clients....

We are glad to offer you our best quality machineries, equipment's, materials and services as and when required and undertake the ultimate goal of satisfying the best of your expectations at all times.

II. OUR AIMS AND MISSION

I. AIMS

Success does not come easily, especially in a world of intense competition; it comes through hard work dedication and passion. We strive to achieve the best and make our work extraordinary.

We aim to become a regionally recognized brand name synonymous with quality safety and value to provide the best services that will address and safety our customer's needs requirements expectations in a cost effective way.

Our major aim is the completion of projects to the customers in time on budget and to their satisfaction to be known as a reliable efficient and service minded company to employ the best industrial practice and endeavored for excellence through total continuous improvement and innovation.

II. MISSION

- ❖ To provide the highest level of services to our clients through technological leadership commitment to service and responsiveness to the emerging needs of the market place.
- ❖ We view ourselves as the partners with our customers, our employees, our community and our environment
- ❖ Our engineering and field personnel are dedicated to one principle philosophy to serve our customers by providing innovative and effective solution to meet their requirements on time and on budget
- ❖ We will implement international standards of quality and safety to enhance our brand name in the region
- ❖ We will continually improve everything we do not be more effective and more that our competitors
- ❖ We will attract and retain the best people and foster an environment through our organization of openness and trust which empowers all of us to contribute to our full potential.

III. OUR VALUES

I. LEADERSHIP

Our goal is clear; we strive to be number one and we want people to know about it. We lead the marketplace through Vision, Technology and Service. In everything that we do try hard for excellence and accept on less than the best

II. TEAMWORK

Our staff all staffs are the part of a goal team committed to working together across the division, department and territories, only by sharing Ideas, Technologies and Talents can the company achieve and sustain profitable growth. Effective team work demands strong relationships. We communicate actively and openly build trust by honoring our commitments

III. CLIENTS FOCUS

We never lose the sight of what really matters; the satisfaction and success of our clients, our strategy and services are developed with the goals of clients in mind.

IV. RESPONSIBILITY

Well and pre-qualify actions; continuously drive projects forward through a process of follow up and review. We work with a sense of urgency and always deliver what we have promised whilst simultaneously producing high quality work we are conscientious and strive for excellence; consequently we can be relied upon.

V. INNOVATION

Our Industry thrives on innovation; creative problem solving is fundamental to our success. We constantly attempt to deliver innovative works and superior value to our clients

VI. INTEGRITY

We treat everyone involved in the organization; Staff, Field force and Clients alike with dignity and respect. We are truthful and candid, keep our promises and deliver on our commitments. We make diversity a competitive strength and demonstrate a superior ability to work together across multiple sites, multiple geographies and multiple cultures

VII. PASSION

We strive to achieve the best in the face of intense competition through sheer determination, focus and hard work. We passionate about what we and we are driven to excel in every aspect of our business

IV. MANAGEMENT SYSTEMS & POLICIES

Quality, Health, Safety & Environment (QHSE)

DAR AL ZAIN GENERAL TRANSPORT AND CONSTRUCTION has developed implemented and is maintaining an integrated management systems (IMS) which comprises international standards

Our Integrated management system is compatible with International Management Systems in order to facilitate the integration of occupational health and safety and environmental management systems with Dar Al Zein operations and facilities

Quality policy

We the management and employees of Dar Al Zein, Firmly commit ourselves to ensure that all services in the field of waste management, and related services are executed in accordance with our client specifications, within the agreed time frame and with constant quality level that will meet and exceed our client's expectation.

We will ensure that this policy is conveyed, implemented through adequate resources and training, in order to meet the requirements of our clients and ensure the continuous improvement in the effectiveness of the quality management system. We believe that quality is everyone's responsibility and continuous improvement is the driving force success. Therefore, we also commit ourselves to continually improve the quality of or service and by continuously receiving and monitoring operations and achieving our objectives.

Quality Inspections

Our Quality inspections are conducted on a daily basis via Internal auditing of operational services. Inspections are carried out at various sites by the quality Inspectors throughout the project area with the contract zone.

