ARMOR & PROCESSING CARS LLC

ABOUT US

AUTOZONE Armor & Processing Cars LLC offers all engineering, designing, conversion and customization services for your wheels under one large roof that accommodates Vehicle Armoring, Ambulance Conversion, Special Vehicle Conversions like Mining Vehicles, Police Vehicles, Fire and Rescue Vehicle, Mobile Workshop, Mobile Healthcare units, Complete Marine solutions and a lot more.

AUTOZONE 's experienced crew and advanced facilities make sure that your vehicle is modified in the right way. We work closely with our clients to understand the requirements and operational conditions to customize the vehicle exactly in the exact way they want it. Our team is specialized in making custom modifications that are tailor-made as per the need. Our vast facility can serve larger quantity production within the stipulated time frame. That's why we are one of the leading vehicle converters in the Middle East, Europe and Africa. Our branches in UAE, the UK and East Africa continuously connect with our clients to make sure our services reach them in a perfect way before and after the sales.

OUR MISSION

We aim to design, develop and manufacture high-quality tailor-made products for specific uses and applications along with ensuring the security and privacy of our customers. We are constantly in an effort to improve our operations and to innovate.

OUR VISION

We are committed to providing top-notch services to our customers. We will continue to develop and improve our facilities, implement value-added services for our customers and provide advanced technologies. We want to set a global standard for Mobile Solutions in the future. This will help us improve and benefit the existing market while leaving a signature that will impact generations to come.

OUR HISTORY

AUTOZONE, we as a team, had gone through a wonderful journey ever since the brand's genesis. AUTOZONE's journey started when it debuted the brand Autozone Global in 2011 after which it was renamed AUTOZONE Armoring & Processing Cars LLC after a year of successful operations. Our staff had many years of experience under their belt, which propelled us forward on our journey from then.

Since then, AUTOZONE has been on a positive stride towards being the market leader in the vehicle modification/conversion industry. Thanks to the committed workforce and supreme quality products that we delivered, we have earned great feedback from customers around the globe.

ACCREDITATION

AUTOZONE has come a long way from where it started, and through its journey, we have taken on several challenges and completed them, winning the hearts of thousands of customers around the world. In the process

of that, our committed service and quality products have won awards and accreditations which we proudly present as golden feathers on our caps.

AMBULANCES

AUTOZONE custom-crafted ambulances can be made on all major global brands of vehicles according to customer's choice and place of operations

In the event of an emergency, every second counts. A fraction of a second delay can change somebody's life in a drastic manner. We understand that importance, so we impart all our knowledge and experience into the manufacturing of our ambulances. We are pleased to know our ambulances have been a part of many successful rescue missions in many parts of the world. This has given us the energy to proceed forward, innovating as we move along. This has also helped us to rise up to one of the biggest ambulance suppliers in the United Arab Emirates.

We comply with all the global standards and we build Ambulances based on the global classifications. Our custom modification capability will help you customize your ambulance in the exact way you want. Thus, we ensure that there is always one ambulance design that fits your bill perfectly. So, a client will be able to buy an ambulance based on his choice.

TOYOTA

NISSAN

HYUNDAI

RENAULT

PEUGEOT

Mercedes-Benz

GMC

Toyota Prado

Designed for the rapid response during accident and emergency for faster paramedic response

ARMORED VEHICLES

Your safety is our priority and our armored vehicles ensure it. We design armored units for different applications such as SUV, cash in transit and more...

Being on the road can be quite risky if you are a well-known personality. In the recent years, attacks targeting cars are on the rise as you are the most vulnerable when you are in them.

That is where AUTOZONE's armoring rises up to skew the stats. Our highly skilled team armors any vehicle of your choice by hand to ensure the best level of protection. Our bullet-proof vehicles are built to take on some serious ballistic power. Our state of the art facility and specially trained staff ensures the highest quality of your desired product. For us, your safety is paramount and we make no compromises on that.

We are one of the leading vehicle armoring companies in UAE. Apart from police and military vehicles, other peacekeeping forces, embassies, border patrols, celebrities, banks (cash in transit and precious cargo transportation), security companies and NGOs have received vehicles from us and are among our esteemed customers.

Our vehicles are armored by bolstering the panels with steel plates, a combination of ballistic sheets. The floor and roof are lined with bulletproof fabric, which will absorb the impact of the gunfire, keeping the passengers safe inside. The bumper up-front is strengthened to power through obstacles on the road. A sandwich of polycarbonate and leaded glass replaces the glasses.
