

Logistique Worldwide

Company Profile

About the Company

- Logistique Worldwide is a Dubai based Logistics company
- The company was established in 2013 in Dubai Investments Park
 - Office Location: Suite 602; Al Asmawi Building, Dubai Investment Park-1, Dubai, UAE
- Currently the company's focus has been on providing dedicated and on demand haulier service within the GCC countries
- Company is founded by Mr. G.B.Panicker, who is currently serving as the managing director.
- Company is currently fully financed by the Managing director with zero debt liabilities from any financial institutions

Vision

“ To be a premier logistics company in the UAE market by providing the high standard of service and be a trusted partner to our customers”

Mission

- *To provide customers with service that is dependable and high standard at all times*
- *To be receptive to customers needs in a professional and timely manner*
- *To recognize that our customers are our only assets for our continued success*

Current Company Assets

- Physical establishments include:
 - 1173 square foot furnished office space in a premier office building in Dubai Investments Park
 - 8-individual staff accommodation in Jebel Ali Industrial City

Current Business Model

- **Dedicated long term haulier contracts – Low Risk, High Margin Business**
 - Currently Logistique Worldwide is on a 3 year contract with a large multinational company in Jebel Ali Free Zone
 - This model allows for guaranteed dedicated charges plus per kilometer charges
 - Logistique is currently serving within UAE and Oman for this customer using customized side curtain trailers
- **Preferred haulier service supplier – Medium Risk, High Margin Business**
 - Logistique Worldwide is currently the preferred haulier service supplier for 2 multinational companies
 - Current services provided include container movement and flat bed trailer service
- **On demand haulier service – Low Risk, Low Margin Business**
 - Logistique Worldwide also has a network of outside haulier suppliers that can be used to meet the demand of customers
 - Although this is a low margin business, it serves as supplementary model to serve the low market demand situations
