

E SMART

COIN OPERATED LAUNDRY

The **smart** way to wash!

www.esmartdxb.com

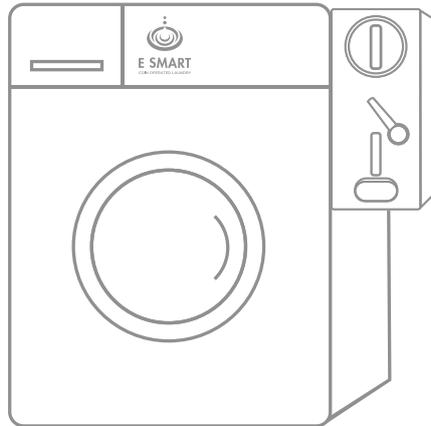

Coins can.

Can a washing machine reduce water and electricity consumption?
Can a washing machine deploy automated time management?
Can a washing machine promote self-service?

Our coin-operated washing machines can.

In fact, our coin washer units can do more. They make life easier for you with no billing counters and with less staff. Besides, they can save water as well as electricity.

E-Smart. The smart way to wash!

We are E-Smart - the most reliable coin operated laundry services in the UAE.

Established in 2016 with a vision to provide great quality of washing without wasting a single drop of water, and without being heavy on the wallet, E-Smart is an ISO certified organization that has been offering highly efficient Coin operated self-service washing machines for labor and staff accommodations.

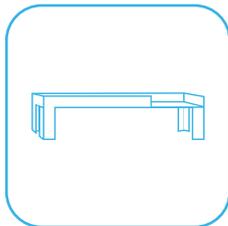

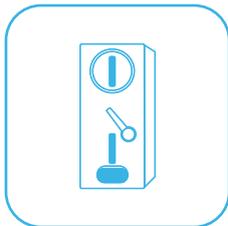

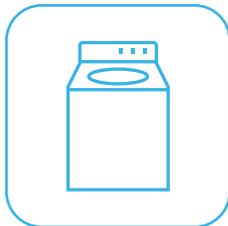

Currently operating with a 4000 Sq. Ft. warehouse, ever since inception, we've committed ourselves to improve our laundry performance and our quality of service every single day. Not surprisingly, we're one of the largest commercial coin operated laundry provider in the UAE.

Having installed our machines in over 500 locations across the country, we constantly innovate with our R&D activities to offer technology that are ahead of its time in today's rapidly changing technological era. After all, our mission is to help you run the most efficient and most cost-effective laundry facility.

Smart products for smart people!

Besides offering high-performance coin operated washing machines, we offer a range of laundry related products and services. All our products are backed by advanced technology and every machine we install passes through stringent inspection before installation and our service engineers ensure that our customers enjoy a hassle-free experience by monitoring the machines at regular intervals. All these, at a highly competitive price!

Installed our machines in over
500 locations
 across the country

Our Services

- Coin Operated Washing Machine service with Lifetime Free Maintenance
- On Rent - Coin Operated or normal Washing Machines
- Sale - Coin Operated Washing Machine

Products

- Top Load Washing Machine - Coin Operated

6 Kg Front Load Washing Machine

Machine specifications:

Gross capacity: 6 Kg
Control programs: 3/Coin control
Spin speed: 1000 RPM
Digital display: LED
Voltage: 220-240V, 50Hz
Built-in-Heater: No
Dimension: 740*490*810
Weight: 58 Kgs

Washing cycles:

- 1) Quick wash - 25 minutes.
- 2) Standard wash - 35 minutes.
- 3) Heavy wash - 45 minutes.

(Coin setting for each washing cycle can be set as per requirements)

7 Kg Front Load Washing Machine

Machine specifications:

Gross capacity: 7 Kg
Control programs: 3/Coin control
Spin speed: 1000 RPM
Digital display: LED
Voltage: 220-240V, 50Hz
Built-in-Heater: No
Dimension: 760*530*840
Weight: 66 Kgs

Washing cycles:

- 1) Quick wash - 25 minutes.
- 2) Standard wash - 35 minutes.
- 3) Heavy wash - 45 minutes.

