Where Plans Are Converted
to Amazing Interiors

INTERIOR FIT OUTS

Interior fit outs that are functional, stylish & practical

Our primary activity as turnkey interior fit out contractor is to provide build services to all types of commercial establishments like hotels, offices, retail outlets, F&B outlets. The scope of works can include all type of civil works, finish works, joinery works, MEP works, FF&E. We work with local and international interior design consultants and project management firms to build and deliver the spaces as designed and envisioned by them. We deliver a comprehensive 'start-to-finish' package which allows you to concentrate your efforts on running your business whilst we deliver your project.

Cost control is an important part of our project management. Our value engineering ensures projects with tightest or shoestring budgets are completed within the estimated budget. Celcius Interiors believe that our role as principal contractor is to support and deliver the objectives and requirements of our clients.

"Our goal is always to create a place where there's a memory."

Laura Sartori Rimini

Commercial & Residential
Joinery Works

JOINERY AND CARPENTRY

Bespoke Joinery Works

Our joinery factory houses experienced carpenters and craftsman, to provide bespoke joinery needs for any interiors. We provide joinery solutions for all tastes and budgets maintaining highest quality of craftsmanship. Our factory is equipped with modern wood working machines, tools and equipment's. Under joinery services, some of the activities involved are design, produce, supply and installation of bespoke wood works, wooden fire rated and non fire rated doors, wall paneling, skirtings, customized furniture, wooden ceilings, wooden partitions, kitchen cabinets and wall shelves.

Celcius can manufacture custom designed furniture from different type of high quality engineered woods and natural hardwoods for various interior needs. Upholstery services for such furniture works are done using finest quality of materials, reliable and high quality wooden or plexi frames, high density foam, and sprung bases.

We also have a professional paint booth for painting wooden furniture and to provide industrial quoting to finishes. High end finishes such as Lacquer, Staining, Waxing, Acrylic paint, Spar varnish, Veneer, are all performed to highest standards by our team at our facility.

- **Bespoke Furniture**
- **High Quality Craftmanship**
- **Upholstery Works**
- **Fire Rated Doors**
- **Architectural Joinery**

Customized Furniture, fixtures and equipment for F&B, hospitality, retail spaces and luxury villa are designed and built with absolute professionalism and high quality delivery standards. They all are built from industry specified and top quality raw materials under strict supervision and planning. Our stringent quality standards will ensure even luxurious works are done at cost competitive process and delivered on time with precise perfection.

"The only important thing about design is how it relates to people."

Victor Papanek

CIVIL WORKS / GLASS & METAL

Civil Interiors

Civil works are the first segment under fit out services to start initially at the site. Celcius as a turnkey contractor undertakes all aspects of civil works. An open space in its shell and core format or an already built space will need a lot of space re-arrangement according to the design derived. As first step towards such build, we carry out demolition works, block works & partitions of walls.

Ceiling Works: We provide and build beautiful and perfectly finished ceilings, that are modern and brings amazing look, incorporating grid patterns, lighting fixtures, diffuser placement and other services, which are all perfectly synchorized & placed as per the ceiling design.

Flooring works: Can have a varied different types of choices and finishes. We can supply and install different types of flooring like, vinyl flooring, engineered wooden or hardwood flooring, laminate flooring, marble, ceramic tile, carpet, stone, cementitious and specialized flooring needs like raised flooring and outdoor flooring.

Wall Finishes: They are elaborate, broad and comes in plethora of choices. The wall finishes (material) we can do are brick & stone finishes, wooden & veneer paneling, laminate finish, cement plastered finish, tile cladding, marble powder finish, marble claddings, sand textured & pebbles finish, cantor or faux finishes, coral, stained glass finish, glass mosaic, wall paper and stucco/ textured wall finishes.

Paint works: All the works are carried out on levelled surface with under-coats to give best appearance for final finishes. The final paint finish can have any of these finishes Matt emulsion, Flat Matt emulsion, Satin & Silk finishes, Eggshell finish, High glossy and semi glossy finish.

Glass, Aluminium & Metal works

Another crucial elements to any interiors are glass, aluminum and metal works. We work with partners who are specialized in fabrication, design and installation of glass, aluminum and metal works and have large infrastructure facilities to undertake quality production of such works. We undertake jobs that involve glazed partitions, glass curtain walls, glazed doors and windows.

