COMPANY PROFILE

"Equipped with most sophisticated Italian marble block cutting, resining and polishing machinery, Gulf Mining produces 60,000sq meters of polished and unpolished slabs and tiles, carved marble tiles, steps and risers from raw blocks in its plant in Buraimi, Sultanate of Oman.

Selection of raw marble is of immense importance for our production and special care is taken while extracting marble blocks from our three marble mines located in Oman. Only the best quality marble blocks are used for processing. Adopting strict quality controls while cutting, polishing and packing of marble, Gulf Mining offers marble products with a unique combination of highest finish and attractive colours for interior and exterior use in residential and commercial buildings, shopping malls, hotels, towers etc.

Omani Marble has created a niche market for itself in all parts of globe and is known for its aesthetics and durability. Omani Marble products are being exported to GCC, China, Other South East Asian Countries, India, US & Europe, to name a few.

Gulf Mining Materials Company, UAE is also supplying Italian, Spanish, Turkish, marble slabs and tiles of various colours and also Indian granite.

Gulf Mining Materials Company is part of Gulf Mining Group which besides marble, is engaged in mining and processing of chrome ore, drilling and blasting, shipping, logistics and trading of minerals and metals."
