INDEX

1. Huzaifa Water Treatment Company Profile
2. Water Purification & Filtration System.
3. Water Softening & Ion Exchange System.
4. Containerized Reverse Osmosis Water Treatment System.
5. Mazrah, Farm House Reverse Osmosis Plant for Irrigation.
6. Grey Water Treatment System in Hi-Rise Buildings
7. Ozone System.
8. HCT-Hydrochemtec Chemicals & Commodity Chemicals.
9. Huzaifa Water Swimming Pools Chemicals, Annual Contracts &
General Maintenance.
10. Spare Parts & Consumables.

COMPANY PROFILE

Huzaifa Water Treatment Equipment Trading LLC is established in Dubai, United Arab Emirates since 2011, Huzaifa water realizes on every scale, the services of Design, Engineering, Manufacturing, Commitment and after sale services, on commercial and domestic scale, While the Sales & Technical Director is Mr. Muhammad Hashim, M.Sc. (CHEMICALS).

Huzaifa water Treatment with its studies, aims at rarefying the quality and efficiency if manufacturing in industry by enabling the most vital needs go human being and the process water that is necessary for industry. The various divisions are managed by well experience Technical Engineers in all respects & takes maximum care for key points for each kinds of activity.

- *To accommodate the customer with right detection of the need and optimum engineering solution.*
- *To enable the system that will be installed to be easy to operate and control.*
- *To continue a close relationship with the customer through the post-sale technique service support.*
- *To enable the customer with the most suitable technology, equipment and service support.*
- *To train the customer representative best.*
- *Delivery of materials on time.*

Introduction & Core Activities

Huzaifa Water Treatment Company employs over 25 persons in U A E, which are Engineers, Chemists, and professional Technical with procure department and Finance department to control day to day Accounts reports. Huzaifa Water Treatment Company employs over 25 persons in U A E, which are Engineers, Chemists, and professional Technical with procure department and Finance department to control day to day Accounts reports.

1. *Water Purification and Filtration Systems.*
2. *Trading for Water Treatment Equipment's.*
3. *Specialty Chemicals.*
4. *Swimming Pools Chemicals and equipment's.*
5. *Water softeners, softener salt, Clack Head USA and equipment's.*
6. *Domestic Water Treatment and Auto dosing systems.*
7. *Cooling towers, Automatic Chemical Dosing systems with Blow down circuit and Chillers water Treatment & Auto Chemical Dosing Systems.*
8. *Steam Boiler water treatment & Chemical Dosing systems.*
9. *Disinfection of the newly build Towers.*
10. *Reverse Osmosis Plants chemicals and Membranes cleaning systems.*

Multimedia Filtration systems up to 30 microns.

Huzaifa Water Quality Management System

Products & Services;

Our main aim is to satisfy the customers by providing the highly dedicated services with good material products, which should meet as per the demand of customer.

Employees;

Our valuable Employees are of Excellent Experience with international standard skills, enthusiastic and motivated engineers with full of knowledge delivering nice efficient in healthy environment.

Customers;

Our main object is with the professional way is to satisfy the customer to proceed the business & long lasting relationship on the basis of excellent supply of products and services on right time without failing any delay of work.

Award and Cirtification

Swimming Pool Water Treatment.

Our Engineers having experience to maintain the clarity of swimming pools through filtration, Flocculent for water Clarity, vacuum cleaning and disinfection with chemical application, i.e HTH CALCIUM HYPOCHLORITE 60%, SDIC, TICA, POOL ACID, QUICK FLOC AND ALGACIDE to the pool professionally, Super chlorination of pool after 2-3 weeks, water analysis with the highly accurate Palin test/ Lovibond photometer.

Swimming Pool Filtration System.

Automatic Chemicals Dosing Units.

Automatic chemical dosing to the pools with controllers, proportional dosing pumps for PH & CHLORINE to maintain optimum parameters to minimize the human errors and it is the requirement of Municipalities for the Health and safety standards.