The basic purpose of inspections is to verify operational services in accordance with the client's requirements by:

- Identifying internal service deficiencies
- Informing the operations Departments to take immediate and effective corrective actions
- Improving operational services for overall company performance
- Taking effective measures to reduce the number of complaints

Quality inspections are performed based on pre-defined plans Quality Inspection and Test Plans (QITPS) are prepared on weekly basis and are then approved by the executive management. According to the approved plans, the scheduled districts are inspected by the designated quality Inspector. Internal deficiencies are reported to the call center in order to initiate correct actions by the operational team.

At the end of every inspection day, the quality inspector discusses all identified internal deficiencies with the senior responsible operational staff for corrective and preventive actions to taken.

The performance of weakly inspections is reported to the management and our concerned client

Health & Safety Management

We aims to provide our clients with quality services that confirm to their special requirements in order to gain customer satisfaction and trust the same time the operational activities –Solid waste collection , street sweeping and cleaning services shall be conducted to give;

- ❖ Foremost importance to the health and safety of our employees and the community members who may be effected by its operations
- ❖ Appropriate attention to the conservation of health and safety in all operational areas

To implement this policy, we shall;

- Provide the management structure and resources necessary to manage its operational potential risks on Health & Safety and environment.
- Comply with all national and local applicable laws, regulations and requirements.
- Hold all levels of management supervision, and staff accountable for Health & Safety issues and for the developments of positive attitudes among all employees of the company.
- Supervise, Identify, Monitor and Control all companies' operational activities in order to eliminate, reduce or isolate associated risks on the health, safety and environment.
- Provide adequate training to employees and develop & maintain emergency procedures in cooperation, where necessary, with suppliers and sub-contractors, local authorities and emergency services providers.

We believe that good health and safety performance is an integral part its business and considers all Health & Safety issues as a part of its primary business objectives and is committed to continually improve it.

Environmental Management

Our environmental performance which has significant environmental impact a result of the activities and services provided.

The environment management system was developed implemented and being maintained it comprises the Environmental manual, Environmental policy objectives, Procedures abide template forms.