(Coin setting for each washing cycle can be set as per requirements)

8 Kg Front Load Washing Machine

Machine specifications:

Gross capacity: 8 Kg
Control programs: 3/Coin control
Spin speed: 1200 RPM
Digital display: LED
Voltage: 220-240V, 50Hz
Built-in-Heater: No
Dimension: 780*550*840
Weight: 72 Kgs

Washing cycles:

- 1) Quick wash - 25 minutes.
- 2) Standard wash - 35 minutes.
- 3) Heavy wash - 45 minutes.

(Coin setting for each washing cycle can be set as per requirements)

10 Kg Front Load Washing Machine

Generally blankets require more water when washed with hands. When washed using our machine, it saves both water and time.

Machine specifications:

Gross capacity: 10 Kg
Control programs: 3/Coin control
Spin speed: 1200 RPM
Digital display: LED
Voltage: 220-240V, 50Hz
Built-in-Heater: No
Dimension: 780*600*860
Weight: 76 Kgs

Washing cycles:

- 1) Quick wash - 25 minutes.
- 2) Standard wash - 35 minutes.
- 3) Heavy wash - 45 minutes.

(Coin setting for each washing cycle can be set as per requirements)

6 Kg Top Load Washing Machine

Machine specifications:

Gross capacity: 6 Kg
Control programs: 3/Coin control
Digital display: LED
Voltage: 220-240V, 50Hz
Dimension: 540*540*940
Weight: 35 Kgs

Washing cycles:

- 1) Quick wash - 23 minutes.
- 2) Standard wash - 34 minutes.
- 3) Heavy wash - 45 minutes.

(Coin setting for each washing cycle can be set as per requirements)

9 Kg Top Load Washing Machine

Machine specifications:

Gross capacity: 9 Kg
Control programs: 3/Coin control
Digital display: LED
Voltage: 220-240V, 50Hz
Dimension: 580*596*968
Weight: 42 Kgs

Washing cycles:

- 1) Quick wash - 23 minutes.
- 2) Standard wash - 34 minutes.
- 3) Heavy wash - 45 minutes.

(Coin setting for each washing cycle can be set as per requirements)

6 Kg Stack Washer and Dryer

Machine specifications:

Gross capacity: 6 Kg
Control programs: 3/Coin control
Spin speed: 1000 RPM
Drying speed: 60 RPM
Digital display: LED
Voltage: 220-240V, 50Hz
Dimension: 760*800*2030
Weight: 152 Kgs

Washing cycles:

- 1) Quick wash - 25 minutes.
- 2) Standard wash - 35 minutes.
- 3) Heavy wash - 45 minutes.

Drying cycles:

- 1st cycle for 45 minutes.
- 2nd cycle for 90 minutes.

(Coin setting for each washing cycle can be set as per requirements)

6 Kg Dryer

Machine specifications:

Gross capacity: 6 Kg (9 Kg also available)
Control programs: 2/Coin control
Drying speed: 60 RPM
Digital display: LED
Voltage: 220-240V, 50Hz
Dimension: 740*490*810
Weight: 30 Kgs

Drying cycles:

- 1st cycle for 45 minutes.
- 2nd cycle for 90 minutes.

(Coin setting for each washing cycle can be set as per requirements)

Card Operated: 6 Kg Front Load Washing Machine

Machine specifications:

Gross capacity: 6 Kg
Control programs: 6/Card
Spin speed: 1000 RPM
Digital display: LED
Voltage: 220-240V, 50Hz

Washing cycles:

- 1) Quick wash - 25 minutes.
- 2) Standard wash - 35 minutes.
- 3) Heavy wash - 45 minutes.

(Card can be recharged through our mobile application)

Stand for Washing Machine

These stands are used for keeping Washing Machines.

Stand specifications:

40mm MS angle
Powder coated

Coin Acceptor
