Pop Corn Tub 85 Oz	1 x 500

Straws & Cutlery

#IMNOTPLASTIC

Straw is made from polylactic acid (PLA) or cornstarch. This performs much like traditional plastic, however, the crucial benefit behind this is that they are 100% certified biodegradable and compostable.

PLA straws hold a number of benefits. Not only are they made from renewable plant-based materials but they also require 68% fewer fossil fuel resources to produce than traditional plastic and are commercially compostable to boot. This makes them a more sustainable choice in comparison to their plastic counterparts. They are also sturdy, hold well in drinks and are perceived to be more hygienic as they are a single-use item.

S.No	Description	Packaging
1	Eco Friendly Straws PLA Black	6mm
2	Eco Friendly Straws PLA Clear	8mm