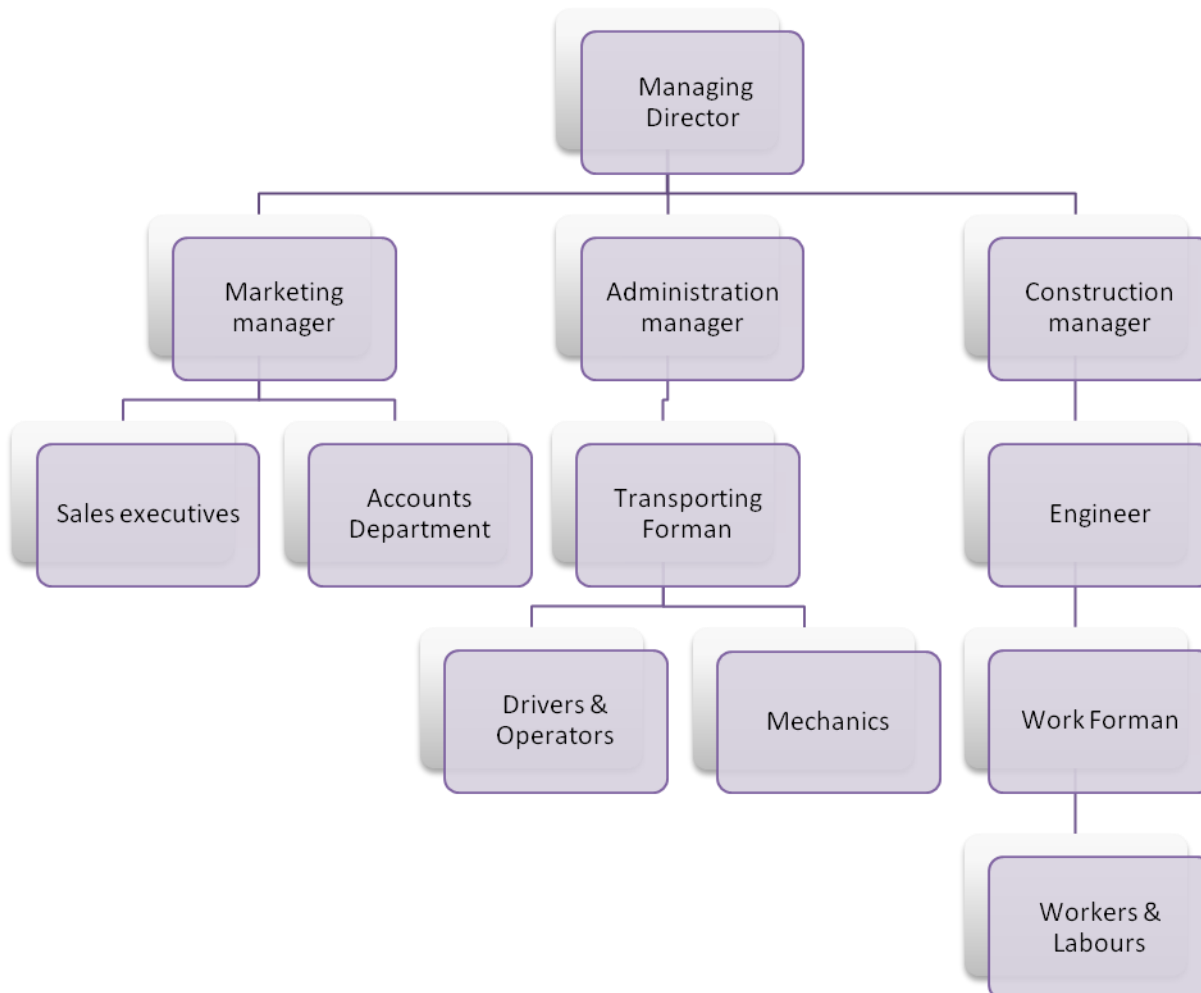

Environmental Policy

DAR AL ZEIN has Established and Implementing this policy to;