We can provide bespoke metal works that are part of design element and decorative furniture. We add that special metal touch to make your interior stand out from the rest. The metal fabrication includes mesh works, claddings, railings and metal fixtures for joinery all built using high quality graded steel with unmatched workmanship.

MEP WORKS

Mechanical, Electrical & Plumbing

Performance of key building services like HVAC, water lines, electrical works, depends on the quality of the MEP design adopted. Such professional MEP design needs to be adopted in its full capabilities to deliver a successful implementation of the project. We provide complete design and execution of MEP services.

Electrical Services: Includes fixing of bus bar systems, cable trays, trunking, conduit-ing and wiring, cabling and termination, installation of Main Distribution Boards, Sub Main Distribution Boards and switchgears. Supply & installation of electrical & lighting fixtures.

Plumbing Services: Includes installation of drainage system, water supply system, supply fixing sanitary wares & accessories.

Mechanical Services: Includes Installation of HVAC, Fire fighting & other specialized systems

HVAC Services includes providing heat load calculations, fabrication & installation of duct, installation of chilled water pipes, fittings, valves & accessories, installation and calibration of FCU & AHU.

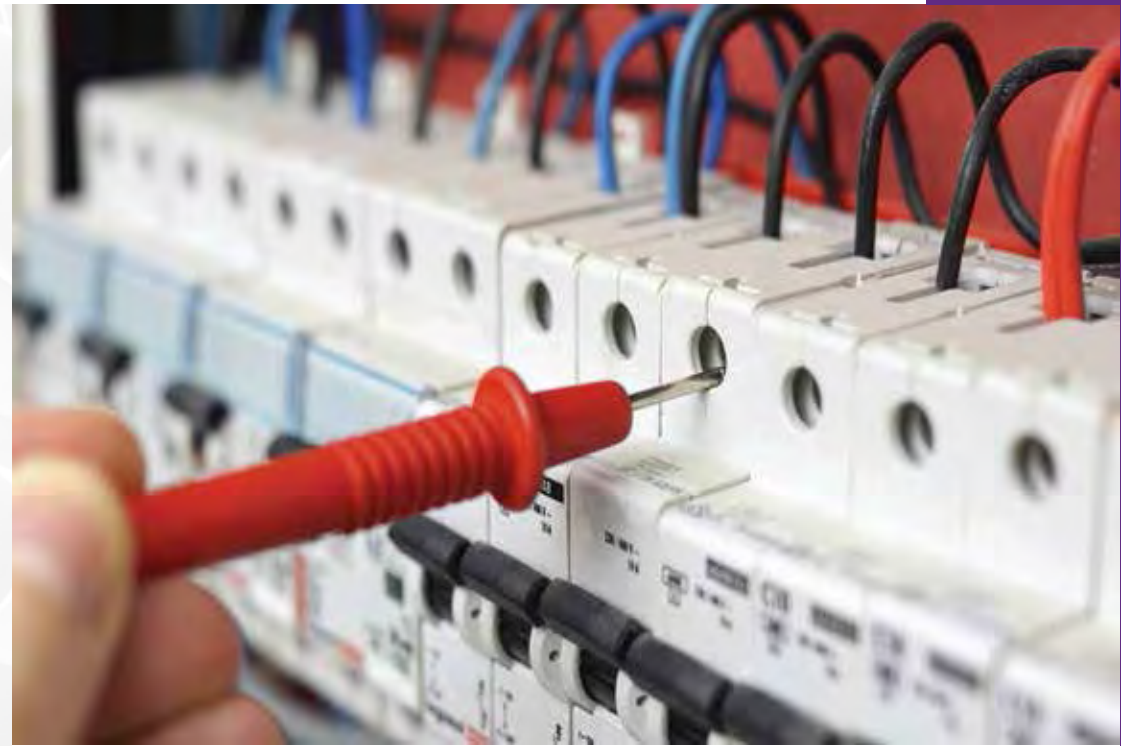

Fire Alarm & Fire fighting System installations includes Sprinklers, Fire hose reels, landing valves, pump sets, piping with valves and accessories, FM200 Systems, etc.

ELV and ICT services

Celcius Interiors provide ELV & ICT services through its sister concern Syslab Installation, a dedicated business division offering design and technology integration.

SYSLAB Installation provides Technology Integration Solutions and Services for SMBs, Corporates and Enterprises in the field of Information and Communication Technologies, Security & Surveillance Systems, Audio-Visual and Automation.