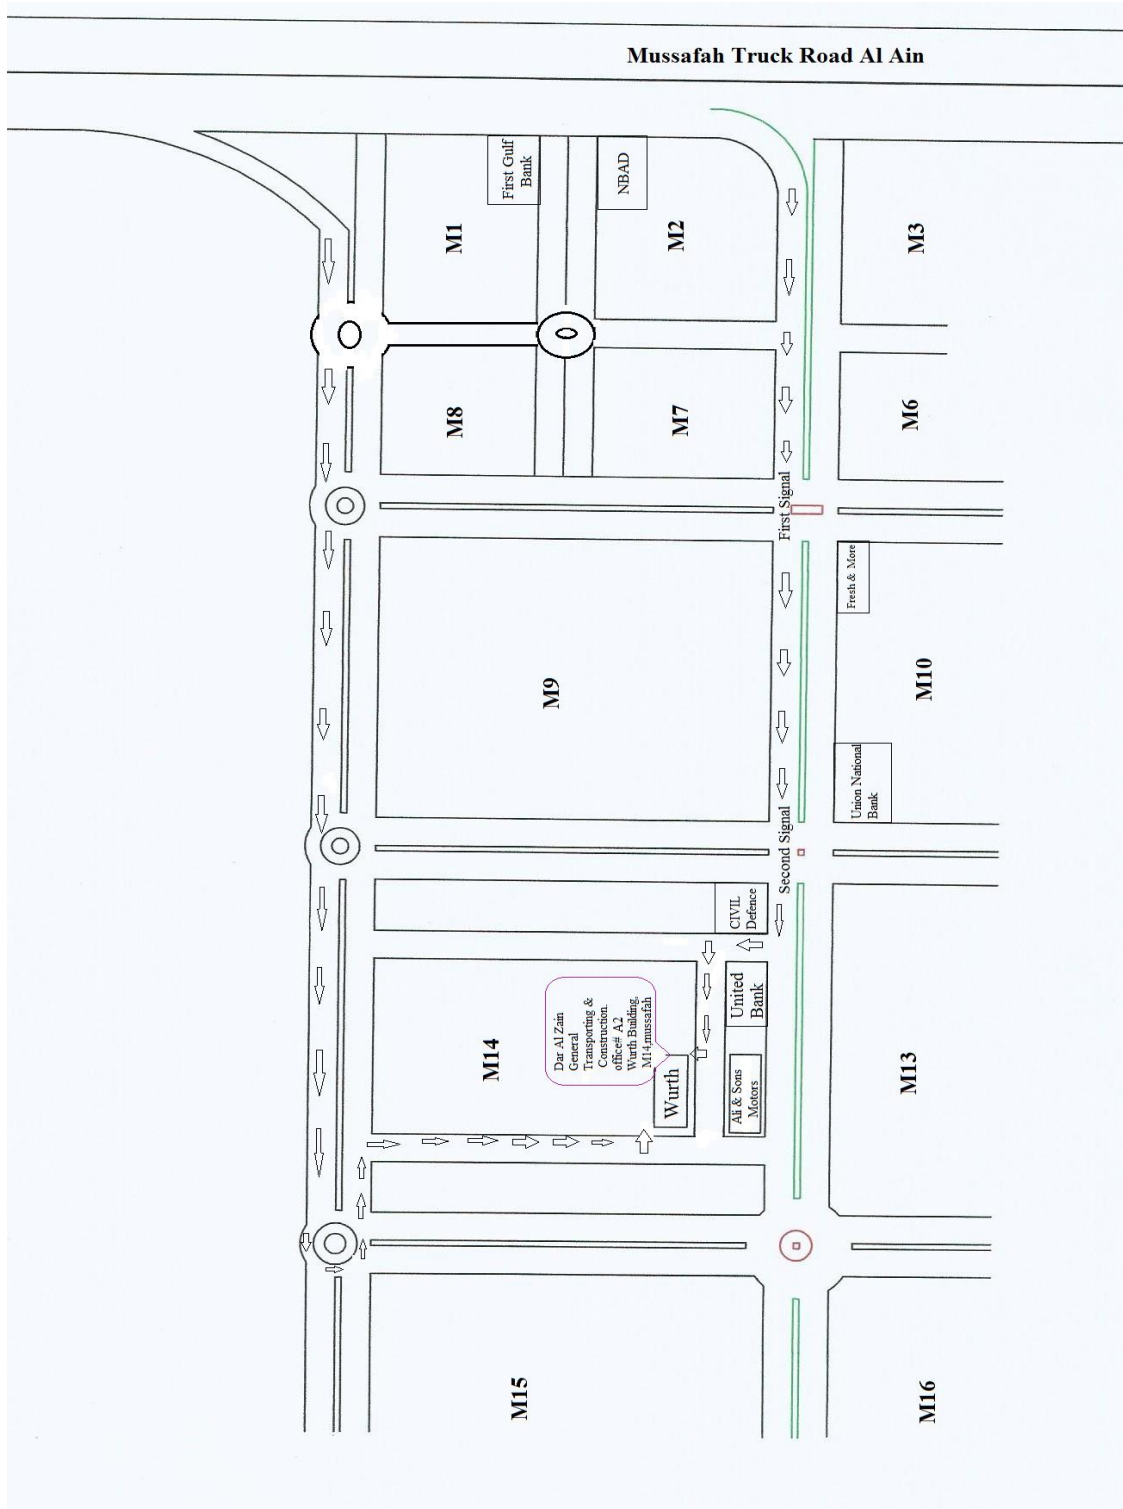

- Provide required to manage potential risk for the environment.
- Comply with all applicable national and local laws, regulations and relevant requirements.
- Hold all levels of management and supervisory staff accountable for environmental issues.
- Identify, monitor and control all activities within the organization in order to eliminate, reduce or isolate associated risks on the environment.
- Provide appropriate training to employees.
